INTRODUCTION

Chronic absenteeism is defined as missing 10% or more (18 days) of a school year for any reason. Chronic absenteeism differs from Average Daily Attendance (ADA), which is the average number of enrolled students who attend school each day. A school's ADA often masks issues surrounding the number of students who are chronically absent. A school can potentially have an ADA of 95% or higher while having a chronic absenteeism rate greater than 10%.

During the 2022-23 school year, 108,310 of Mississippi public school students were chronically absent compared to 128,275 students in 2021-22. Mississippi's chronic absenteeism rate for 2022-23 is 23.87%, which has decreased since last year. The Mississippi Department of Education (MDE) started reporting the rates in 2016. The attendance campaign was first launched in September 2018 to challenge students and school districts to strive to reduce individual absences to no more than five absences over the course of the entire school year. A statewide attendance awareness campaign was relaunched in June 2023 to encourage regular school attendance. Mississippi's campaign is part of a national movement to reduce chronic absenteeism.

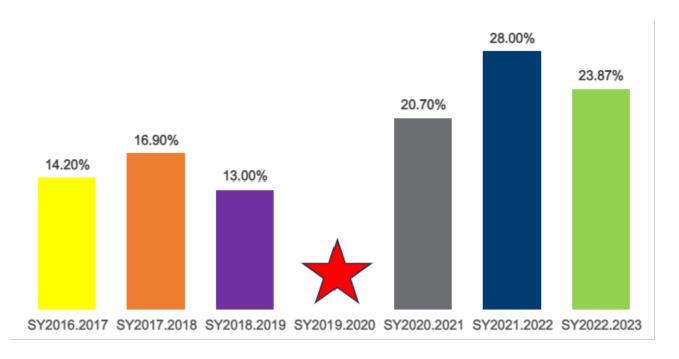

Here are a few actions that districts and schools can take to address chronic absenteeism:

- Engage Students and Parents
- Recognize Good and Improved Attendance
- Develop Programmatic Response to Barriers
- Provide Personalized Early Outreach
- Monitor Attendance Data and Practice
- Review *statewide policies for virtual learning* to be sure district policies align with state requirements.
- Work with your school and districts data clerks to ensure accurate attendance data are entered.
- Encourage teachers and staff to make personal contact with families when students are absent. We know the power of personal relationships and how they foster a sense of belonging.
- Work with School Attendance Officers to identify and engage students who are at risk of becoming chronically absent.
- Review your health and safety protocols for minimizing the spread of infectious illnesses.
- Take advantage of resources to promote regular student attendance:
- Home Attendance Awareness Campaign 2023 (attendanceworks.org)
- Handouts for Families Attendance Works

The State's Chronic Absenteeism Rate

The figure below represents the state's chronic absenteeism rates for the school years 2016-2017 to 2022-2023. The current rate of 23.87% shows a decrease from the previous school year by 4.13%.

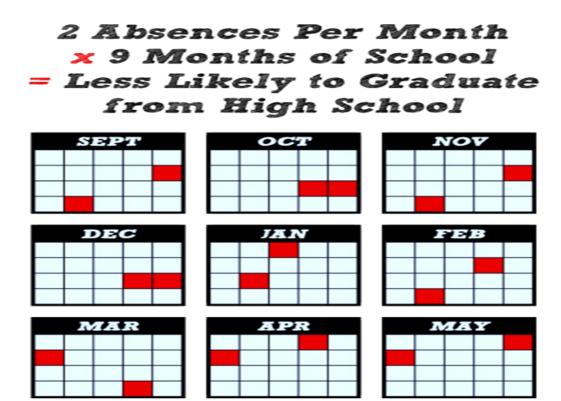

STATE CHRONIC ABSENTEEISM RATES

Note: School Year 2019-2020 was the year of the COVID-19 Pandemic. Attendance was not recorded in the same manner as in the other school years.

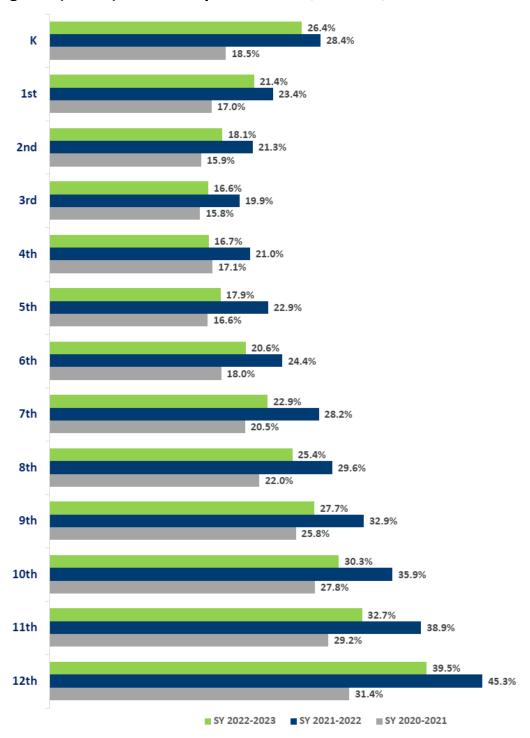

CALCULATIONS OF CHRONIC ABSENTEEISM

Students enrolled in more than one school are included in the report. Any student enrolled in school for at least 10 days must be included in the calculation. Chronic absenteeism includes any student absent 10% or more of the time that he/she was enrolled in any school. Any student who misses 50% or more of a school day is considered absent.

CHRONIC ABSENTEEISM RATES BY GRADE

In the figure below, the data displays chronic absenteeism rates of each grade (K-12th) for school years 2020-21, 2021-22, and 2022-23.
