

This Landscape Analysis Template is a space to reflect on your campus capacity to lead and sustain implementation of your High School Redesign Blueprint Narrative.

We have divided it into the four redesign levers. It is intended as a jumping off point to reflect on the capacity and current state of the school community incorporating any impacts from the current shifts due to COVID-19 and to identify areas of opportunity potential needed shifts.

Please respond to the following questions for each of the levers below:

- **What are one or two existing visions/goals for this lever outlined in the Blueprint Narrative?**
- **Based on staff, student and community input what is the gist of what needs to happen in this area?**
- **How has the remote learning landscape influenced your implementation of plans for this fall? What has it left you wondering?**

Organizing Adults

**Students at the
Center**

**Teaching and
Learning**

**Post Secondary
Pathways**

Please respond to the following questions for each of the levers below:

- **How might you devise ways to convene groups of students and adults to develop knowledge and share resources this fall and as you continue to move forward?**
- **Who may you need to bring to the table to enhance and create supportive conditions for implementation?**

Organizing Adults
