Explore 500+ Mississippi Careers

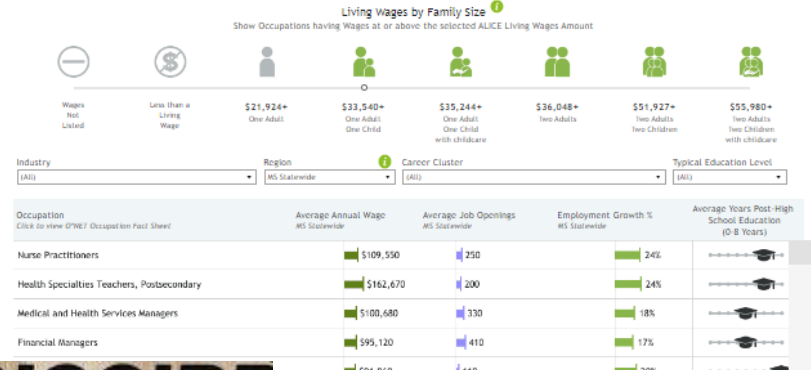

Student View Careers

Welcome to the Mississippi Top Jobs Explorer

Get2College has put this tool together to help Mississippians explore the wide range of careers available across the state. For a quick overview to learn how to navigate the Mississippi Jobs Explorer: <https://go2college.com/MS/MSJES/>.

The tool will default to only show occupations that have a minimum average salary of \$33,540 (+ \$17 per hour), which is the family-sustaining wage for a family of two in Mississippi. You can adjust that up or down by selecting a different family size and salary as your minimum. Additionally, you can narrow the list to specific industries or careers, to your region, or by education level. For more information about a specific occupation, just click on the occupation name and it will take you to more information.

Occupations are listed in order of the most "in demand," which is calculated by a combination of the average salary, average number of openings, and expected growth. If you would like to sort by one of the measures, scroll to the bottom of the page. All data is sourced from the MS Dept. of Employment Security & O'NET.
