

MISSISSIPPI

21ST CENTURY COMMUNITY LEARNING CENTERS

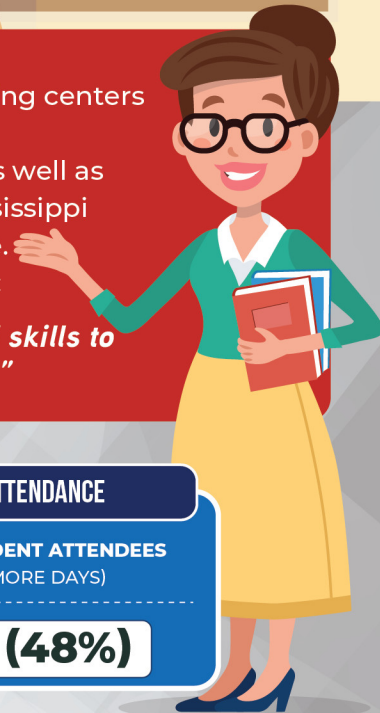

PROGRAM HIGHLIGHTS 2017-2018

PROGRAM DESCRIPTION

The federal 21st CCLC program awards funding to states to create community learning centers that provide academic enrichment opportunities for children in high-poverty and low-performing schools. Centers may offer a broad range of enrichment activities as well as educational services to the families of participating children. In fiscal year 2018, Mississippi Department of Education used its grant to fund afterschool centers across the state. These programs help to advance the strategic goals of the state board of education:

"To create a world-class educational system that gives students the knowledge and skills to be successful in college and the workforce, and to flourish as parents and citizens."

NEW SUBGRANTEE AWARDS 15

CENTERS OPERATED 52
