Social and Emotional Learning
“If a child does not know how to read, we …”
“If a child does not know how to swim, we …”
“If a child does not know how to multiply, we …”
“If a child does not know how to drive, we …”
“If a child does not know how to behave, we …”
... teach? ... punish?

Are you able to finish the last sentence as automatically as the others? Why not?
Social and Emotional Learning (SEL)

What is SEL?

• Social and emotional learning (SEL) is the process through which children and adults understand and manage emotions, set and achieve positive goals, feel and show empathy for others, establish and maintain positive relationships, and make responsible decisions. (Casel, 2019)
Five Keys to Social and Emotional Success

https://www.youtube.com/watch?v=DqNn9qWoO1M
Social and Emotional Learning
School leaders are establishing a welcoming climate of teamwork and collaboration and integrating SEL into all aspects of the school day.

In classrooms teachers are modeling respect and empowering students in every interaction and teaching SEL directly and as part of reading, math, and other subjects.

In homes family members are modeling and supporting the kinds of positive behaviors that help children develop into competent and caring adults.

(Casel, 2019)
Two Educational Strategies

- Systematically teaching, modeling, and facilitating the application of social and emotional competencies in ways that allow students to apply them as part of their daily repertoire of behaviors.

- Establishing safe, caring, and highly engaging learning environments involving peer and family initiatives and school wide community building activities.
CASEL’s Five Competence Domains

Self-Awareness

Competence in self-awareness involves the **understanding of** one’s **emotions, personal goals, and values**

- (a) involves accurately assessing one’s strengths and limitations
- (b) having positive mindsets
- (c) possessing a well-grounded sense of efficacy and optimism

How thoughts, feelings and actions are interconnected.
CASEL’s Five Competence Domains

Self-Management

Competence in self-management requires **skills** and **attitudes** that facilitate the ability to **regulate emotions and behaviors**

(a) delay gratification
(b) manage stress
(c) control impulses
(d) persevere through challenges to achieve personal and educational goals
CASEL’s Five Competence Domains

Social-Awareness

Competence in social awareness involves the ability to take the perspective of those with different backgrounds or cultures to empathize and feel compassion

(a) understanding social norms for behavior
(b) recognizing family, school and community resources and supports
Relationship Skills

Relationship skills provide children with the tools they need to establish and maintain healthy and rewarding relationships. Competence in this domain involves:

(a) communicating clearly
(b) listening actively
(c) cooperating
(d) resisting inappropriate social pressure
(e) negotiating conflict constructively
(f) seeking help when it is needed
Responsible Decision Making

Responsible decision making requires the knowledge, skills, and attitudes needed to make constructive choices about personal behavior and social interactions across diverse settings. It requires the ability to

(a) consider ethical standards and safety concerns
(b) make realistic evaluation of consequence
(c) take the health and wellbeing of self and others into consideration prior to engaging in actions
Self-Awareness Activity
Bio Poem

Building Relationships
Hierarchy of Friendship

- Stage 1 – Play Partner
- Stage 2 – People to chat to
- Stage 3 – Help and encouragement
- Stage 4 – Intimacy/empathy
- Stage 5 – The sure shelter
Stage 1 – Play Partner

- Earliest stage of friendship
- A friend is someone who plays with the child.
- Often a friend will share and let the other borrow toys.
Hierarchy of Friendship

Stage 2 – People to Chat to

- A friend is someone who shares the same interests.
- Conversations move away from the game or activity that is involved to more personal topics.
- Children begin to learn and ask questions about each other.
Stage 3 – Help and Encouragement

• A friend is considered someone who will help, support, and encourage.
• These particular friendships are one-way.
Hierarchy of Friendship

Stage 4– Intimacy/Empathy

• In this relationship, both friends give support and encouragement to one another.
• Friends begin to emotionally bond.
• Giving and receiving affection becomes a vital part of the relationship.
Hierarchy of Friendship

Stage 5 – The Sure Shelter

- A relationship that consists of trust, fidelity, and unconditional acceptance.
- “A place where you can take your mask off”.
- Gifted students yearn for this friendship years before their peers.
Tips when encouraging peer interactions

• Encourage participation in clubs or organizations
• Student led activities
• Include group projects
• Pair students with similar interests, abilities, or drives
• Teach interpersonal skills in your classroom
Relationship Skills Activity
Step 1: On your sheet of paper draw a rose.

