

# Special Education Performance Determination Report- 2020 4000 LEAKE CO SCHOOL DIST

#### Overview

The Mississippi Department of Education (MDE) is issuing this *Special Education Performance Determination Report* to inform all stakeholders on how well the district is supporting students in special education. The data for this report is based on results and compliance data compiled annually in the Annual Performance Report of the State Performance Plan under the Individuals with Disabilities Education Act (*IDEA*). The State Performance Plan is comprised of 14 items that indicate how well the State is serving students with disabilities. MDE submits an Annual Performance Report on these indicators to the U.S. Department of Education and we publish how well each district has performed on the indicators. A target score for each indicator was set by the MDE with input from the Special Education Advisory Panel when the State Performance Plan was written.

In creating the Special Education Performance Determination Report, MDE considered the totality of the information we have about a district to issue a determination of how well the district is performing on educating students with disabilities. Data considered included the participation and performance of students with disabilities on the administration of the Mississippi Assessment Program; exiting data on students with disabilities who dropped out of school and those who graduated with a regular high school diploma; how much time students with disabilities are educated with their non-disabled peers; and other issues related to district compliance with the *IDEA*. This report is based on data from the 2018-2019 school year.

Data points for the district are separated into two categories: compliance and results. The *compliance data points* are based on how well districts are following the rules of IDEA. Districts will get an overall score for their compliance data. The *results data points* are based on key outcomes for educating students with disabilities. Districts will get an overall score for their results indicators. The district's Special Education Performance Determination is based on an average score of the results and compliance scores. Items will be scored using the following matrix:

| Scoring Matrix |  |            |                              |  |  |
|----------------|--|------------|------------------------------|--|--|
| Results I      | ndicator Points  | Compliance | Indicator Points             |  |  |
| 2              | State Target Met or Exceeded                           | 2          | State Target Met or Exceeded |  |  |
| 1              | At State Average or Better, But<br>Not at State Target | 0          | State Target Not Met         |  |  |
| 0              | Below State Average                                    |            |                              |  |  |

### **Determination Levels**

Each district will be determined to be in one of the four levels, prescribed by the U.S. Office of Special Education Programs (OSEP), based on its score. The State Lead for each district will provide differentiated supports to each district based on the individualized needs of each district and its determination.

| Determination Level | 2020 Report                          |  |  |  |
|---------------------|--------------------------------------|--|--|--|
| Meets Expectations  | Score 75% and Above                  |  |  |  |
| Needs Assistance    | Score At least 65% but less than 75% |  |  |  |
| Needs Intervention  | Score At least 50% but less than 65% |  |  |  |
| Needs Substantial   | Score Less than 50%                  |  |  |  |
| Intervention        |                                      |  |  |  |

# IDEA Part B Results Matrix (2018-2019 School Year)

The table below consists of data from the State Performance Plan's Annual Performance Report (SPP/APR). Each item is an indicator of how the State is performing on key aspects of educating students with disabilities as prescribed by the IDEA. The indicators are set by the United States Department of Education's Office of Special Education Programs (OSEP). The State Targets were determined by OSEP requirements, a review of State data over time, and input from the Special Education Advisory Panel. The indicators included below are considered to be results indicators.

|  | SPI  | P/APR Results I                | Indicator Total  | 16       |

<u>Indicator 3</u> of the SPP/APR focuses on student's participation and performance on Statewide assessments of the Mississippi College and Career Readiness Standards and the DLM Essential Elements for English Language Arts and Mathematics which are Mississippi's alternate achievement standards for students with significant cognitive disabilities. The State reports a single performance score for ELA and a single performance score for math. This report disaggregates that performance score to the individual grade level and a score is given based on the State target set for the content area in the SPP/APR.

| Indicator 3: ELA Statewide Assessment Elements (2018-2019 School Year)                         | State<br>Target | State<br>Perfor-<br>mance | District<br>Perfor-<br>mance | District<br>Score |

# Part B Compliance Matrix (2018-2019 School Year)

The table below consists of data from the *State Performance Plan's Annual Performance Report (SPP/APR)*. Each item is an indicator of how the State is performing on key aspects of educating students with disabilities as prescribed by the IDEA. The indicators are set by the United States Department of Education's Office of Special Education Programs (OSEP). The State Targets were determined by OSEP requirements, a review of State data over time, and input from the Special Education Advisory Panel. The indicators included below are compliance indicators.

