The MAAP EOC Assessment for Algebra I consists of one online session, and the EOC Assessment for English II consists of two online sessions. Schools should set aside blocks of uninterrupted time for the administration of each session.

More information on each assessment can be found on the MDE website at <http://www.mdek12.org/osa/MAAP>.

## District Test Coordinator's Checklist

### Before Testing

- DTCs will carefully read the DTCM to become familiar with general test administration activities. The DTCM and additional information can be accessed on the *Help* page in Nextera Admin. Contact Questar Customer Support at 1-800-644-4054 with any questions.
- If a DTC has not received their Nextera Admin User ID and temporary Password from Questar, he or she should contact Questar Customer Support.
- DTCs will communicate the dates of the testing window to all STCs within the district, assist schools with providing test training and preparation activities for students, and schedule test windows.
- DTCs will create a school testing schedule, identifying students who will be tested each session during the testing window. Be sure to consider the number of students participating in online testing and the number of available devices. Make sure students with special accommodations are accounted for in the schedule.
- DTCs will train STCs and Technology Coordinators for their specific roles in testing. DTCs may want to attend, assist, or monitor the Test Administrator training at each school.
- DTCs will add or edit users to allow specific individuals the rights they need for accessing their student information. Only one individual can be listed as the DTC, and only one STC can be active per school. However, multiple District and Building Level Users, as well as multiple TAs, can be added.
- During the registration window, DTCs will order accommodated testing materials.
- DTCs must ensure appropriate implementation of accommodations and address any special needs and supplies regarding test accommodations. Make sure that the appropriate accommodations are assigned to students in Nextera Admin.**
- DTCs must ensure that STCs understand the policy for Read-Aloud administrations.
- DTCs must ensure that STCs understand how to print student login credentials, access the Proctor Password, add or edit a Test Administrator, add or edit a student, and mark accommodations for students.
- DTCs must ensure that students not present in Nextera Admin are added (either manually or via the Pre-ID portal) and assigned to a test.
- DTCs must ensure that all eligible students have been assigned to a test.
- DTCs must ensure that STCs understand how to troubleshoot common online testing issues.
- DTCs must ensure proper spacing between work stations is available.
- DTCs must ensure that systems are properly set up and ready for online testing.
- DTCs will distribute test materials to the schools and verify that each school has received the necessary test materials.
- DTCs will notify Questar of any missing materials and order additional materials as necessary.
- DTCs will provide approved rosters for Test Administrators to ensure accurate student placement.
- DTCs will save the boxes in which materials were received in order to return the materials to Questar after testing is complete.

## During Testing

- DTCs will be available during schools' testing sessions to answer questions and help resolve issues as needed.
- DTCs will assist STCs in identifying and resolving any testing incidents.
- DTCs will provide schools with additional materials as necessary.
- DTCs will monitor schools to ensure that test administration and test security policies and procedures are followed.
- DTCs will communicate with the MDE, as needed, in cases of testing incidents and security breaches or for guidance when test invalidation is being considered.
- DTCs will submit invalidation requests per the MDE guidelines.
- DTCs will adjust testing schedules if inclement weather or other unforeseen events threaten or force school closures, network interruption, etc.
- DTCs will ensure that each school has only one designated computer technician that can use a cell phone during testing to provide technology support.

## After Testing

- DTCs will verify that all online tests have been submitted using the Testing Status Details page in Nextera.***
- DTCs will collect and inventory all secure test materials, and DTCs will return them to Questar per the instructions found in the District Return Kit.
- DTCs will shred the appropriate materials, then complete and upload the appropriate shredding documentation to the Office of Student Assessment as outlined in the Test Security Plan using the Test Security Certification Form.
- DTCs will collect all paperwork required to be filed according to the District/School Test Security Plan.
- DTCs will notify the MDE of any missing materials.

## Test Irregularities

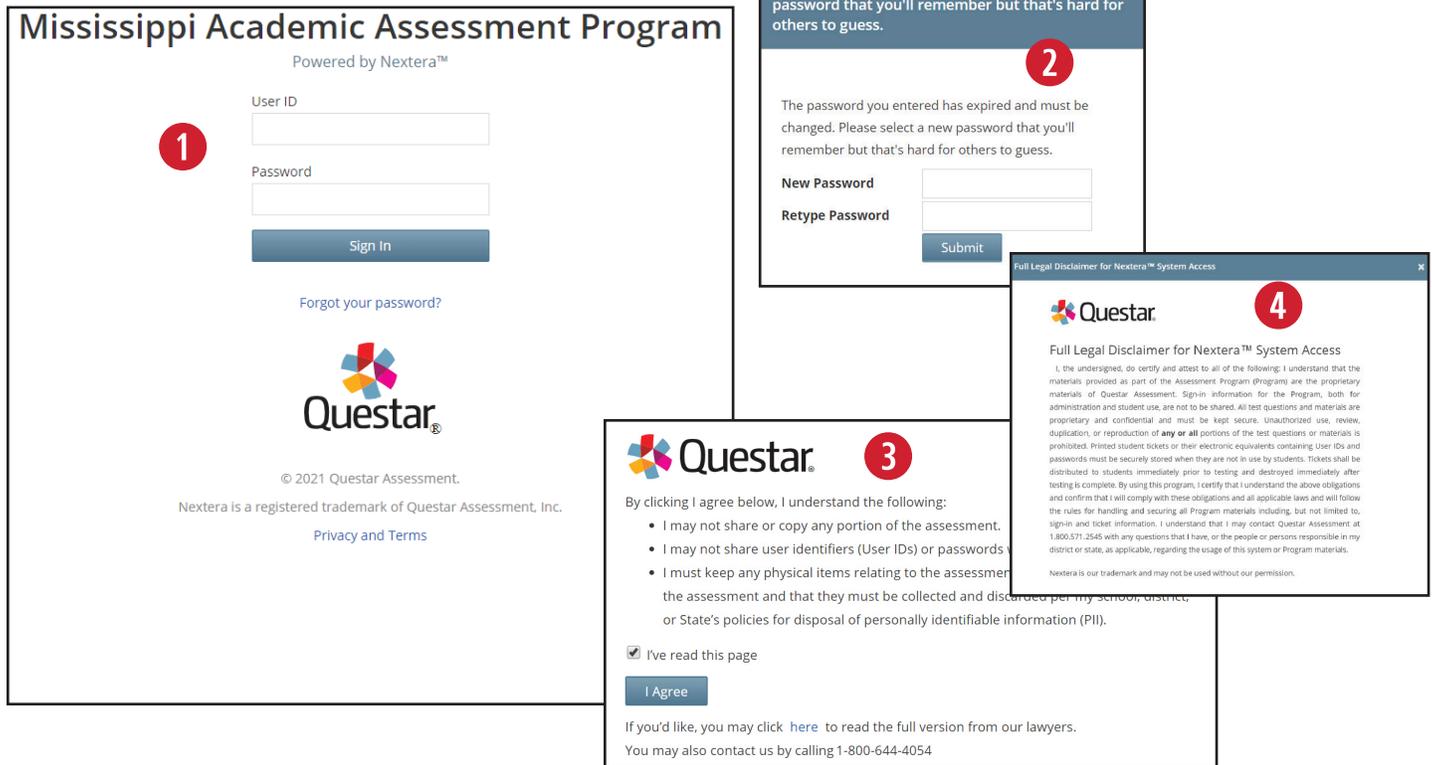

Schools must not schedule an interruption to the school day, such as a fire drill, that will affect students in any way during the assessment. If an interruption in testing occurs due to severe weather, a fire alarm, or any other natural or man-made occurrence, the Test Administrator must immediately notify the STC and note the circumstances/time of the occurrence. As soon as circumstances allow, the STC must notify the DTC, and the DTC must then notify the MDE. Test administration must resume as soon as possible after the interruption, and students must be allowed the full amount of time remaining when the interruption occurred. **If testing cannot continue the same day, contact the MDE prior to rescheduling.**

Following an interrupted test administration, the MDE staff will review the incident to provide guidance as to whether the students' work will be counted as a valid attempt. The determination of a "valid attempt" will be based on whether the students had a significant opportunity to discuss test content during the interruption.

In a situation where students have strong emotional reactions (such as an actual fire or another situation that creates a real or perceived threat or causes damage to property or injury to a person), the appropriate course of action will be determined following a review of the circumstances.

