Scale Score Explanation and Pre-Kindergarten Readiness Performance Levels

The Pre-Kindergarten Readiness Assessment will provide parents, teachers, and early childhood providers with a common understanding of what children know and are able to do upon entering school. The primary purpose of the Kindergarten Readiness Assessment is to improve the quality of classroom instruction and other services provided to students from birth to 3rd grade. *STAR Early Literacy* developed by Renaissance Learning, Inc. is the assessment administered to provide educators with this information.

498 Cut Score Explanation

Seventy percent mastery of knowledge and skills in early literacy and numeracy at the end of Pre-Kindergarten was selected as the level of mastery for the kindergarten readiness benchmark. The minimum end-of-year Pre-Kindergarten scale score associated with 70% mastery is 498. These students are on track to earn a 530 at the beginning of kindergarten and to meet end of grade 3 reading expectations.

STAR Early Literacy Achievement Standards		
Performance Level	**Scale Score Range**	**Descriptors**
Early Emergent Reader	300-487	Student is beginning to understand that printed text has meaning. The student is learning that reading involves printed words and sentences, and that print flows from left to right and from the top to the bottom of the page. The student is also beginning to identify colors, shapes, numbers, and letters.
Late Emergent Reader	488-674	Student can identify most of the letters of the alphabet and can match most of the letters to their sounds. The student is also beginning to "read" picture books and familiar words around the home. Through repeated reading of favorite books with an adult, students at this stage are building their vocabularies, listening skills, and understandings of print.
Transitional Reader	675-774	Student has mastered alphabet skills and letter-sound relationships. The student can identify many beginning and ending consonant sounds and long and short vowel sounds, and is probably able to blend sounds and word parts to read simple words. The student is also likely using a variety of strategies to figure out words, such as pictures, story patterns, and phonics.
Probable Reader	775-900	Student is becoming proficient at recognizing many words, both in and out of context. The student spends less time identifying and sounding out words, and more time understanding what was read. Probable readers can blend sounds and word parts to read words and sentences more quickly, smoothly, and independently than students in the other stages of development.

The following data reflect scores from the thirty-one (31) Early Learning Collaboratives, as well as scores from other four-year-old classrooms, including Title I, self-contained special education, and other school district Pre-Kindergarten programs. Four (4) Early Learning Collaboratives are currently in their planning year and will serve children in August 2023.