Be sure to include the following:

• Blossom
• Stem
• Thorns
Step 2: Take two minutes to label the following:

• Rose = something positive that happened this past week

• Blossom = something you are looking forward to next week

• Thorn = something you need help with within the next week
Step 3: Find a partner

• Choose someone that you don’t know well
• Share your Rose, Blossom, and Thorn
• What is something new that you learned about your partner?
• How did you connect with your partner?
• How did this activity make you feel?
Communication Skills
Communication Skills

Children Learn to Communicate in Three Ways:

• How parents interact with them
• Observing parents how they interact with others
• Their own interactions with others

*Children need to time to learn to communicate
Communication directly correlates with literacy

• The more positive communication between parents and children, the better readers they become.
• Helps children establish a strong voice
• Children in homes that value SEL have a rate of 3 million more words before the age of three.

*Children need to time to learn to communicate
Communication Skills

How can we help teach and strengthen our students’ communication skills?

• Listen more than talk
• Accept feelings (even if you don’t agree!)
• Create and maintain a positive culture in your classroom
• Understand silence
• Use reflective listening
How can we help teach and strengthen our gifted students’ communication skills?

- Separate behavior from the child
- Teach interpersonal skills
- Be honest
- Communicate with touch
- Share your own experiences and feelings
- Award honesty
Communication Skills

Teaching Interpersonal Skills

• The use of appropriate greetings
• The importance of initiating activities with their peers
• How to carry on a conversation without being distracted
• How to be assertive without being aggressive or disrespectful
• Proper strategies for conflict resolution
• How to negotiate and compromise appropriately
• Understanding non-verbal communication
Goal Setting
“Achievement is most positively affected by students and teachers setting challenging goals that are relevant to the students’ level of abilities and achievement”

-Richard M. Cash
Goal Setting

DID YOU KNOW…..

• Students who set more challenging goals out-performed their peers.
• Goal setting positively reinforces their abilities
• The most important part of goal setting with students is the initial level of commitment that is expressed.
• It is best to move students from a performance-approached goal (I am better than others) to a mastery-approach goal (my personal best).
SMARTS/S Goals

S = Specific. The more specific a goal is the more likely a student is to achieve it.

M = Measurable. The student should learn how to measure the goals and how to track it.

A = Achievable. We can best support the student when the goal is one that can actually be accomplished.

R = Realistic. The “Goldilocks Principle”- Just right!

T = Timely. Not too long or too short.

S/S = Strategies to Success. Knowing which strategies to use when is crucial.
Goal Setting

Strategies to Success

• Helps to deal with complex situations
• Teach students more than one strategy!
• Students must learn to try different strategies to achieve success as well as refine ones that have previously worked.
• Have students share with their peers what has worked for their goals. Peer sharing is powerful!
Goal Setting

Teachers can help support students in setting quality goals by:

• Help students identify their “ideal self”
• Keep students aware of the strategies and skills they are developing to achieve the ideal self.
• Openly express your belief that they can accomplish their goals.
• Provide constant support but don’t enable
• Provide effective feedback
Social and Emotional Learning

Tips to Integrating SEL

- Use story time for teachable moments
- Work in partnerships
- Teach them how to work in a group
- Nurture a culture of kindness
- Give them new words to say

Social and Emotional Learning

Tips to Integrating SEL

- Set up a peace place
- Utilize peer mediation
- Practice lots of role-play
- Allow for talk time
- Buddy up with an older or younger class
- Build community with class teams

Social and Emotional Learning

Tips to Integrating SEL

• Student journaling
• Encourage expression through art
• Assign interview projects
• Give them a job

SPECIAL EDUCATION
Alternate Diploma
Only students who have met the IEP criteria as a student with a significant cognitive disability (SCD) may participate in a program of study to earn the Alternate Diploma.
State Definition of SCD

Significant Cognitive Disability (SCD) – For a student to be classified as having a significant cognitive disability, all of the following must be true:

• The student demonstrates significant cognitive deficits and poor adaptive skill levels (as determined by that student’s comprehensive assessment) that prevent participation in the standard academic curriculum or achievement of the academic content standards, even with accommodations.

• The student requires extensive direct instruction in both academic and functional skills in multiple settings to accomplish the application and transfer of those skills.