If any occurrence raises questions or concerns about correct test administration, contact the MDE immediately. The MDE State Board of Education testing irregularity policies, as stated in the current edition of the Mississippi Public School Accountability Standards, must be followed.

A DTC can merge multiple accounts for a user by going to the *Accounts* page. Only two accounts can be merged at a time. Repeat the following process if more than two accounts need to be merged.

- ① To merge user accounts, select **Merge Accounts** on the *Accounts* page. On the *Merge Accounts* page, select the **Select** button for the two accounts you would like to merge. Then select **Merge Accounts**.
- ② Select the **Make Primary** button for the primary account. Then select **Merge Accounts**.
- ③ A pop-up window will appear confirming the merge was successful.

**Note:** Only one individual can be listed as the DTC, and only one STC can be active per school. However, multiple District Level Users and Building Level Users can be added. Additionally, Teachers will be pre-populated into Nextera Admin after student Pre-ID files from the state are loaded by Questar prior to each administration.

## Updating a Student's School of Record and Testing School

There will be times throughout the test administration window when students have switched schools within your district and will need their **School of record** updated within the Nextera Admin site. During this time, DTCs must also update the student's **Testing school/class** for each subject in which the student is testing. This section will give you step-by-step instructions on ensuring that a student's School of record and Testing school data match.

### To Update a Student's School of Record and Testing School:

- 1 Select the **STUDENTS** tab, then select **Students** again from the drop-down menu.
- 2 Select the **View** button on the student needing their school of record changed, then select **Edit**.
- 3 From the **School of record** drop-down menu, select the correct school for the student.
- 4 Scroll down until you can see the subjects that the student will be testing in. Select the **Testing school** drop-down menu and ensure that the **School of record** and **Testing school** are the same. The image below shows the **School of record** and **Testing school** not matching and in need of correction. Updating the **School of record** alone will **NOT** update the **Testing school**. This must be done for each subject the student is testing in.

**Note:** If a student needs to be moved from a school in another district to a school in your district, you must contact Questar Customer Support to request this change.

## Registration

During the Registration window, DTCs will order accommodated materials (test books) for each school in the district. This section walks DTCs through this process.

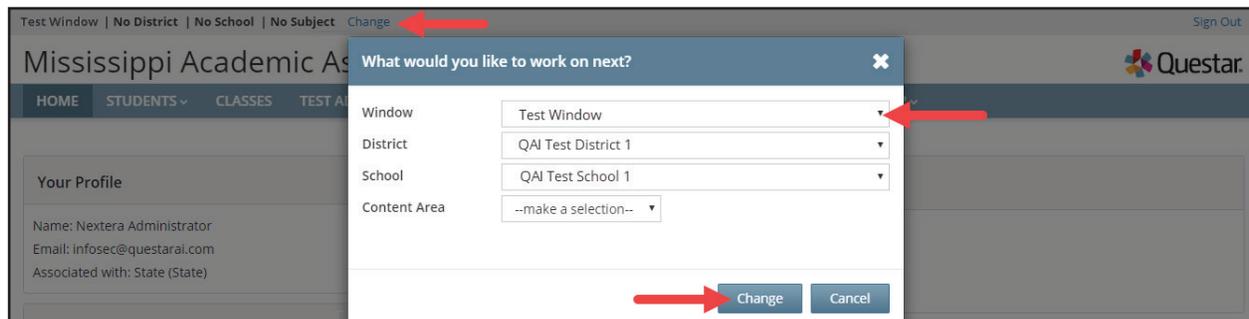

If Registration is not completed during the Registration window, accommodated materials will need to be ordered by the DTC during the Additional Material Order (AMO) window instead by following the steps outlined in the *Additional Material Orders* section in this manual. Refer to the *Important Dates* page under the **TEST ADMINISTRATIONS** tab in Nextera Admin to view the dates for both the Registration window and AMO window.

**Note:** For information on assigning student accommodations in Nextera, such as Large Print or Braille, consult the *School Test Coordinator's Manual (STCM)*, available on the Nextera Admin Help page.

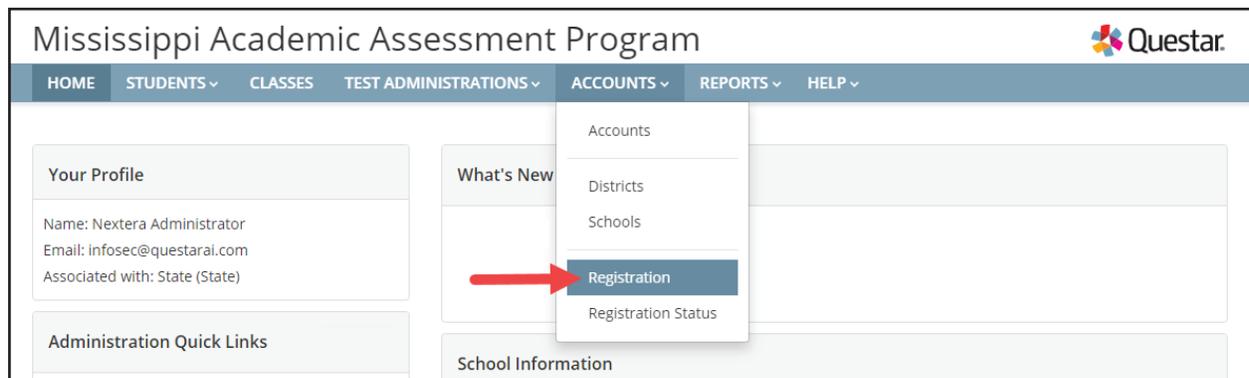

### To Begin Registration:

Before you begin, ensure the gray bar at the top of the screen displays the test window for which you would like to order accommodated materials.

- 1 Select the **Change** link in the gray bar at the top of the Nextera Admin site. Then select the appropriate test window from the *Window* drop-down and select **Change**.

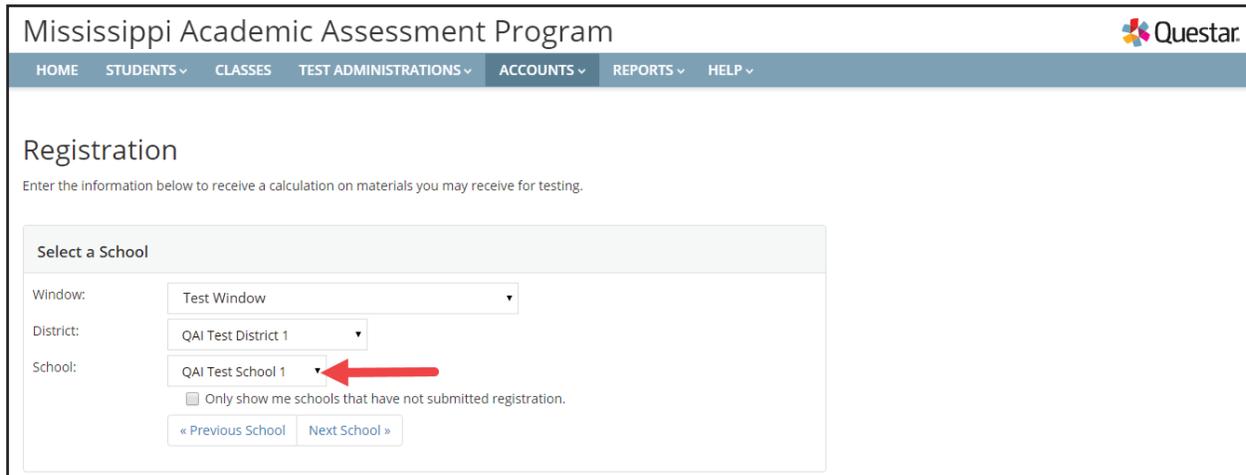

- 2 From the **ACCOUNTS** tab, select **Registration**.

The *Registration* page will display.

- 3 Select the applicable school from the *School* drop-down.

### To Update the District Shipping Address:

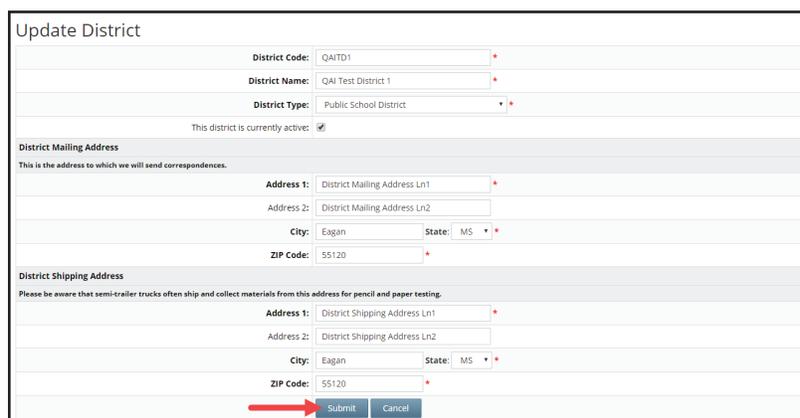

Before completing registration, it is important to first verify the district shipping address and contact information. Follow the steps below to both verify and update this information, if needed.

