Purpose: The purpose of the School Literacy Action Plan is to provide a plan for addressing areas of concern in reading that have been identified through data analysis (i.e. screeners, observations, formal/informal assessments, etc.). Section 1 includes graphs for listing beginning of year (BOY) universal screener data. Data analysis from these results should yield target goals for improving student performance. Section 2 outlines the goals for addressing school concerns. This section should include opportunities for professional development, targeted coaching support, and approaches for implementing evidence-based literacy practices.

SECTION 2a: OVERALL GOAL BASED ON DATA

- Type overall goal(s) here. For example: Increase the percentage of third grade students scoring at/above benchmark from 32% at BOY to 70% at EOY. If you have more than one overall goal, you may number or bullet, like shown here.

SECTION 2b: SMART GOALS

SMART goals should include steps that will assist the coach in meeting the data-identified overall goal in section 2a.