• The student’s inability to complete the standard academic curriculum is not the result of excessive or extended absences or primarily the result of visual, auditory, or physical disabilities; emotional/behavioral disabilities; specific learning disabilities; or social, cultural, or economic differences.
Identifying Students as SCD

In order to be considered SCD, students must meet all three of the standards listed on the IEP.

Elizabeth Simmons, MLIS, Ed.S.
Office of Elementary Education and Reading
School Library Specialist
VISION
To create a world-class educational system that gives students the knowledge and skills to be successful in college and the workforce, and to flourish as parents and citizens

MISSION
To provide leadership through the development of policy and accountability systems so that all students are prepared to compete in the global community
State Board of Education Goals

1. **ALL**
   - Students Proficient and Showing Growth in All Assessed Areas

2. **EVERY**
   - Student Graduates from High School and is Ready for College and Career

3. **EVERY**
   - Child Has Access to a High-Quality Early Childhood Program

4. **EVERY**
   - School Has Effective Teachers and Leaders

5. **EVERY**
   - Community Effectively Uses a World-Class Data System to Improve Student Outcomes

6. **EVERY**
   - School and District is Rated “C” or Higher
Session Goals

At the end of this session participants will be able to...

• identify how to collaborate with school librarians in various ways to promote student voice

• locate resources in the school library or with the help of the school librarian that will aid in developing a collection of materials to promote student voice and social/emotional health, character traits, and college-and career-readiness
WARM-UP TALK

DO YOU COLLABORATE WITH YOUR SCHOOL’S LIBRARIAN?
COLLABORATION

WHY IT IS IMPORTANT...
Collaboration is **key** to being a 21st century school counselor and working with other educators is one of the **greatest** collaborative efforts school counselors can make on behalf of students.
Collaboration: Ideas for Joining Forces

- Character trait lessons
- ACT Prep
- College visits
- Scholarship writing resources

NEW IDEAS (more on these)

- Student voice
- Safe spaces
- Reading challenges
- Helpful resources
STUDENT VOICE

HOW TO PROMOTE IT...
Student voice is the individual and collective perspective and actions of young people within the context of learning and education.
Student Voice: What is it?

- Knowledge
- Passive and Active Participation
- Service
- Activism
- Leadership
- Opinions and Ideas
- Voting
- Beliefs

"Student voice reflects IDENTITY, and comes from a student’s experience, ideas, and knowledge."
Student achievement and engagement will increase when students have more ownership of their school community and of their learning.
Student Voice: What does it consist of?

- Student Engagement
- Student Participation
- Meaningful Student Involvement
- Pupil Consultation
In order for students to “develop a voice,” we need to give them multiple opportunities to share experiences, opinions, and ideas so that we build student confidence and normalize sharing.
TABLE TALK

HOW YOU CAN HELP PROMOTE YOUR STUDENTS’ VOICES?
SAFE SPACES

HOW TO FIND HELP...
According to the **Safe Space Network**, “A Safe Space is a place where anyone can relax and be able to fully express, without fear of being made to feel uncomfortable, unwelcome, or unsafe on account of biological sex, race/ethnicity, sexual orientation, gender identity or expression, cultural background, religious affiliation, age or physical or mental ability.”
Safe Spaces: What is it important?

Creating a space of positive school community interaction leads to a safe space for ALL.
Safe Spaces: *Student-led Activities*

**Listening Lunches**

- Peer-mentoring sessions
- Character traits
- Talent spotlights
- Book talks
Counselor-librarian collaboration creates additional access to supportive adults across the campus, decreasing stress and increasing support.

VISION
To create a world-class educational system that gives students the knowledge and skills to be successful in college and the workforce, and to flourish as parents and citizens

MISSION
To provide leadership through the development of policy and accountability systems so that all students are prepared to compete in the global community
State Board of Education Goals

FIVE-YEAR STRATEGIC PLAN FOR 2016-2020

1. All Students Proficient and Showing Growth in All Assessed Areas
2. Every Student Graduates from High School and is Ready for College and Career
3. Every Child Has Access to a High-Quality Early Childhood Program
4. Every School Has Effective Teachers and Leaders
5. Every Community Effectively Uses a World-Class Data System to Improve Student Outcomes
6. Every School and District is Rated “C” or Higher
Purpose