- 1 Under *DTC Contact Information and Shipping Address*, select **change** if you need to update the shipping address or DTC/DLU contact information.

The *Update District* page will display if you select **change** next to the shipping address.

- 2 On this page, make the necessary changes, and then select **Submit** to save your changes.

You will be taken to the *Districts* page and must navigate back to the *Registration* page. Before continuing, ensure the correct school is selected from the *School* drop-down on the *Registration* page.

### To Enter and Submit Accommodated Material Counts:

- 1 Enter accommodated material counts for each row of the table as needed. Each row is specific to a particular content area/grade.

**Note:** The student counts entered in the *Testing Online* column will not be used by Questar, so these fields are optional.

▼ Accommodated Materials

NOTE: Schools will receive the numbers of each material entered in the table below.

	Accommodated Materials			
Test Name	Large Print	Braille	Paper/Pencil	TOTALS
English II	0	0	0	0
Algebra I	0	0	0	0

When you are finished and/or would like to save the counts entered, select **Save and Calculate**. After doing so, if you navigate away from the *Registration* page, your counts will still be saved but NOT submitted.

- 2 Once you have verified all the counts entered are correct, select **Submit Material Order**.

**Note:** Fields in the table will turn gray to indicate that submission has been completed.

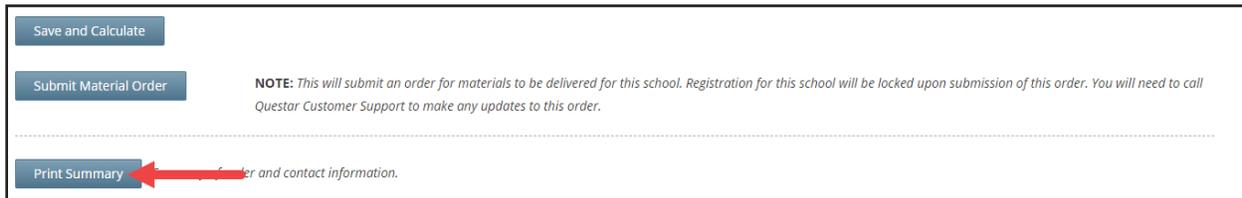

▼ Accommodated Materials

NOTE: Schools will receive the numbers of each material entered in the table below.

	Accommodated Materials			
Test Name	Large Print	Braille	Paper/Pencil	TOTALS
English II	0	0	0	0
Algebra I	0	0	0	0

**NOTE:** This will submit an order for materials to be delivered for this school. Registration for this school will be locked upon submission of this order. You will need to call Questar Customer Support to make any updates to this order.

- 3 Select **Print Summary** to print a summary of your order for your records.

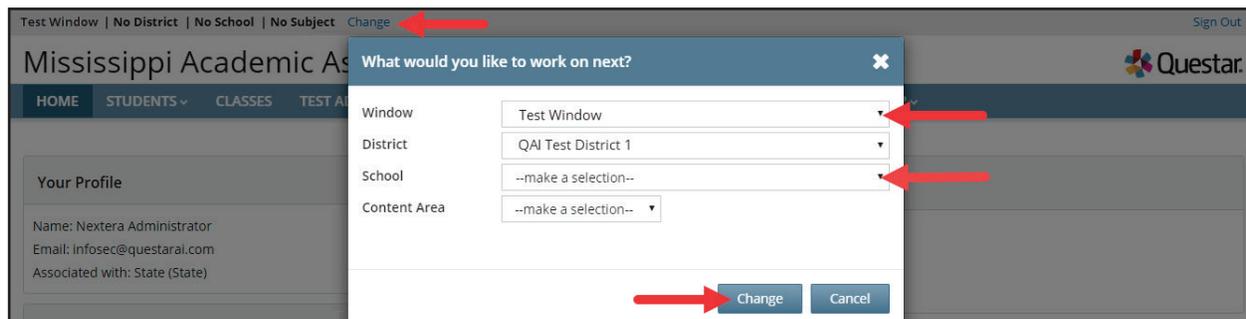

- 4 Repeat all the previous steps for each school in your district that requires accommodated materials for testing.

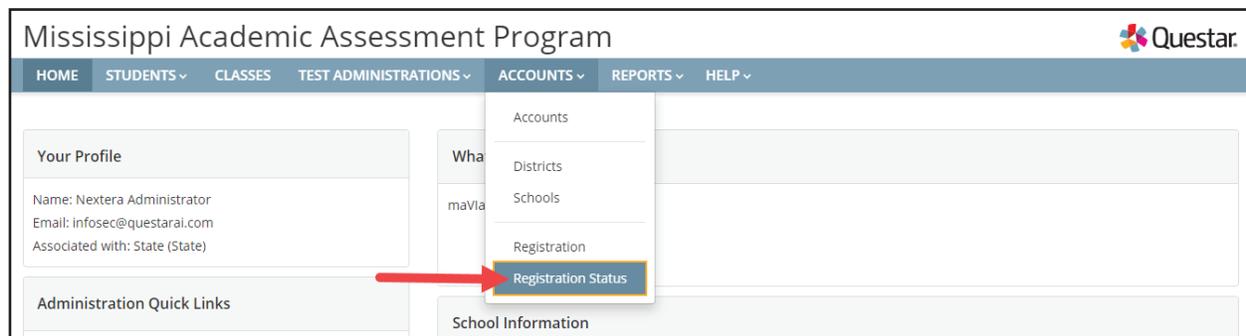

### To Verify School Registration Status:

- 1 Select the **Change** link in the gray bar at the top of the Nextera Admin site. Select the appropriate test window from the *Window* drop-down.

To view the registration summary for all schools in the district, select **—make a selection—** from the *School* drop-down. To view the registration summary for just a specific school, select that school from the drop-down. Then select **Change**.

- 2 From the **ACCOUNTS** tab, select **Registration Status**.

The *Registration Status* page will display.

- 3 Select whether you would like to view all content areas or a specific content area using the *Select a Content Area* drop-down.

- 4 You can use the *Select an Order Complete status* drop-down to filter the results on whether a school’s order has been submitted.

## Pre-ID File Upload Overview

This section contains step-by-step instructions for DTCs and District Level Users (DLUs) on using the Pre-ID portal to upload students, as well as update student records, class details, and teacher information in Nextera Admin. This does not replace the requirement for districts to update student information in the Mississippi Student Information System (MSIS). This process only applies to uploading supplementary information into Nextera Admin.

The Pre-ID upload process in Nextera Admin allows DTCs/DLUs the ability to mass upload re-testers and other students instead of having to manually enter each student. When utilizing this process, DTCs/DLUs will be able to enter the student(s), place them in a class, and assign the teacher all at once. Please note that any MAAP accommodation(s) information will need to be manually selected in the individual student record(s) once they have been uploaded into Nextera Admin. Uploading student information through a Pre-ID file requires processing time. Allow 24 hours between upload and printing of student logins.

Below is a high-level description of the Pre-ID upload process, and detailed instructions can be found on the subsequent pages.

### High-Level Process

#### Prepare the file

- Use the Pre-ID file template.
- Follow the file type and line item formatting rules as listed in the *Pre-ID File Formatting Rules* section.

