

Special Education Performance Determination Report- 2018 2300 HANCOCK CO SCHOOL DIST

Overview

The Mississippi Department of Education (MDE) is issuing this *Special Education Performance Determination Report* to inform all stakeholders on how well the district is supporting students in special education. The data for this report is based on results and compliance data compiled annually in the Annual Performance Report of the State Performance Plan under the Individuals with Disabilities Education Act (*IDEA*). The State Performance Plan is comprised of 14 items that indicate how well the State is serving students with disabilities. MDE submits an Annual Performance Report on these indicators to the U.S. Department of Education and we publish how well each district has performed on the indicators. A target score for each indicator was set by the MDE with input from the Special Education Advisory Panel when the State Performance Plan was written.

In creating the Special Education Performance Determination Report, MDE considered the totality of the information we have about a district to issue a determination of how well the district is performing on educating students with disabilities. Data considered included the participation and performance of students with disabilities on the administration of the Mississippi Assessment Program; exiting data on students with disabilities who dropped out of school and those who graduated with a regular high school diploma; how much time students with disabilities are educated with their non-disabled peers; and other issues related to district compliance with the *IDEA*. This report is based on data from the 2016-2017 school year.

Data points for the district are separated into two categories: compliance and results. The *compliance data points* are based on how well districts are following the rules of IDEA. Districts will get an overall score for their compliance data. The *results data points* are based on key outcomes for educating students with disabilities. Districts will get an overall score for their results indicators. The district's Special Education Performance Determination is based on an average score of the results and compliance scores. Items will be scored using the following matrix:

	Scoring N	1atrix		
Results Indicator Points		Compliance Indicator Points		
2	State Target Met or Exceeded	2	State Target Met or Exceeded	
1 At State Average or Better, But Not at State Target		0	State Target Not Met	
0	Below State Average			

Determination Levels

Each district will be determined to be in one of the four levels, prescribed by the U.S. Office of Special Education Programs (OSEP), based on its score. Supports will be given to districts in each level as described below:

Determination Level		2018 Report
Meets Expectations	Score	75% and Above
	Required Actions	District Created APR Improvement Plan with Root Cause Analysis
Needs Assistance	Score	At least 65% but less than 75%
	Required Actions (in addition to those above)	Targeted APR Data Training
Needs Intervention	Score	At least 50% but less than 65%
	Required Actions (in addition to those above)	MDE Led Root Cause Analysis and Technical Assistance with District Team
Needs Substantial	Score	Less than 50%
Intervention	Required Actions (in addition to those above)	Require MDE Approval of IDEA Budget Prior To Submission if IDEA Project Application

IDEA Part B Results Matrix (2016-2017 School Year)

The table below consists of data from the *State Performance Plan's Annual Performance Report (SPP/APR)*. Each item is an indicator of how the State is performing on key aspects of educating students with disabilities as prescribed by the IDEA. *The indicators are set by the United States Department of Education's Office of Special Education Programs (OSEP)*. The State Targets were determined by OSEP requirements, a review of State data over time, and input from the Special Education Advisory Panel. The indicators included below are considered to be results indicators.

Results Matrix Scoring

<u>Indicator 3</u> of the SPP/APR focuses on student's participation and performance on Statewide assessments of the Mississippi College and Career Readiness Standards and the DLM Essential Elements for English Language Arts and Mathematics which are Mississippi's alternate achievement standards for students with significant cognitive disabilities. The State reports a single performance score for ELA and a single performance score for math. This report disaggregates that performance score to the individual grade level and a score is given based on the State target set for the content area in the SPP/APR.

