

MKAS² Kindergarten Readiness Assessment Update

Kindergarten Readiness Assessment

* Excludes agricultural high schools.

Kindergarten Readiness Assessment

- Computer adaptive assessment
- 27 questions (literacy and numeracy)
- Less than 30 minutes to administer
- End-of-year target score for four-year-old students = **498**
- Beginning of year target score for kindergarten = **530**
- End-of-year target score for kindergarten = **681**

End-of-Year Trajectory to Success

Renaissance Learning reading proficiency indicators map a trajectory of student achievement in reading across grade levels.

MKAS² Kindergarten Readiness Assessment Results

Reading Level Classifications

Emergent Reader (300 – 674)

- **Early Emergent Reader** (300 – 487): Student is beginning to understand that printed text has meaning. The student is learning that reading involves printed words and sentences, and that print flows from left to right and from the top to the bottom of the page. The student is also beginning to identify colors, shapes, numbers, and letters.
- **Late Emergent Reader** (488 – 674): Student can identify most of the letters of the alphabet and can catch most of the letters to their sounds. The student is also beginning to “read” picture books and familiar words around the home. Through repeated reading of favorite books with an adult, students at this stage are building their vocabularies, listening skills, and understandings of print.

Transitional Reader (675 – 774)

Student has mastered alphabet skills and letter-sound relationships. The student can identify many beginning and ending consonant sounds and long and short vowel sounds, and is probably able to blend sounds and word parts to read simple words. The student is also likely using a variety of strategies to figure out words, such as pictures, story patterns, and phonics.

Probable Reader (775 – 900)

Student is becoming proficient at recognizing many words, both in and out of context. The student spends less time identifying and sounding out words, and more time understanding what was read. Probable readers can blend sounds and word parts to read words and sentences more quickly, smoothly, and independently than students in the other stages of development.

Next Steps for MDE and Districts

- Continue to increase the quality and consistency of instruction in every K-3 classroom through the provision of quality professional development (model lessons, webinars, literacy coaches, professional development coordinators, etc.)
- Collaboration with Head Start, early childhood providers, and other state organizations and agencies
- Development of transition plan from Pre-K to Kindergarten
- Guidance on Pre-K program startup (funding options, space, personnel, etc.)
- Use Kindergarten Readiness Assessment data to support data driven decisions at the state and local level
 - Professional development on Early Learning Standards, Early Learning Guidelines, early childhood leadership, and related topics
 - Development and provision of resources
 - Review of Child Find processes

Next Steps for Parents

- Listen to your child read words and books
- Be patient and listen as he practices
- Participate in local library summer reading programs
- Refer to the Parent Read-at-Home Plan for additional activities

Why Your Child Can't Skip Their 20 Minutes of Reading Tonight

James

reads 20 minutes per night,
5 times per week

Travis

reads only 4 minutes per night
...or not at all

In one week:

100

minutes of reading

20

minutes of reading

In one month:

400

minutes of reading

80

minutes of reading

In one school year (9 months):

3600

minutes of reading

720

minutes of reading

By the end of sixth grade:

21,600

minutes of reading

4320

minutes of reading

- Which student would you expect to read better?
- Which student would you expect to know more?
- Which student would you expect to write better?
- Which student would you expect to have a better vocabulary?
- Which student would you expect to be more successful in school and life?
- How do you think each student will feel about himself as a learner?
