Please stop high school kids from taking state test. Sometimes it stop kids from graduating and making there families proud. It also hurts the kids if they don’t pass their test.

To: Testing Task Force
Subject: CTE

I would like to see representation from the Career and Technical Education realm represented in this task force as well.

---

Career and Technical Education
Poplarville High School
It is necessary that this review of the State testing is conducted and I pray necessary changes will be made because if one student fail then we all have failed to address an issue that has been on-going without a solution.

Thank you!
