Kami ▶

https://www.kamiapp.com

Kami is a PDF and document annotation and markup tool to help users critically connect with content. It allows you to instantly level up documents, PDFs, and images to an interactive learning space. Kami provides tools to support any learning style, drive engagement, and improve learning outcomes for all!!

CLASSROOM CONNECTIONS

[4Cs: Collaboration, Communication, Creativity, Critical Thinking]

Kami allows students and educators to collaborate in real-time, whether in-person, remote, or blended, by allowing annotation of PDF files and documents both online and offline. Kami encourages success for all students by providing inclusive and intuitive tools that support any learning style: markup features, media insertion, text-to-speech, audio, and video comments, and more.

Collaboration Students can utilize the comment tool to collaborate with teachers and peers. The teacher can also give immediate feedback using the comment tool.

Critical Thinking Support students' critical thinking by allowing them to make connections using the markup and text box for annotations.

TRY IT

Upload a PDF of a famous inventor's journal and have students collaboratively annotate the scientific process the inventor used. Or show their work in math using the equation tool to practice strategies using the highlight and text tool.
