

Chapter 91: Vocational, Facilities

Rule 91.1 Construction or Remodeling of Career Technical Centers. Any educational agency desiring to construct, expand, alter, or remodel an area CTE center, facilities housing CTE programs including comprehensive high schools and others, shall develop a local construction plan. The construction plan shall be preceded by a needs assessment study of the area to be served and shall also follow procedures as identified by the Office of Career and Technical Education. The application for approval for building construction and renovation shall be completed with all appropriate and necessary documents and submitted through the Office of Career and Technical Education to the State Board for final approval or disapproval.

The Office of Career and Technical Education shall develop and maintain a management and control system for facilities that shall include guidelines and procedures in the areas of facilities, standards and specifications, remodeling, construction, acquisition, usage, disposition, and inspection.