#### Upload the file in Nextera Admin

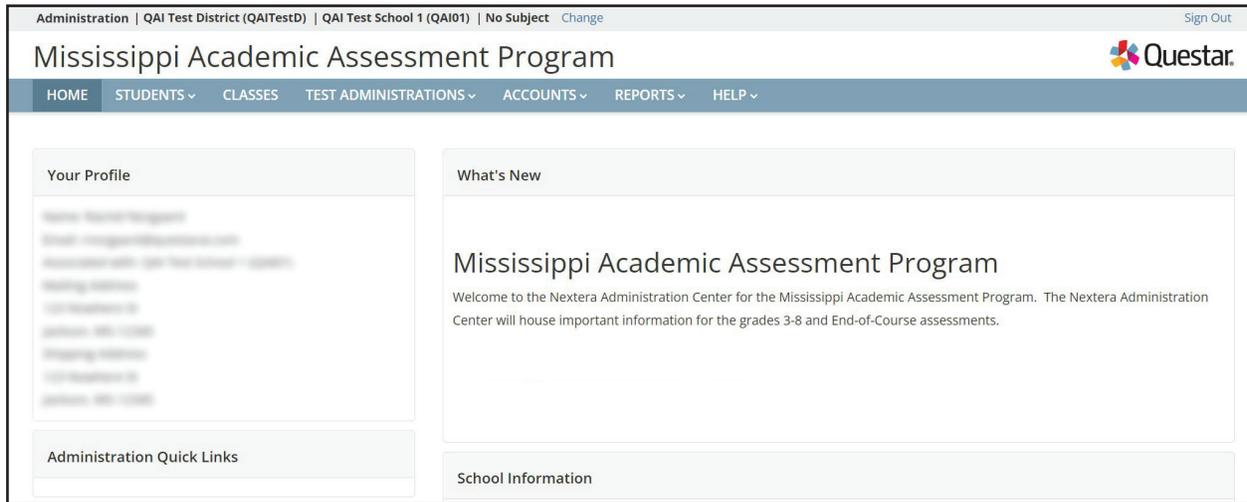

- Select **Pre-ID Uploads** from the **STUDENTS** tab.
- Select **Upload a new Pre-ID file**.
- Select the test administration.
- Select the file to upload.
- Select **Upload file for processing** to check for errors and to proceed with the data upload.

## Downloading the Pre-ID File Template

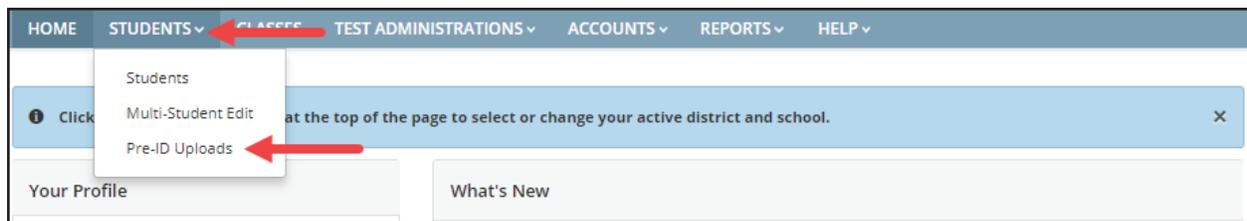

Users can download the template by completing the following steps:

- 1 Sign in to Nextera Admin.

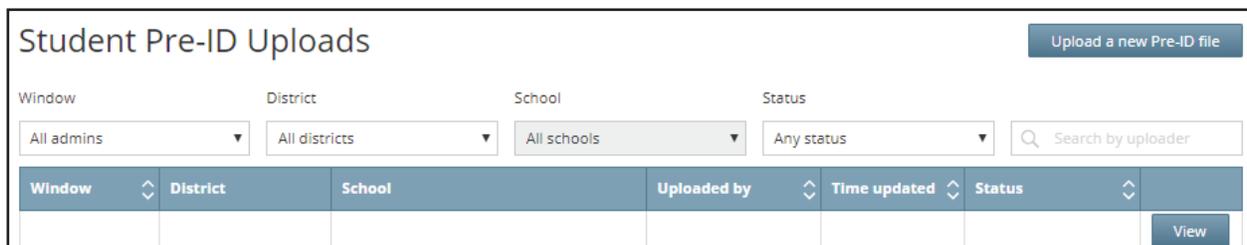

The *HOME* page displays.

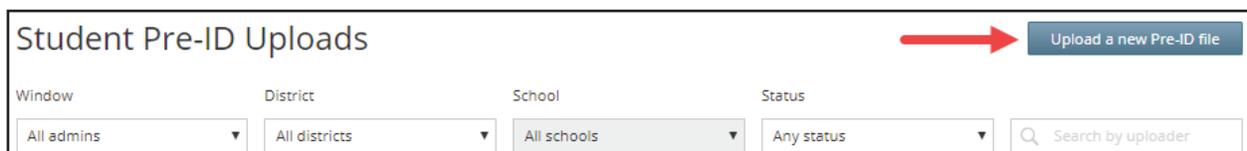

- 2 Select **Pre-ID Uploads** from the **STUDENTS** tab.

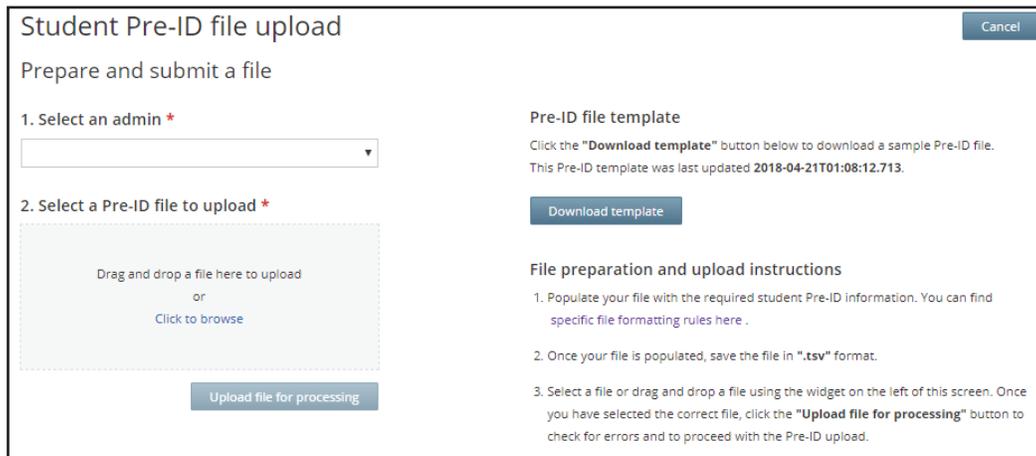

The *Student Pre-ID Uploads* page displays.

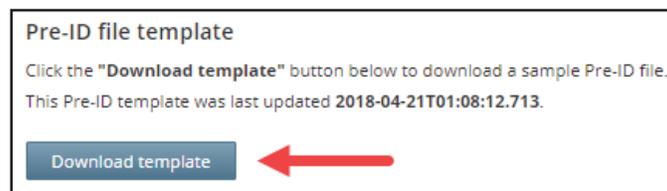

- 3 Select **Upload a new Pre-ID file**.

The *Student Pre-ID file upload* page displays.

**4** Select **Download template**.

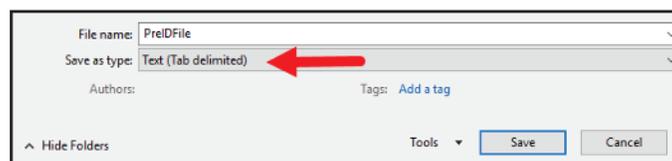

See the *Pre-ID File Formatting Rules* section for details on the file type and item line formatting rules for Pre-ID files.

### Converting a Pre-ID File to .tsv Format

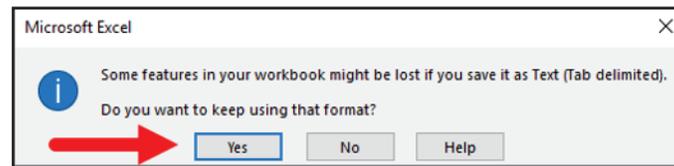

A Pre-ID file must be saved as a .tsv file type before uploading it in Nextera Admin. Users can follow this process to save a Microsoft Excel file as a .tsv file:

- 1** Download and open the Pre-ID file template.
- 2** Enter or paste the data into the corresponding columns.
- 3** Select **File > Save As**. Then select the applicable location to save the file.