• MTSS Overview and Components
• Intervention versus Remediation
• Documentation Packet/Implementation Model
• Parent and Family Guide to Understanding MTSS
• Additional Resources on Intervention Website
Part 3 Chapter 41
Rule 41.1 Intervention
Adoption Date: January 21, 2005
Revisions: August 18, 2016; December 20, 2018

1. The purpose of this policy is to ensure that the behavioral and academic needs of every student are met through an instructional model that is designed to address student learning with quality classroom instruction and opportunities for intervention. The Mississippi Department Education (MDE) shall require every school district to follow the instructional model, which consists of three (3) tiers of instruction:

a. Tier 1: Quality classroom instruction based on Mississippi Curriculum Frameworks

b. Tier 2: Focused supplemental instruction

c. Tier 3: Intensive interventions specifically designed to meet the individual needs of students
Part 3 Chapter 41: Rule 41.1 Intervention

• Designed to meet the needs of every student and consists of three tiers of instruction (Tier I, Tier II, and Tier III)

• Requires screening for dyslexia (K and 1)

• [Link](https://www.mdek12.org/sites/default/files/documents/MBE/State Board Policy/Chapter 41/sbe41-1.pdf)
• School districts must complete, at a minimum, documentation as required for all students in Tier II and Tier III

• Students in Grades K-3 will be referred for a TST meeting within the first 20 days of school if a student has failed one (1) grade

• All Tier III documentation must accompany the student’s cumulative folder upon promotion or transfer to a new school

*Refer to slide 8 for link to policy in its entirety
Multi-Tiered System of Supports
MTSS

- A multi-tiered system of supports is a framework for effective team-based problem solving that is data-informed, evidence-based, and flexible enough to meet the academic and behavioral needs of all students.
## What is MTSS

<table>
<thead>
<tr>
<th>IS</th>
<th>IS Not</th>
</tr>
</thead>
<tbody>
<tr>
<td>A framework for effective problem solving to improve academics and behavioral outcomes for ALL students.</td>
<td>A single curriculum or program</td>
</tr>
<tr>
<td>For ALL students including those who need enrichment</td>
<td>Just for struggling students</td>
</tr>
<tr>
<td>Flexible to meet the unique needs of districts and schools</td>
<td>A one size fits all prescription</td>
</tr>
<tr>
<td>Data informed and evidence based</td>
<td>Based on assumptions or anecdotal info</td>
</tr>
<tr>
<td>Collaborative team based decision making</td>
<td>The responsibility of one person</td>
</tr>
<tr>
<td>A framework to make decisions about the need for further services.</td>
<td>A pre-referral process</td>
</tr>
</tbody>
</table>
Leadership teams should consist of members knowledgeable of curriculum, content, management, and diverse learners.

Decision making should always be made using student outcome data (are data collection procedures appropriate for diverse groups?)  
- “It Depends”

Effective instruction through layered supports for special education students  
- IEP development (MTSS is a springboard)
Early Intervention

• Sets the path for Kindergarten readiness
• Enhances subsequent school success
• Prevents initial delays from becoming disabilities in later years
Intervention or Remediation
Intervention

• Systematic and explicit instruction provided to accelerate growth in an area of identified need

• Provided by both special and general educators, based on training, not titles

• Designed to improve performance relative to a specific, measurable goal

• Based on valid information about current performance, realistic implementation, and includes ongoing student progress monitoring
Remedial Instruction

• Using individualized or small group teaching of students who are experiencing difficulties in specific subject areas
• Targets academic weaknesses that may hinder learning
• Intended to remedy a situation; to teach a student something that he or she should have previously learned or be able to demonstrate
• Usually short term
What is Tier I?
Tier I - High Quality Instruction
Tier I - High Quality Instruction

- Instructional strategies that address patterns of weaknesses among students
- ALL students receive instruction within an evidence-based, scientifically researched core program
- Differentiation occurs to meet the needs of ALL students
- High-quality instruction can make a substantial difference for struggling students
What is Tier II?
Tier II Supplemental Instruction

- Evidence-based, targeted, supplemental, skill-building intervention
  - Systematic, explicit, and aligned with Tier I instruction
  - Individual or small group targeted instruction/intervention and supplemental supports with similar skill building needs.
  - In addition to Tier I academic and behavior instruction and supports