Indicator 3: ELA Statewide Assessment Elements (2016-2017 School Year)	State Target	State Perfor- mance	District Perfor- mance	District Score
Percentage of all students participating in ELA/English II Statewide assessments	95%	99%	98.9%	N/A
Percentage of STUDENTS WITH DISABILITIES participating in ELA/English II Statewide assessments	95%	98%	97.48%	2
Percentage of STUDENTS WITH DISABILITIES scoring proficient or above on ELA – Grade 3	17.9%	14.59%	10.64%	0
Percentage of STUDENTS WITH DISABILITIES scoring proficient or above on ELA – Grade 4	17.9%	10.15%	17.24%	1
Percentage of STUDENTS WITH DISABILITIES scoring proficient or above on ELA – Grade 5	17.9%	10.93%	5.41%	0
Percentage of STUDENTS WITH DISABILITIES scoring proficient or above on ELA – Grade 6	17.9%	8.73%	10.00%	1
Percentage of STUDENTS WITH DISABILITIES scoring proficient or above on ELA – Grade 7	17.9%	5.60%	3.85%	0
Percentage of STUDENTS WITH DISABILITIES scoring proficient or above on ELA – Grade 8	17.9%	6.05%	3.51%	0
Percentage of STUDENTS WITH DISABILITIES scoring proficient or above on English II	17.9%	7.17%	4.26%	0

Part B Compliance Matrix (2016-2017 School Year)

The table below consists of data from the *State Performance Plan's Annual Performance Report (SPP/APR)*. Each item is an indicator of how the State is performing on key aspects of educating students with disabilities as prescribed by the IDEA. The indicators are set by the United States Department of Education's Office of Special Education Programs (OSEP). The State Targets were determined by OSEP requirements, a review of State data over time, and input from the Special Education Advisory Panel. The indicators included below are compliance indicators.

Compliance Matrix Scoring

Total Number of Compliance Points Available	Total Number of Compliance Points Earned	Percentage Earned
14	12	85.71%

Compliance Indicators	State Target	District Performance	Target Met	Score
4A District has a significant discrepancy in the rate of suspensions/expulsions greater than 10 days for STUDENTS WITH DISABILITIES (Special Education rate no more than 2% above regular education rate)	No	No	Yes	2
4B District has a significant discrepancy by race or ethnicity in the rate of suspensions/expulsions greater than 10 days for children with IEPs	No	No	Yes	2
9 Disproportionate Representation in Special Education	No	No	Yes	2
10 Disproportionate Representation in Specific Disability Categories	No	No	Yes	2
11 Child Find – Percent of children determined eligible within 60 days	100%	100%	Yes	2
12 Part C to B Transition – Percent of children with IEP by 3 rd birthday (Timely evaluations to ensure students being served in Part C First Steps have an IEP on or before their 3 rd birthday)	100%	91%	No	0
13 Secondary Transition with IEP Goals – Percent of youth age 16+ with IEP with measurable, annual IEP goals and transition services	100%	100.0%	Yes	2
Total Points Earned				

State Results Elements (2016-2017 School Year)

The table below contains district data that indicates how students with and without disabilities are performing on metrics that are predictors of student success. These elements are for reporting purposes only and not scored.

General Results Elements	State Performance	District Performance
Chronic Absenteeism		
Percentage of all students absent 10% or more of time enrolled	14.6%	19.0%
Percentage of STUDENTS WITH DISABILITIES absent 10% or more of time enrolled	19.4%	29.6%
Dual Credit/and or AP Courses		
Percentage of all students enrolled in dual credit and/or AP courses	38%	39.7%
Percentage of STUDENTS WITH DISABILITIES enrolled in dual credit and/or AP courses	9%	7.0%
ACT Score		
Average ACT score for all students	18.0	20.1%
Average ACT score for STUDENTS WITH DISABILITIES	14.4	14.8%
MKAS- Kindergarten		
Percentage of all Kindergarten students scoring as Transitional Reader at the end of Kindergarten	67.3%	77.3%
Percentage of all Kindergarten STUDENTS WITH DISABILITIES scoring as Transitional Reader at the end of Kindergarten	51.3%	59.7%
Third Grade Summative Assessment		
Percentage of all students with a final Pass score on 3 rd grade summative assessment	95.2%	94.5%
Percentage of STUDENTS WITH DISABILITIES with a final Pass score on 3 rd grade summative assessment	78.8%	72.9%