## Printing Student Login Credentials

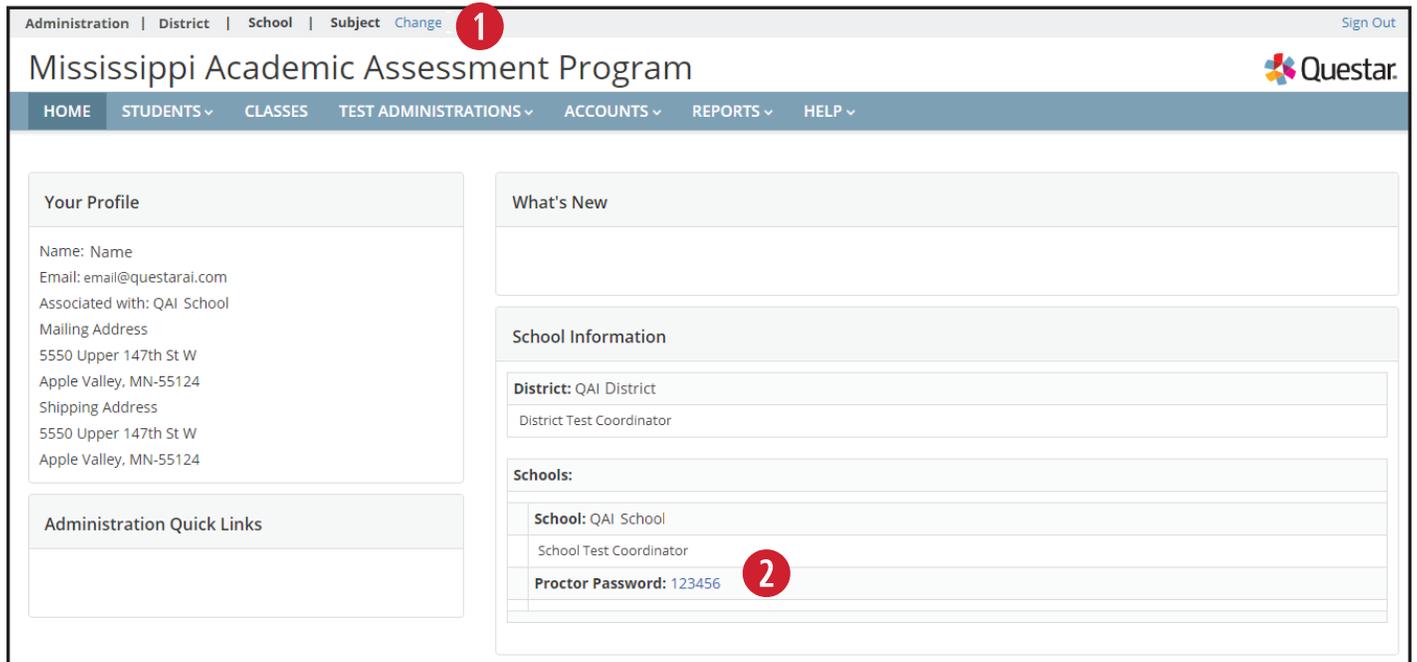

The screenshot shows the 'Test Administrations' page in a web application. At the top, there is a navigation bar with tabs: HOME, STUDENTS, CLASSES, TEST ADMINISTRATIONS, ACCOUNTS, REPORTS, and HELP. The 'TEST ADMINISTRATIONS' tab is selected. Below the navigation bar, the page title is 'Test Administrations' with a red circle containing the number '1' next to it. Underneath, there is a section for 'Testing Status for: Subject, Example Administration'. A filter dropdown is set to 'All'. To the right, there is a search bar with the placeholder text 'Enter all or part of a class, teacher's name, or grade.' Below the search bar is a table with columns: Name, Testing status, View, and Delete. The first row shows 'Example Test' with 'Not Started' status and a 'View' button highlighted with a red circle containing the number '2'. Below the table, there is a 'View Test Administration' section. It shows 'You're Viewing: Example Test' and a table of details: District (QAI Lab Forms Test One), School (QA Lab School), Testing Window (Example Administration), Content Area (Subject), Teacher (AutoPreIDTeacher Questar), Class (Questar, AutoPreIDTeacher-10FormsTestingTTSForm01), Test Name (Example Test), and Testing Dates (Start Date to End Date). Below this table is a green notification box that says 'Test is in progress. Students may sign in and take the test using their User IDs and the PIN shown below.' Below the notification are two buttons: 'Examiner View' and 'Print Labels', with the 'Print Labels' button highlighted by a red circle containing the number '3'. At the bottom, there is a 'Session 1 Access Code' field with the value '1111' and a 'New Access Code' field, along with 'Submit' and 'Cancel' buttons.

### To Print Student Login Credentials:

- 1 Select **Test Administrations** under the **TEST ADMINISTRATIONS** tab.
- 2 Find the appropriate Teacher/Class and select **View**.
- 3 In the *Registered Students* table, you will see the student MSIS/User IDs and Passwords for the Teacher/Class. To print student login credentials, select the **Print Labels** button. Choose how you would like to print the credentials, and then select **OK**. Refer to the *Test Administrator's Manual* for information regarding the security of test materials (e.g., labels with student login credentials). The options for printing labels include: Avery 5160, Avery 5163, Student Roster, and Download CSV file.

**Note:** To ensure accurate label alignment when printing using either of the Avery formats, it is recommended to open the labels in Google Chrome. If the PDF does not automatically launch in a Chrome browser, locate the file in the *Downloads* folder, right-click, and select **Open with > Google Chrome**. With the PDF open in Chrome, select the **printer icon** in the upper right-hand corner. When the *Print* dialog box opens, make sure the *Destination* printer is NOT set to "Save as PDF." Select **More Settings** and then ensure *Scale* is set to **Default**. Then select **Print**.

Any test that is paused for 4 hours will require a Proctor Password for the student to sign back in to the test. Test Administrators will contact their STC or DTC to obtain the Proctor Password, if needed.

To access the Proctor Password in Nextera Admin, make sure you are on the *HOME* page:

- 1 At the top of the screen, select **Change** to confirm or select the applicable school.
- 2 In the *School Information* section, you will see the Proctor Password for the selected school below the School and STC information. **Note:** The Proctor Password will be the same for all Test Administrators within the same school, but each school will have a unique Proctor Password.