- Interventions may be administered by any trained professional in the building
Making the Decision to Move to Tier II

• Look at data to determine when to move to Tier II
  - Discrepancy on universal screener when compared to class peers
  - Improvement never meets or exceeds intervention group
  - Standard scores on mastery test are below a given percentile (25th percentile)
  - Scores on specific skills are below basic or proficient, Level 1 or Level 2
  - Failing grades (least reliable source)
Best Practice Recommendations for Tier II

- 2-3 days per week (may be more depending on student)
- 20-30 minutes per day (or as prescribed by intervention)
- Progress monitor Tier II every other week other week
- Scheduling
Tier II Behavior

• Students who need additional help

• To reduce current incidents of problem behavior for students identified as "at-risk" for engaging in behavior problems
Critical Features of Tier II Interventions for Behavior

- Small Group
- Matched to Student Need(s)
- Explicit Instruction of Skills
- Structured Prompts for Appropriate Behavior
- Opportunities to Practice
- Frequent Feedback to Students
- Fading Supports
Tier II Interventions

- At Tier II interventions may be teacher created or you may utilize an intervention program

- Read 180, Fast ForWord, Reading Plus, iReady, Read Naturally, Achieve 3000
Tier II Interventions

• Use of Technology must also include teacher led instruction
• Must be systematic and explicit
• Daily student sign-in or teacher created logs
• Student receives something different than what is occurring for Tier I
What is Tier III?
Tier III Intensive Interventions and Instructional Supports

• Tier III is for students who demonstrated little to no progress in Tier II
• Typically reserved for 1-5% of students in a class
  - the most intensive instruction/intervention
  - smaller group setting (1-3 students)
  - 30-60 minutes at a minimum/ 4 days per week
  - progress is monitored more frequently to determine students' response to intervention, typically 1 time per week
Tier III Intensive Interventions and Instructional Supports

- Intervention is provided by school personnel who are highly trained with the areas of the academic need indicated by the student performance data.
- Not intended to replace Tier I.
- Regular **fidelity** checks should be conducted to determine if the intervention was implemented the way it was intended.
Tier III Intensive Interventions and Instructional Supports

• **Documentation**
  - does the information on the teacher narrative match the intervention?

• **Implementation**
  - are sign-in sheets available for my students to track their attendance?
  - does the intervention support the data from the assessments (STAR, MAAP,…)?
Tier III Behavior

- Intensive programs and strategies for students who need individualized supports
- Functional Behavioral Assessment (FBA)?
- Develop a comprehensive intervention support plan
Moving a Child to Tier III

• Not making progress at Tier II

• When a student is having severe problems at Tier I that needs immediate attention in Tier III
  - Multiple retentions
  - Several grade levels below in reading/math
Next Steps

What to do after Tier III?

- TST examines data
- Look at Rate of Progress
- Decide
  - Try a Different Intervention
  - OR
  - Child Find Study
• Follow Child Find Procedures

- **Child Find** is the ongoing obligation to identify, locate, and evaluate all children suspected of disabilities who need special education and related services as a result of those disabilities.

*Note: A district should not violate its Child Find duty by repeatedly referring a student for interventions rather than evaluating the student’s need for special education and related services.*
Classroom Accommodations
Examples of Accommodations

• Alternate responses
• Advance notes
• Extended time
• Teacher modeling
• Simplified written and verbal directions
• Frequent breaks
• Use of dictionaries/glossaries
Middle School and High School Supports
Critical Features of Tier II

• It is not sufficient to provide intervention for any student merely for the purpose of preparing for a standardized test.

Intervention Services

The Office of Intervention Services (Pre-K – 12) supports educators and parents who are working with struggling learners, including students who are learning English as a second language. This office is focused on improving academic and behavioral outcomes for students. Staff coordinate the local implementation of policies and procedures and provide professional development on Multi-Tiered System of Supports (MTSS) for school-based teams, administrators, staff, and parents.

The office also offers guidance and professional development opportunities for educators and parents related to intervention selection, data-based decision making, evaluation, progress monitoring, dyslexia, gifted learners, and English learners to ensure all students graduate high school ready for college and career.

Three Tier Instructional Model

The Three Tier Instructional Model is a part of State Board Policy 41.1). This model is designed to meet the needs of every student and consists of three tiers of instruction:

WHAT QUESTIONS SHOULD I ASK MY CHILD’S SCHOOL?