# **Compliance Matrix Scoring**

| Total Number of Compliance Points<br>Available | Total Number of Compliance Points<br>Earned | Percentage Earned |
|--|---|-------------------|
| 14   | 14  | 100.0%            |

| Compliance Indicators  | State<br>Target | District<br>Performance | Target<br>Met | Score |
|--|-----------------|-------------------------|---------------|-------|
| <b>4A</b> District has a significant discrepancy in the rate of suspensions/expulsions greater than 10 days for STUDENTS WITH DISABILITIES (Special Education rate no more than 2% above regular education rate)               | No              | No                      | Yes           | 2     |
| <b>4B</b> District has a significant discrepancy by race or ethnicity in the rate of suspensions/expulsions greater than 10 days for children with IEPs  | No              | No                      | Yes           | 2     |
| 9 Disproportionate Representation in Special Education   | No              | No                      | Yes           | 2     |
| 10 Disproportionate Representation in Specific Disability Categories   | No              | No                      | Yes           | 2     |
| 11 Child Find – Percent of children determined eligible within 60 days   | 100%            | 100%                    | Yes           | 2     |
| <b>12</b> Part C to B Transition – Percent of children with IEP by 3 <sup>rd</sup> birthday (Timely evaluations to ensure students being served in Part C First Steps have an IEP on or before their 3 <sup>rd</sup> birthday) | 100%            | 100.0%                  | Yes           | 2     |
| 13 Secondary Transition with IEP Goals – Percent of youth age 16+ with IEP with measurable, annual IEP goals and transition services   | 100%            | 100.0%                  | Yes           | 2     |
|  |                 | Total Poir              | nts Earned    | 14    |

## State Results Elements (2018-2019 School Year)

The table below contains district data that indicates how students with and without disabilities are performing on metrics that are predictors of student success. These elements are for reporting purposes only and not scored.

| General Results Elements   | State<br>Performance | District<br>Performance |
|--|----------------------|-------------------------|
| Chronic Absenteeism  |                      |                         |
| Percentage of all students absent 10% or more of time enrolled   | 13.1%                | 15.7%                   |
| Percentage of STUDENTS WITH DISABILITIES absent 10% or more of time enrolled                                   | 17.4%                | 20.0%                   |
| Dual Credit/and or AP Courses  |                      |                         |
| Percentage of all students enrolled in dual credit and/or AP courses   | 48.2%                | 14.8%                   |
| Percentage of STUDENTS WITH DISABILITIES enrolled in dual credit and/or AP courses                             | 15.7%                | <5%                     |
| ACT Score  |                      |                         |
| Average ACT score for all students   | 17.6                 | 15.3%                   |
| Average ACT score for STUDENTS WITH DISABILITIES   | 13.9                 | 12.1%                   |
| MKAS- Kindergarten   |                      |                         |
| Percentage of all Kindergarten students scoring as Transitional Reader at the end of Kindergarten              | 67.4%                | 66.7%                   |
| Percentage of all Kindergarten STUDENTS WITH DISABILITIES scoring as Transitional Reader at                    | 49.6%                | 59.4%                   |
| the end of Kindergarten  |                      |                         |
| Third Grade Summative Assessment   |                      |                         |
| Percentage of all students with a final Pass score on 3 <sup>rd</sup> grade summative assessment               | 84.7%                | 78.7%                   |
| Percentage of STUDENTS WITH DISABILITIES with a final Pass score on 3 <sup>rd</sup> grade summative assessment | 54.4%                | 62.8%                   |
