Lesson Measurable Learning Objectives:

The student will identify three personal and educational interests and strengths in common with those of a worker in the local community.

The student will identify two contributions of five jobs in the community.

Lesson Formative Assessment (acceptable evidence):

Assessment should relate to the performance outcome for goals and objectives. Assessment can be question answer, performance activity, etc.

Work Sample: The student will complete an inventory indicating individual work preferences, and relate those to the work requirements and environments of workers in each of the six career paths. The student will identify at least five occupations that match their preferences and two occupations that appear not to match their preferences. The students will conduct an exploration of one occupation that matches their work preferences and one occupation that does not.

Lesson Preparation

Essential Questions:

How does knowing oneself better prepare a person for choosing a rewarding career? How are people who have the jobs with the same job title, similar and different?

Engagement (Hook):

Counselor asks: "Who thinks that they know themselves very well?" Students will raise their hands if they agree. Counselor explains that students will be doing a self-assessment, an exercise that will help them discover more information about themselves and their own strengths and interests. Counselor says, "On this exercise, there are no wrong answers...only right ones because they are personal to you."

Procedures

Instructor Procedures/Instructional Strategies:

- 1. Counselor explains that it is important to know your strengths and interests because this knowledge helps each person make informed decisions for his/her own future.
- 2. Counselor will distribute the *Where Do I Fit? Activity Sheet*. Provide time for students to read through the inventory and to ask questions. Students are instructed to mark those items that most reflect what they like and can do well and their work preferences.
- 3. When students are finished, the counselor asks the students to look at the *Job Activity Picture Sheet* of community workers. Students review their chosen attributes, and compare them to the attributes that they think specific community workers might use in the jobs pictured.
- 4. The counselor reviews the *Career Path Mini Poster* with the students. The students use their knowledge of the career paths as a reference in identifying attributes.
- 5. Counselor guides students in developing a list of jobs that match students' preferences.

Student Involvement/Instructional Activities:

- 1. Students listen.
- 2. Students complete the Activity Sheet and total their yes/no/maybe responses in each area.
- 3. Students compare their responses on the sheet to the attributes of local workers. They may use the *Career Paths Mini Poster* for assistance.
- 4. Students review the *Career Path Mini Poster* and use it as a reference when comparing attributes.
- 5. Students create a list:
 - This job appears to match me.
 - This job does not appear to match me.

----------------------------	--------	-------

6. The counselor instructs the students to choose five community workers with whom they identify from the <i>Job Activity Picture Sheet</i> and two occupations that do not match their preferences. The counselor asks each student to briefly describe the contributions to the community of one worker whose work matches the student's preferences and one worker whose preferences are very different from the student. (The counselor may choose to do this activity with individual students or in small groups.)	6. Students choose five community workers from the <i>Job Activity Picture Sheet</i> with whom they identify and two occupations that do not match their preferences. They describe contributions to the community of one worker who "matches" and one who does not.
7. The counselor asks each student to tell one new thing that they learned about him or herself during the lesson.	7. Students reflect and give their answers. Respond to:

for retaining students' completed <i>Where Do I Fit Activity Sheets</i> . They are referenced in subsequent lessons and provide a means of comparing "today's" preferences with "tomorrow's" (in this case tomorrow means next year).	8. Students turn in activity sheets.
Teacher Follow-Up Activities	
Teachers may decide to engage in dialogue with	the students regarding the students' personal