☐ Is the curriculum (core classroom instruction) meeting the needs of my child?
☐ Is my child currently in the tier process? If so, at which level?
☐ What are the extra support strategies that my child’s school is using if he/she is struggling in the classroom?
☐ What have you identified as the area that my child is struggling in or needs additional support?
☐ What are you currently providing to meet those areas of deficiencies?
☐ How are you progress monitoring their growth?
☐ Is my child making progress?
☐ How will I be informed of the progress my child is making?
☐ If my child is not making progress, what are you going to do differently?
☐ What can I do at home to support my child in this process?

What should we know about this document?

• Read the 3 pages of the introduction and purpose.

• From the text, choose a sentence, a phrase, and a word that you feel is particularly significant about this text. Be sure to choose text that supports your learning about the document.

• You’ll have 5 minutes to read. Questions?
What should we know about this document?

• You’ll now have 3 minutes to share your thoughts with your table groups. Begin with sharing your sentence and explaining its significance to you…

• Now your phrase…

• And finally, your word.

• Take 3 minutes to have general discussion about what you heard.

• Share.
Academic Resources for Students

• Take 3 minutes to scan the Academic Resources, paying attention to images or sections that you’ve wondered about or struggled with. Make notes in the margin.

• Introduce table hosts

• Your table hosts have been given three discussion questions. They will visit your tables and present the questions to you. The hosts will take notes based on your discussion.

• After all groups have discussed the three questions, the table hosts will share the key information they gleaned from listening to all groups.

• Questions?

It Can Happen to Anyone...
Truths About Mental Health Problems...

- People with mental health problems can live happy and fulfilling lives.

- 80–90% of people who seek help for mental health problems are just as successful as anyone else.
Why Do People Not Seek Help?

Despite the fact that 1 out of every 5 of us in this room will experience a mental health problem, we still play the shame game.
What Can You Do for Yourself or a Friend?

- Educate yourself & others.
- Ask questions and really listen.
- Do not label yourself or a friend by a diagnosis.
- Treat yourself and others with respect.
- Keep up with regular routines and activities.
- Speak up to get help.
Without help...

• Loneliness
• Depression
• Poor Physical Health
• Alcohol & Drugs
• Self-harm
• Hopelessness
• Suicide
Together we can prevent suicide.
National Suicides 2018

- 48,344 Americans died by suicide
  - 132 people per day
  - 1 person every 11 minutes
Mississippi Suicides 2018

- 422 suicide deaths
- 81% male
Mississippi Youth Suicides 2018 (under 24)

True or False?

Suicide cannot be prevented. If someone is set on taking his/her life, nothing can be done.

*False – Most people do NOT want to die. They only want the pain to stop.*

Warning signs are present in most suicides.

*True – 4 out of 5 people show warning signs before suicide.*
True or False?

Asking someone directly about suicide will make them more likely to go through with it.

*False – Most people are relieved when someone else starts the conversation they are too afraid to begin themselves.*

People who talk about suicide never go through with it, so there’s no harm in keeping it secret.

*False – Anyone who talks about suicide must be taken seriously and teens should tell a trusted adult.*
Risk Factors for Suicide

• Untreated mental illness
• Previous suicide attempt
• Family history of suicide
• Stressful life events
• Serious chronic health conditions/pain
• Lack of support
• Bullying
Warning Signs for Suicide...

- Withdrawal and isolation
- Personality & mood changes
- Trouble concentrating at school or work
- Talking, writing, or thinking about suicide
- Feeling hopeless, helpless, or worthless
- Giving away favorite things
- Becoming cheerful suddenly after depression
Substance use and suicide

• **Alcohol** contributes to over 70% of suicide deaths

• **Opioid addiction** increases chance of suicide
  • **2x** for males
  • **8x** for females
What do you do if you are worried about a friend?

Just ASK
ACT to save a life

Acknowledge the risk is real
Care enough to listen without judgement
Tell someone help is available and go with them to access it
Focus on Reasons to Live
Do NOT...

• Keep it a secret
• Think it will go away
• Leave someone alone
• Dare someone or “call their bluff”
• Argue
• Think nothing can be done
• Think you have to fix it alone
You never have to be alone...
