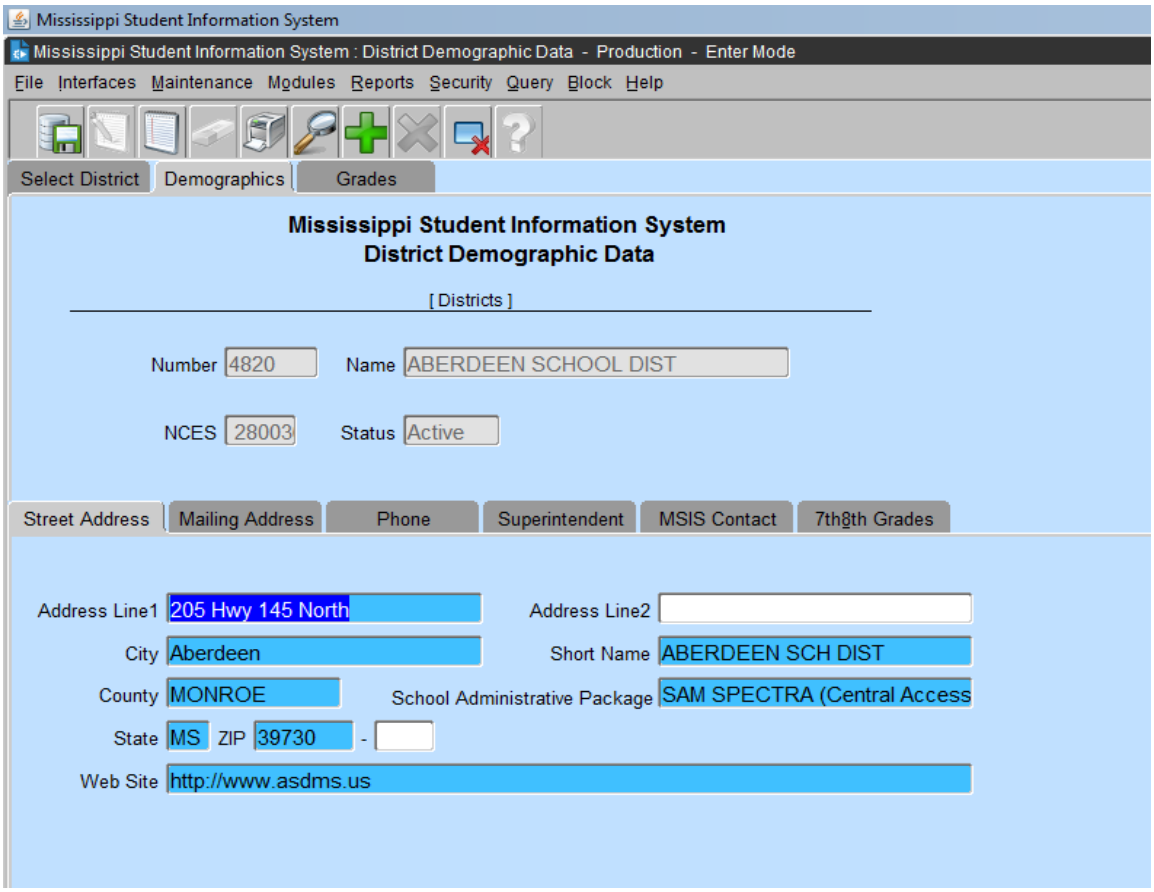
MDE will set up any new districts in the state and then the new district would update their demographic information. The NCES number is updated by MDE. The district should not change that number.

District Demographics Screens



It is very important that the District Demographic information be kept updated. Whenever a Superintendent, address, phone number, MSIS district primary contact or MSIS district secondary contact, grades served by the district, school package, or any other information on these screens changes please update it promptly. **Address labels for districts and superintendents will be run from this data regularly and it is important that it be accurate. The data will also be used to print the Ed Directory that is published each year. It is very important the street address and mailing address both be kept updated.**

When changing District demographics please make changes under District Demographics and School Demographics School 001.

Any authorized user of MSIS that has access to the District Demographic screen will be allowed to view the Demographic information for any district in the state.
