

LIBRARY MEDIA LICENSURE

Library Monitoring Rubric - Section 2.1
 School Library Guide - Section 6.1

An effective school library program should have sufficient staff to operate the library and conduct its day-to-day services. The number of professional personnel and support staff should be determined by the school’s instructional program and the number of students and teachers served. Some larger districts may employ library coordinators to assure the smooth operation of all its libraries. The Mississippi Code 37-17-6(3)(a-e) provides the current minimum standard for library personnel:

Standard 2.3 The school district employs in each school a licensed librarian or media specialist who devotes no more than one-fourth (1/4) of the workday to library/media administrative activities.

Standard 2.3.1 If the student enrollment is 499 or less, a half-time licensed librarian or media specialist is required.

Standard 2.3.2 If the student enrollment is 500 or more, a full-time licensed librarian or media specialist is required.