## Internet Connectivity Troubleshooting

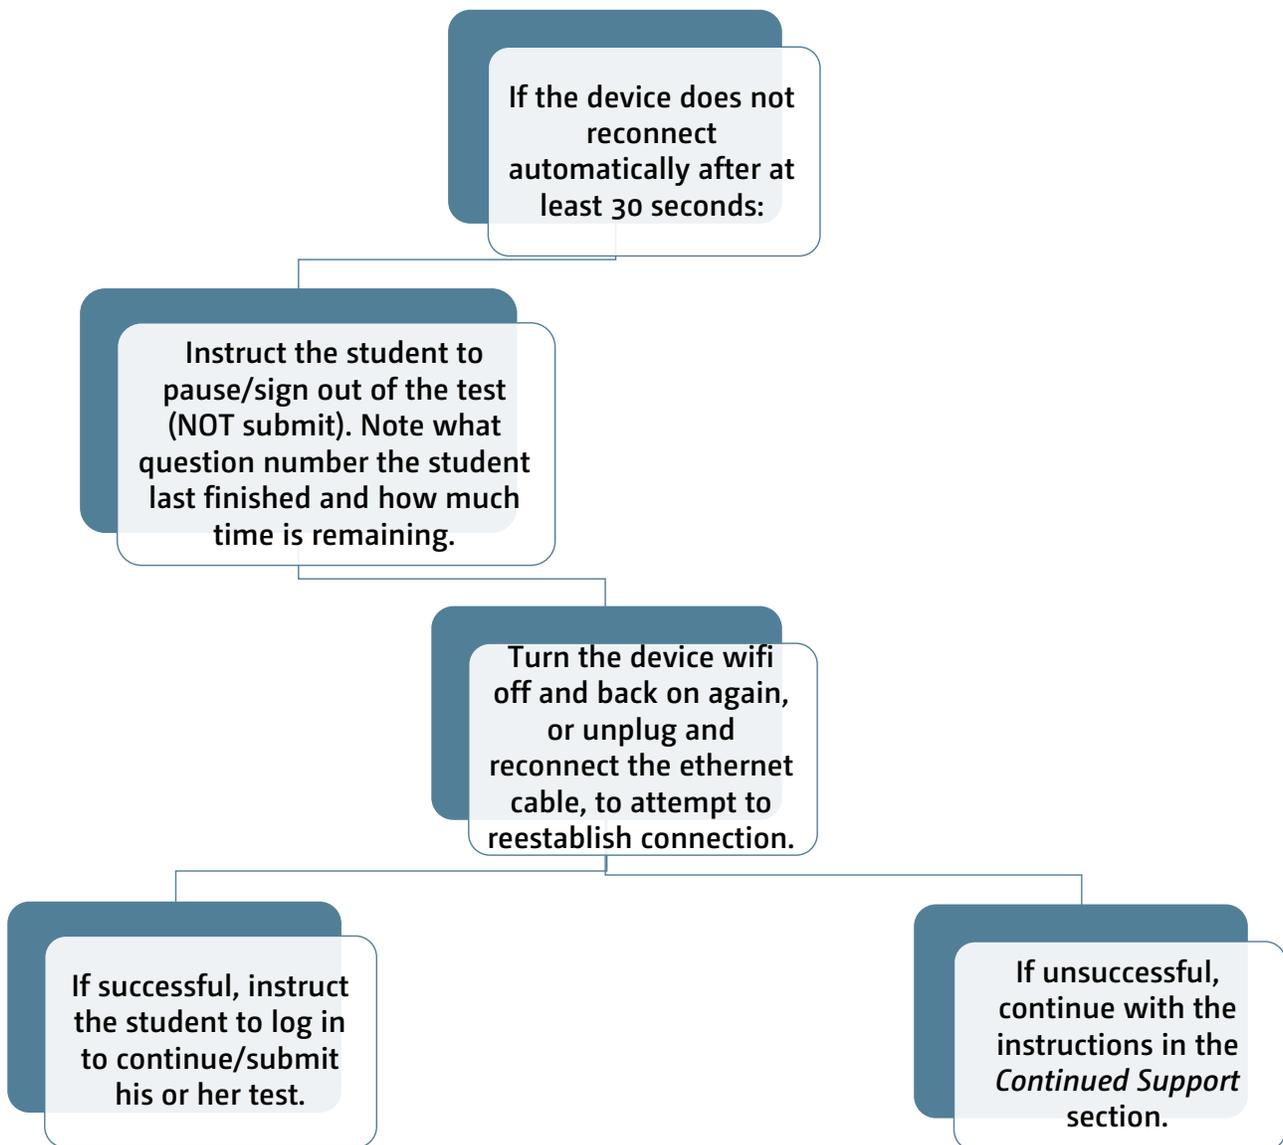

**IMPORTANT:** In all scenarios outlined below, if the student has not completed the test session, instruct the student to continue testing. (Student responses are stored in the device’s local cache.)

**Note:** Text-to-Speech functionality will cease until connection is restored.

While testing, you can determine if a device is currently connected to the Internet by the  or  icons located in the upper-left corner of the screen.

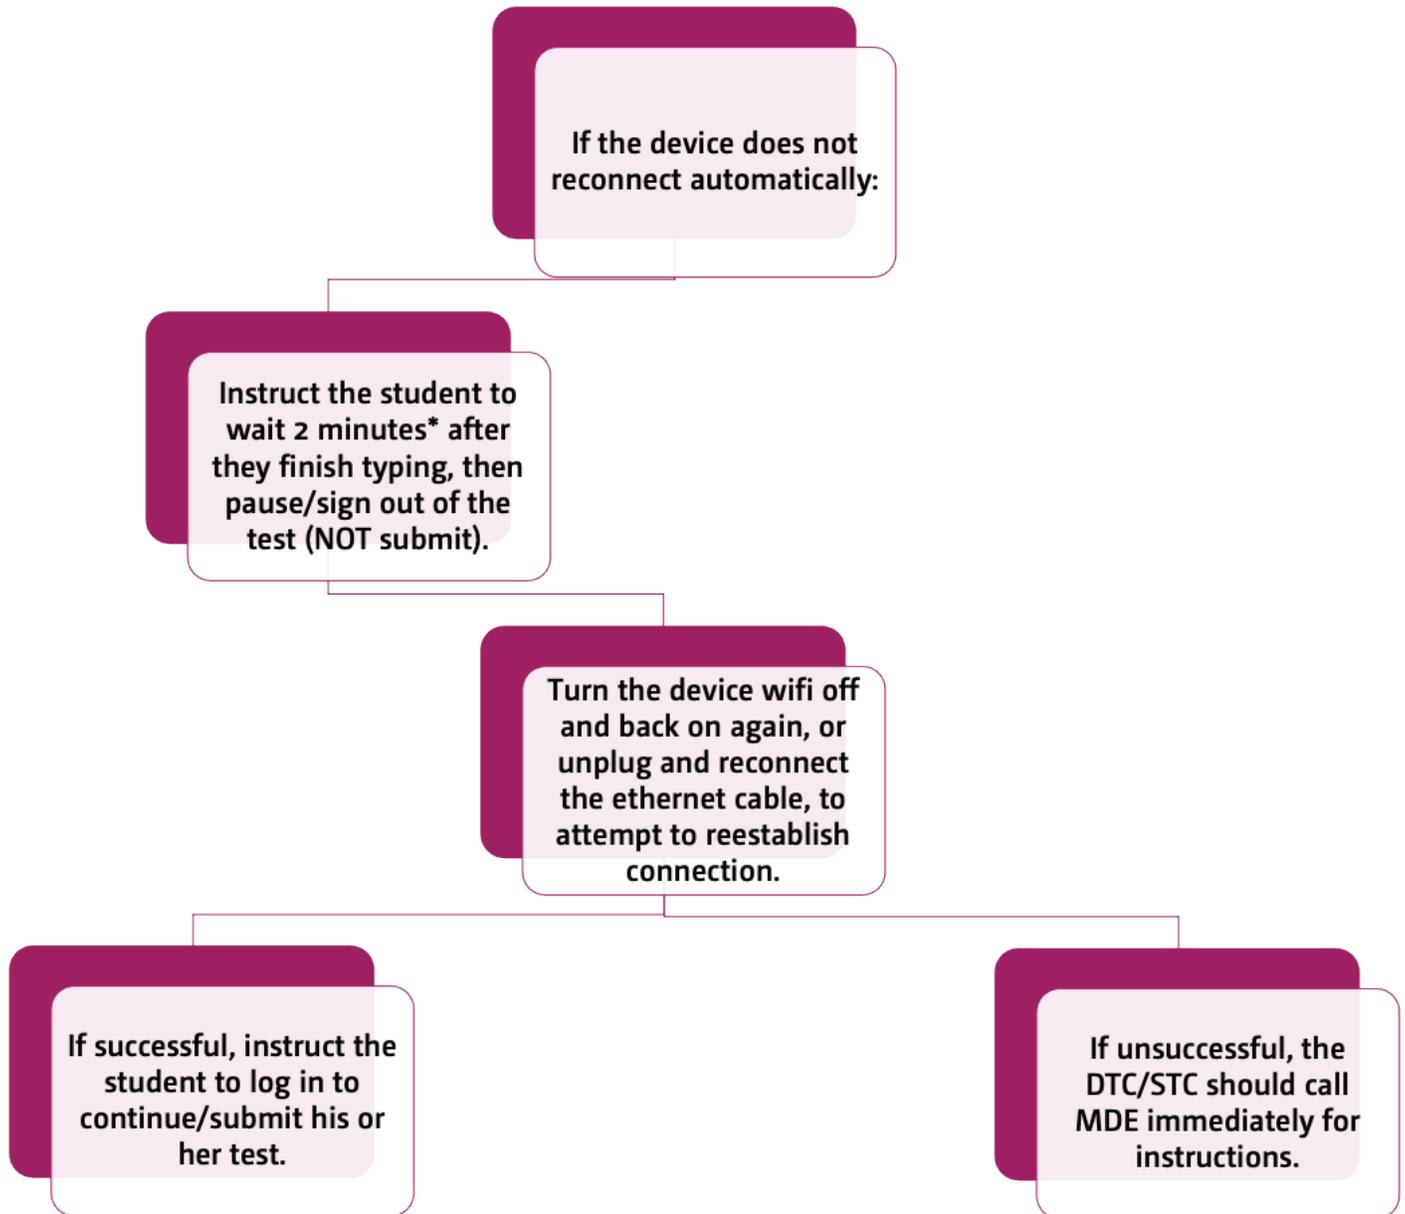

### Scenario #1: Non-writing session for an individual student

After completion of a **non-writing** test session, an **individual student device** does not have internet connectivity.

## Scenario #2: Writing session for an individual student

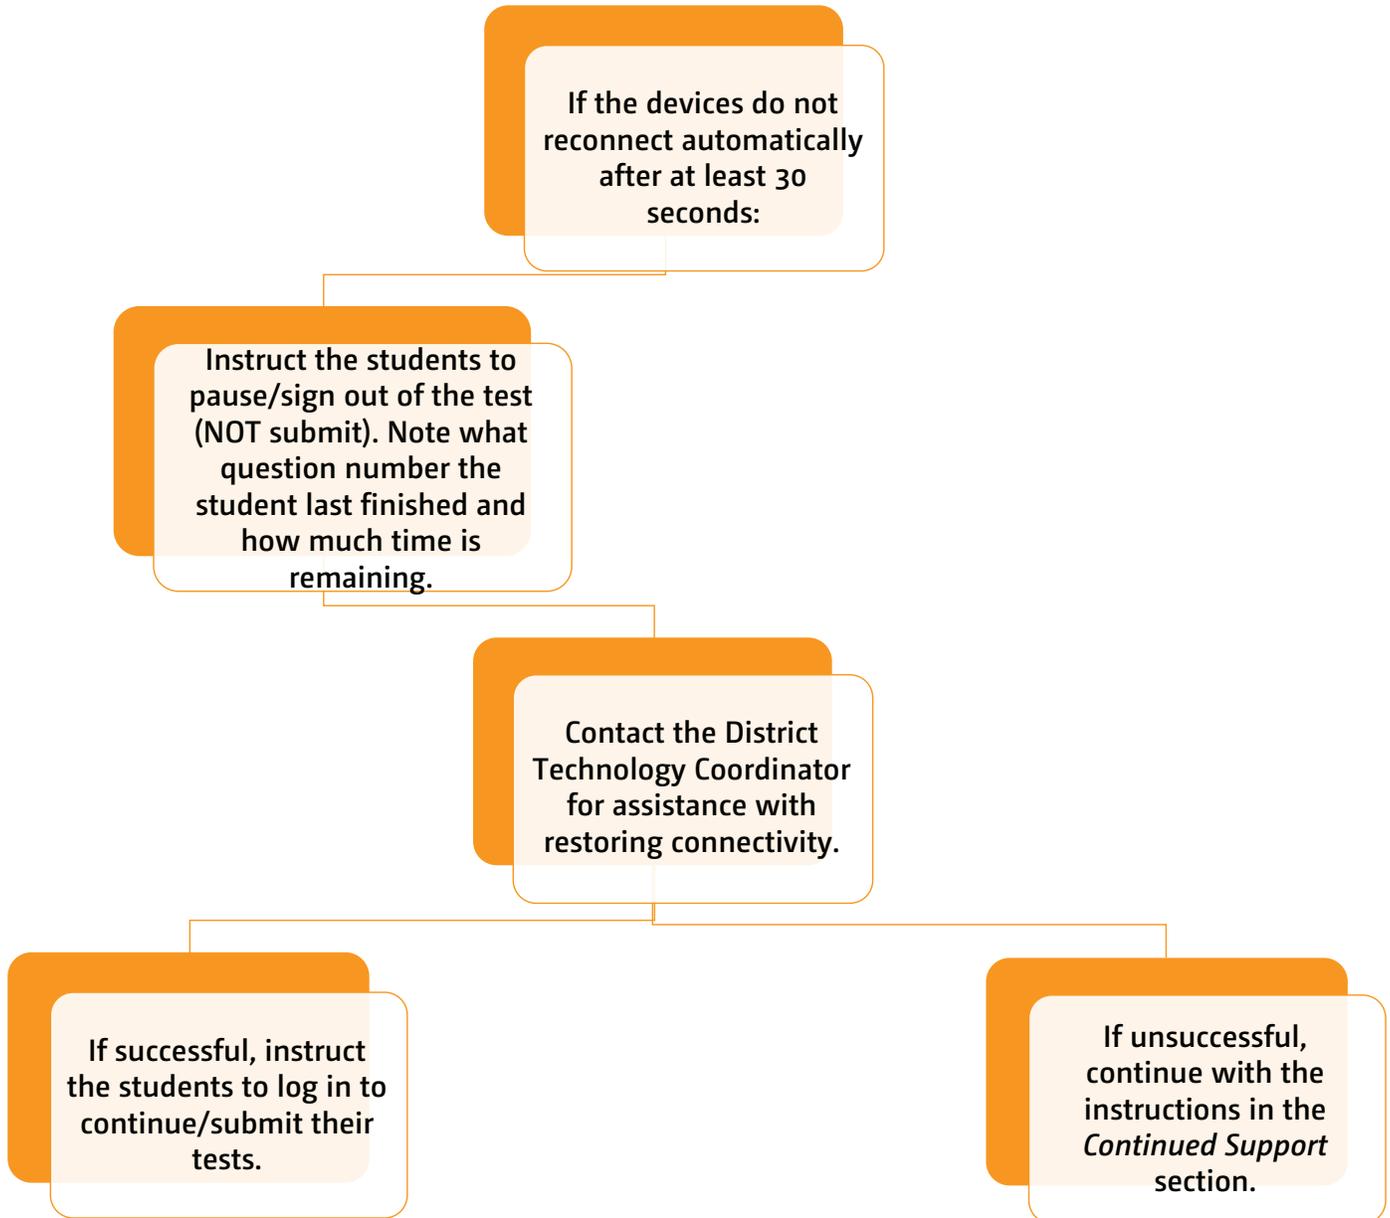

After completion of a **Writing** test session, an **individual student device** does not have internet connectivity.

**Note:** For Writing prompts, student responses are cached to the local device every 2 minutes. It is imperative that you try to get Writing students finished that day.

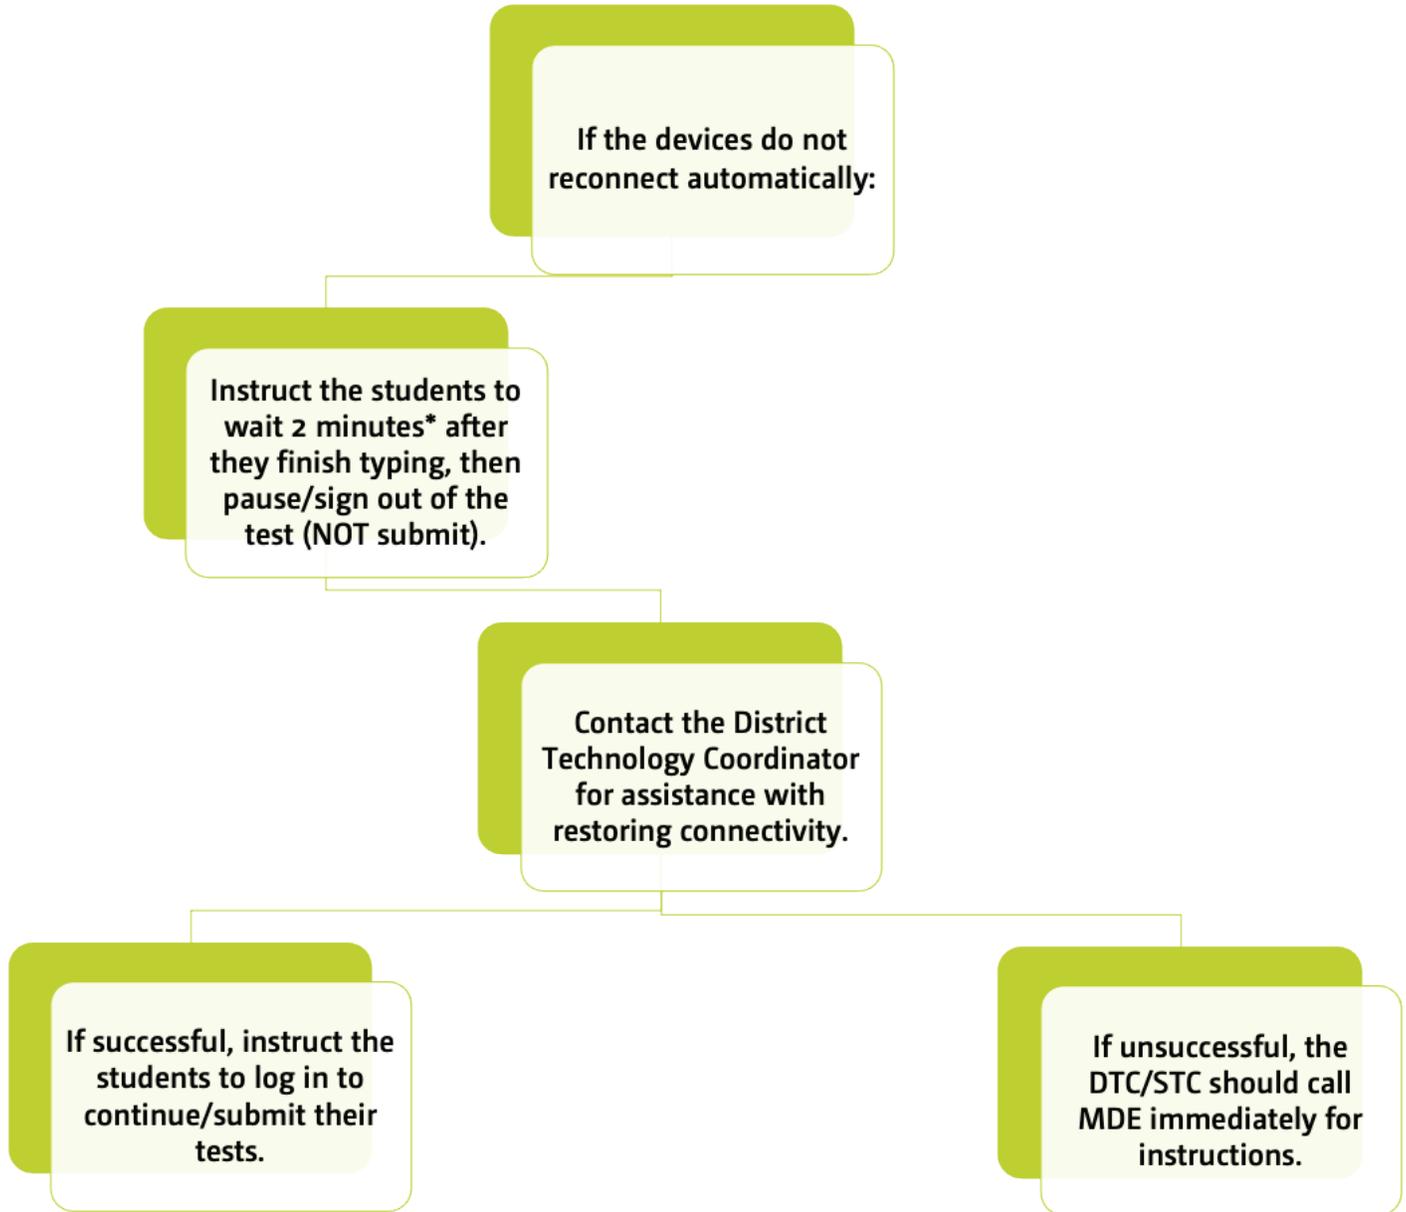

### Scenario #3: Non-writing session for an entire class or school

After completion of a **non-writing** test session, an **entire classroom or school** does not have internet connectivity.

### Scenario #4: Writing session for an entire class or school

After completion of a **Writing** test session, an **entire classroom or school** does not have internet connectivity.

**Note:** For Writing prompts, student responses are cached to the local device every 2 minutes.

## Scenario #5: Extensive school outage with hard-wired devices (e.g., infrastructure network cable cut)

During testing, the school experiences a power outage when students are testing on hard-wired devices.

1. Do NOT have the students move to new devices.

2. Quarantine and label the devices with the students' names (include MSIS number if multiple students have the same name), if necessary. For computer labs, utilize seating charts to make sure the same student returns to the same device to resume testing.

3. If the students need to leave the testing area to resume testing another time, the class may be dismissed. Notify the MDE for next steps.

4. Call the school's maintenance team for assistance with restoring power.

5. Keep the devices powered on and plugged in to a power source.

6. Once power is restored, have the students log back in to their test. Students should wait at least two minutes for responses to populate.

7. Call Questar Customer Support at 1-800-644-4054 for assistance in recovering student responses if responses do not populate.

## Scenario #6: Outage with individual/one-to-one devices

During testing, the school experiences a power outage when students are testing on individual/one-to-one devices.

1. Do NOT have the students move to new devices.

2. Call the school's maintenance team for assistance with restoring power. Work with the District Technology Coordinator to determine an approximate timeline for students to resume testing.

3. Contact Customer Support to document the number of students and classes impacted; make note of the case number to be entered onto an Irregularity Report (see step 5 below).

4. Whenever possible, quarantine and label student devices with the students' names (include MSIS number if multiple students have the same name). If quarantining is not possible, the access codes must be changed for all affected Test Administrations via the "View Test Administration" page in Nextera Admin. If assistance is needed to change the access codes, contact Customer Support.

5. If students need to leave the testing area to resume testing another time, the DTC must submit an Irregularity Report through Caveon Core for documentation purposes.

6. Once power is restored, have the students log back in to their test. Students should wait at least two minutes for responses to populate.

**Note:** If Internet connectivity is lost for any reason prior to the submission of a test session, the device cache stores the responses locally until connectivity is restored. Please do NOT clear cache before connectivity is restored.

## Continued Support

Do NOT have the student(s) move to a new device or allow any other student(s) to test on the device(s).

Do NOT restart or reboot the device(s).

Quarantine and label the device(s) with the students' name(s) and/or MSIS number(s). Then if the student(s) need to leave the testing area to resume testing another time, the student(s) may be dismissed. Contact the MDE for guidance regarding rescheduling the test session and upload a testing schedule addendum in Caveon Core.

Contact the District Technology Coordinator to ensure there are not any software or policy settings that would clear out the devices' local cache or temporary files.

Keep the device(s) powered on and plugged in to a power source.

If still unable to reestablish connection, or at any point during the above steps, call Questar Customer Support at 1-800-644-4054.

If there are time or accommodation questions associated with the outage or if you need additional guidance when students are unable to finish testing the day of the outage, contact the MDE.

## Transcribing Accommodated Responses into Nextera

For students requiring a Paper/Pencil, Large Print, or Braille test book, all responses must be transcribed into the online Nextera Test Delivery System (TDS).

After a student completes testing, the transcriber will copy the student responses from the accommodated paper test book into the Nextera TDS. **All responses must be transcribed into the online system.** Ensure that all accommodated materials are collected and returned to Questar as soon as testing/transcription is complete. (See the *Handling Secure Materials* section of this manual.)

### Transcription Instructions

Test Administrators should follow the steps below to transcribe a student's responses into Nextera:

- Step 1 Log in to the Nextera Admin site. Navigate to the student record and ensure the correct *Print Variations* accommodation option is selected for the applicable content area(s).
- Step 2 Obtain the student's login credentials from the *Test Administrations* page in Nextera Admin. **Note:** If the student is not assigned to a class in Nextera, the STC can manually add the student if needed and assign the student to a class. You will then be able to obtain the student's login credentials from the *Test Administrations* page for the class to which he or she is assigned.
- Step 3 After signing in as the student in the Secure Browser, ensure that all student data fields are accurate and complete.
- Step 4 Transcribe all student responses from the test book into Nextera. If a student response does not fit the Nextera field requirement, go back to the student and ask him/her to adjust his/her response in the test book in a secure testing environment. Do not modify the student's response in any way other than what the student provides.
- Step 5 Enlist a second staff member to verify that the student's responses were entered correctly before submitting the test. Then submit the test.

If you have any questions, please contact Questar Customer Support by calling 1-800-644-4054 or via email at [mcustomersupport@questarai.com](mailto:mcustomersupport@questarai.com).

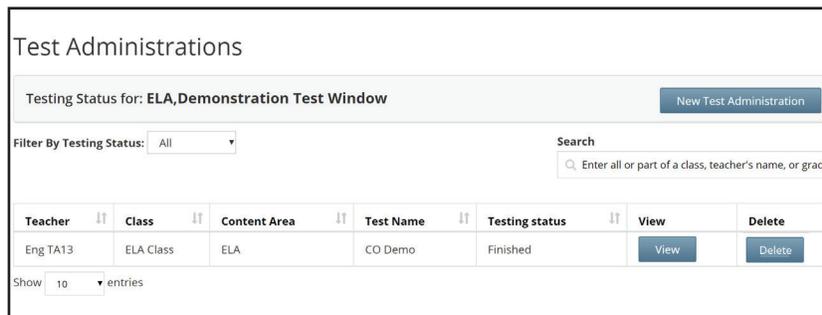

## Invalidations and Not Testing Codes

If a student’s test session needs to be invalidated, complete the following steps:

1. The Test Administrator must immediately notify the STC.
2. The STC must notify the DTC.
3. The DTC must enter the invalidation in Nextera Admin and submit a District Request Form to the MDE via Caveon Core. **This must be completed prior to the close of the test window.**

### Marking an Invalidation or Not Testing Code in Nextera:
