OFFICE OF ACCREDITATION AND ACCOUNTABILITY

09. Approval to revise Accreditation Policy 2.9.2, *Penalty for the Withdrawal of Accreditation, of the Mississippi Public School Accountability Standards, 2014*
(Has cleared the Administrative Procedures Act Process with or with no public comment)

On October 14, 2014, the Commission on School Accreditation approved the proposed revisions to Accreditation Policy 2.9.2, *Penalty for Withdrawal of Accreditation*. Policy 2.9.2 is being revised to delay the implementation of the penalty of the district's ability to participate in interscholastic activities for one (1) calendar year following the date of the withdrawal of accreditation. This revision will allow school districts sufficient time to remove deficiencies prior to impact on interscholastic activities.

On October 17, 2014, the State Board of Education granted approval to begin the Administrative Procedures Act process to revise the Accreditation Policy 2.9.2, *Penalty for Withdrawal of Accreditation*.

Recommendation: Approval

Back-up material attached

MISSISSIPPI PUBLIC SCHOOL ACCOUNTABILITY STANDARDS, 2014
Proposed Revisions to Accreditation Policy 2.0 DISTRICT ACCREDITATION POLICY
Approved by the Commission on School Accreditation October 14, 2014

2.0 DISTRICT ACCREDITATION POLICY

The State Board of Education, acting through the Commission on School Accreditation, is required to establish and implement a process for accountability at the public school district level. School districts are held accountable for Accreditation Policies and Process Standards and receive an annual accreditation status. Standards of the performance-based accreditation system recommended by the Commission and adopted by the State Board of Education are contained in the current edition of the *Mississippi Public School Accountability Standards*.

2.1 ASSIGNMENT OF DISTRICT ACCREDITATION STATUSES

The Commission on School Accreditation determines the annual accreditation status of all public school districts in the fall of each school year based on verified accreditation data from the previous school year. An annual district accreditation status is assigned based on compliance with Process Standards. Information concerning district compliance with Process Standards is reported to the Commission on an annual basis. (See Policy 2.2 below.)

The district superintendent and school principals are responsible for ensuring that all data reported to the Mississippi Department of Education are true and accurate as verified by supporting documentation on file in the school district. Reporting false information is a violation of the accreditation requirements set forth by the State Board of Education and may result in the downgrading of the district's accreditation status.

After the Commission takes action on accreditation records presented, the district superintendent and the chairperson of the local school board are notified of the status assigned. The decision of the Commission is final unless appealed by the school board of the school district to the State Board of Education in accordance with the appeal procedures in Policy 6.0 of this document.

2.2 PROCESS STANDARDS

Process (input) Standards address accepted educational principles and practices that are believed to promote educational quality. Any verified violation of a Process Standard is noted on the record of a school district at the time of discovery within any school year, but does not affect the current accreditation status of the district. (See Policy 2.5 for the exceptions.) If a noted violation of a Process Standard has not been corrected by the following school year when accreditation statuses are assigned, the violation is reported to the Commission for appropriate action.

The State Board of Education, acting through the Commission on School Accreditation, reserves the right to suspend school district compliance of any Accreditation Process Standard that is not directly mandated by state or federal law. (See Policy 4.2 for Rewards.)

2.3 ANNUAL ACCREDITATION STATUSES

In the fall of each year, every public school district will be assigned an annual accreditation status based on compliance with Process Standards and Accreditation Policies.

ACCREDITED is assigned to a district that complies with Accreditation Policies and 100% of the Process Standards. (See exceptions in Appendices F and H.)

PROBATION is assigned to a district that complies with fewer than 100% of the Accreditation Policies and Process Standards. The district will be required to develop and implement a Corrective Action Plan (CAP) with defined timelines to address the deficiencies. (See Policy 2.8.)

MISSISSIPPI PUBLIC SCHOOL ACCOUNTABILITY STANDARDS, 2014
Proposed Revisions to Accreditation Policy 2.0 DISTRICT ACCREDITATION POLICY
Approved by the Commission on School Accreditation October 14, 2014

WITHDRAWN is assigned to a district that has previously been assigned a PROBATION status and still does not comply with its Corrective Action Plan (CAP). Any school district placed in conservatorship may have its accreditation withdrawn. The district will be required to develop and implement a Corrective Action Plan (CAP) with defined timelines to address the deficiencies. (See Policy 2.8.)

2.4 NOTIFICATION OF DEFICIENCIES AFTER ASSIGNMENT OF STATUS

After the annual assignment of a district's accreditation status, the process of determining statuses for the following school year begins. When information on file in the Mississippi Department of Education indicates that a school district may be in violation of a standard, the superintendent and the school board of the district are informed in writing by appropriate staff in the Department responsible for monitoring compliance with the standard. School district officials are given thirty (30) days from the date of receipt of notification to provide a written response verifying accuracy or inaccuracy of the notice of possible noncompliance with the standard.

If the written response includes appropriate evidence to correct or refute the alleged violation, the superintendent of the district is notified by appropriate staff in the Department responsible for monitoring compliance with the standard. Any verified violation of a standard is reported in writing to the Office of Accreditation, where it is noted on the current Accreditation Record Summary of the district. (See Glossary for definition of Accreditation Record Summary.) The appropriate staff member in the Office of Accreditation notifies the superintendent of the district in writing of the verified violation.

2.5 FACTORS THAT MAY AFFECT AN IMMEDIATE CHANGE IN ACCREDITATION STATUS

An assigned accreditation status may remain unchanged during that school year except in those cases where verified noncompliance of accreditation standards may downgrade an accreditation status immediately, in accordance with Sections 2.5.1 or 2.5.2.

2.5.1 Recommended Accreditation Status – PROBATION

Districts in violation of any of the following standards will be presented to the Commission on School Accreditation for action. That action may include downgrading the district's accreditation status to Probation.

- Accreditation Policy 2.1, reporting false information,
- Standard 1.1, failure to implement appropriate standards of governance,
- Standard 1.2, failure to comply with school board policies that meet state and federal statutes, rules, and regulations,
- Standards 4 and 5, failure to comply with financial accountability requirements,
- Standard 14, failure to comply with graduation requirements,
- Standard 16, failure to comply with test security procedures required by the Mississippi Statewide Assessment System,
- Standards 17.1-17.8, failure to comply with state/federal regulations, or
- Standards 29, 30, and 31, failure to comply with standards that sustain a safe school climate.

2.5.2 Recommended Accreditation Status – WITHDRAWN

Districts in violation of any of the following standards will be presented to the Commission on School Accreditation for action. That action may include withdrawal of the district's accreditation.

- Standard 1.1, failure to implement appropriate standards of governance,
- Standard 1.2, failure to comply with school board policies that meet state and federal statutes, rules, and regulations,

MISSISSIPPI PUBLIC SCHOOL ACCOUNTABILITY STANDARDS, 2014
Proposed Revisions to Accreditation Policy 2.0 DISTRICT ACCREDITATION POLICY
Approved by the Commission on School Accreditation October 14, 2014

- Standards 4 and 5, failure to comply with financial accountability requirements of a serious nature,
- Standard 14, failure to comply with graduation requirements specified in Standards 14.1, 14.2, and 14.5,
- Standard 16, failure to comply with test security procedures required by the Mississippi Statewide Assessment System in Appendix F, numbers 8 and 9,
- Standards 17.4-17.6, federal programs whose regulations call for strong sanctions for continued patterns of noncompliance, or
- Standards 29, 30, and 31, failure to comply with standards that pose life-threatening conditions for students and staff.

2.6 RESOLVING ACCREDITATION CONTROVERSIES

All controversies involving the accreditation statuses of school districts are initially heard by a duly authorized representative of the Commission in accordance with Section 37-17-5, *Mississippi Code of 1972*, as amended, and Policy 6.0.

2.7 CONSOLIDATION OF SCHOOL DISTRICTS OR TRANSFER OF GRADES

When two (2) or more school districts consolidate or when two (2) or more school boards approve the transfer of a grade or grades, the affected school district(s) may be allowed to maintain its accreditation status for a period of time to be determined upon application to the Commission on School Accreditation. The Commission on School Accreditation shall review the application of any such affected school district(s) and submit a recommendation to the State Board of Education for approval.

2.8 CORRECTIVE ACTION PLAN (CAP) AND WITHDRAWAL OF ACCREDITATION

2.8.1 Corrective Action Plan (CAP) with Definitive Timelines

When a school district has been assigned a PROBATION or WITHDRAWN accreditation status, the Mississippi Department of Education, in conjunction with the school district, shall develop a Corrective Action Plan (CAP) with defined timelines in which to correct the district's deficiencies. The State Board of Education implements the program of development in each district assigned a PROBATION or WITHDRAWN status in accordance with Section 37-17-6(10), *Mississippi Code of 1972*, as amended.

The school district is required to submit a Corrective Action Plan (CAP) within sixty (60) days of notification. The plan must stipulate what will be done to remove the deficiencies and the time line required. The plan must be approved by the local school board as documented by official minutes and bear the signatures of the school board chairperson and district superintendent. When corrective action has been implemented to remove a citation, the school district must submit documentary evidence confirming such to the Office of Accreditation. Assigned MDE staff may conduct follow-up visits as necessary to verify corrective action and compliance.

2.8.2 Withdrawal of Accreditation

If the district's deficiencies are not removed during the time specified in the Corrective Action Plan (CAP), the school district is subject to having its accreditation withdrawn by the Commission on School Accreditation in accordance with Section 37-17-6, *Mississippi Code of 1972*, as amended. The status of the district will be listed as WITHDRAWN NOT ACCREDITED, and the record of that district will continue to be maintained.

MISSISSIPPI PUBLIC SCHOOL ACCOUNTABILITY STANDARDS, 2014
Proposed Revisions to Accreditation Policy 2.0 DISTRICT ACCREDITATION POLICY
Approved by the Commission on School Accreditation October 14, 2014

2.8.2.1 Hearings

Before requesting approval from the State Board of Education to withdraw the accredited status of a district, the Commission on School Accreditation conducts a hearing (See Policy 2.9 for exception) to allow the officials of the affected district to present evidence or other reasons why its accreditation should not be withdrawn. {MS Code 37-17-6(11)(a)}

2.8.2.2 Results of Hearings

Within forty-five (45) calendar days of the conclusion of the hearing and after consideration of the results of the hearing, the Commission on School Accreditation shall be authorized, with the approval of the State Board of Education, to withdraw the accreditation of the district and may issue a request to the Governor that a state of emergency be declared in that district in accordance with Section 37-17-6(11)(a), *Mississippi Code of 1972*, as amended. If the decision is made not to withdraw the accredited status of the district, a new timeline is established in the district's Corrective Action Plan (CAP).

2.8.2.3 Public Notice

After a state of emergency has been declared, the Commission files a public notice at least once a week for at least three (3) consecutive weeks in a newspaper published within the immediate or general vicinity of the affected school district in accordance with Section 37-17-6(12), *Mississippi Code of 1972*, as amended.

2.8.2.4 Access to School District Records

School districts are required to produce necessary reports, correspondence, financial statements, and any other documents necessary for the Commission to implement this section on withdrawal of accreditation and conservatorship.

2.8.2.5 Reinstatement of an Accredited Status

Based on the recommendation from the Office of Accreditation or the State Superintendent of Education, the superintendent and school board president of a school district whose accreditation has been withdrawn may file a petition with the Commission on School Accreditation for reinstatement of accreditation to be effective on January 1 or July 1. The Commission on School Accreditation shall require all school districts that petition for reinstatement of accreditation to appear before the Commission on School Accreditation to furnish evidence satisfactory to the Commission that the school district is in compliance with all accreditation standards prior to the reinstatement of accreditation.

2.9 CONDITIONS OF EMERGENCY STATUS AND WITHDRAWAL OF ACCREDITATION

2.9.1 Declaration of State of Emergency

The State Board of Education may request the Governor to declare a state of emergency in any school district when any of the following emergency situations occur. Upon the declaration of the state of emergency by the Governor, the State Board of Education may take all such action for dealing with the school districts as authorized under subsection (11) or (14) of Section 37-17-6, *Mississippi Code of 1972*, as amended, including the withdrawal of the district's accreditation.

2.9.1.1 Emergency Situation

The State Board of Education and the Commission on School Accreditation determine that an extreme emergency situation exists in a school district which jeopardizes the safety, security, or educational interests of the children enrolled in the schools in that district, and such emergency situation is believed to be related to a serious violation or violations of accreditation standards or state or federal law. For purposes of this paragraph, the declarations of a state of emergency shall not be limited to those instances when a school district's impairments are related to a lack of financial resources, but also shall include serious

MISSISSIPPI PUBLIC SCHOOL ACCOUNTABILITY STANDARDS, 2014
Proposed Revisions to Accreditation Policy 2.0 DISTRICT ACCREDITATION POLICY
Approved by the Commission on School Accreditation October 14, 2014

failure to meet minimum academic standards, as evidenced by a continued pattern of poor student performance. {Section 37-17-6(11)(b), *Mississippi Code of 1972*, as amended}

2.9.1.2 Failing School District

A school district meets the State Board of Education's definition of a failing school district for two (2) consecutive full school years. {Section 37-17-6(11)(b), *Mississippi Code of 1972*, as amended}

2.9.1.3 Schools At-Risk

A school continues to be designated a School At-Risk after three (3) years of implementing a school improvement plan, or in the event that more than fifty percent (50%) of the schools within the school district are designated as Schools At-Risk in any one (1) year. {Section 37-18-7(2), *Mississippi Code of 1972*, as amended} (See Policy 3.4.1 for Schools At-Risk designation.)

2.9.2 Penalty for the Withdrawal of Accreditation

Policy 2.9.2 will become effective one (1) calendar year following the Withdrawal of Accreditation by the Commission on School Accreditation and the State Board of Education.

The withdrawal of a school district's accreditation by the Commission on School Accreditation will result in the following:

- A school or schools within a district shall be limited to participation in no more than fifty percent (50%) of the regular season of any interscholastic activity, which shall include division/district/regional games,
- The interscholastic season schedule for a school or schools within a district shall not include the opening day of season or any type of post season participation, as determined by the Office of Accreditation, and
- Cheerleading, drill and dance squads, speech and debate, choral music, and band may participate in district or state contest, but shall not be eligible to receive ratings.

All schedule requests must be submitted in writing to the Mississippi Department of Education, Office of Accreditation, at least thirty (30) days prior to the beginning of the season. **The Office of Accreditation shall pre-approve all schedules and participation in interscholastic activities.** In addition to the suspension of all post season activities, the school district shall not be allowed to participate in jamborees, special games, parades, tournaments, holiday tournaments, or competitions of any nature.

Failure to comply with section 2.9.2 will result in the suspension of ALL interscholastic activities.

Failure of a district to have its accreditation reinstated by the Commission on School Accreditation after a period of two (2) calendar years from the date of the withdrawal of accreditation shall result in the immediate suspension of ALL interscholastic activities until the district's accreditation status is reinstated.

Note: Interscholastic activities include, but are not limited to, football, basketball, baseball, track and field, cross country, tennis, golf, volleyball, softball (fast pitch and slow pitch), soccer, wrestling, swimming, power lifting, bowling, archery, cheerleading, drill, and dance squads, speech and debate, choral music, and band.

MISSISSIPPI PUBLIC SCHOOL ACCOUNTABILITY STANDARDS, 2014
Proposed Revisions to Accreditation Policy 2.0 DISTRICT ACCREDITATION POLICY
Approved by the Commission on School Accreditation October 14, 2014

2.9.3 Public Notice

After a state of emergency has been declared, the Commission files a public notice at least once a week for at least three (3) consecutive weeks in a newspaper published within the immediate or general vicinity of the affected school district in accordance with Section 37-17-6(12), *Mississippi Code of 1972*, as amended.

2.9.4 Access to School District Records

School districts are required to produce necessary reports, correspondence, financial statements, and any other documents necessary for the Commission to implement this section on withdrawal of accreditation and conservatorship.

2.9.5 Reinstatement of an Accredited Status

Based on the recommendation from the Office of Accreditation or the State Superintendent of Education, the superintendent and school board president of a school district whose accreditation has been withdrawn may file a petition with the Commission on School Accreditation for reinstatement of accreditation to be effective on January 1 or July 1. The Commission on School Accreditation shall require all school districts that petition for reinstatement of accreditation to appear before the Commission on School Accreditation to furnish evidence satisfactory to the Commission that the school district is in compliance with all accreditation standards prior to the reinstatement of accreditation.

Recommendations for Amendments to State Law 2015 Legislative Session

Submitted by: Paula Vanderford

Office: Office of Accreditation and Accountability

Code Section to be Amended: Miss. Code Ann. Section 37-17-6, specifically subsections (12)(a) and (b).

Existing Language: See attachment and Language to be Added below.

Language to be Deleted: Subsection (12)(b): “more than”; and “Schools At Risk”.

Language to be Added: Entire statute with proposed changes is attached. New language is in bold. Language to be deleted is indicated by the strikethrough.

“(12)(a) If the recommendations for corrective action are not taken by the local school district or if the deficiencies are not removed by the end of the probationary period, the Commission on School Accreditation shall conduct a hearing to allow the affected school district to present evidence or other reasons why its accreditation should not be withdrawn. Additionally, if the local school district violates accreditation standards that have been determined by the policies and procedures of the State Board of Education to be a basis for withdrawal of school district's accreditation without a probationary period, the Commission on School Accreditation shall conduct a hearing to allow the affected school district to present evidence or other reasons why its accreditation should not be withdrawn. After its consideration of the results of the hearing, the Commission on School Accreditation shall be authorized, with the approval of the State Board of Education, to withdraw the accreditation of a public school district, and issue a request to the Governor that a state of emergency be declared in that district.

(i) If a public school district's accreditation is withdrawn, the superintendent and district administrative staff, including building level administrators of that public school district shall be restricted only to travel that is mandated by law or prescribed by the State Department of Education.

All out-of-state travel is prohibited, unless prior approval is granted by the Mississippi Department of Education.

(ii) If a public school district's accreditation is withdrawn, the members of the local school board of that school district shall be restricted only to travel that is mandated by law or prescribed by the State Department of Education, and shall have the amount of their per diem and/or yearly rate reduced by one-half (1/2).

(b) If the State Board of Education and the Commission on School Accreditation determine that an extreme emergency situation exists in a school district that jeopardizes the safety, security or educational interests of the children enrolled in the schools in that district and that emergency situation is believed to be related to a serious violation or violations of accreditation standards or state or federal law, or when a school district meets the State Board of Education's definition of a failing school district for two (2) consecutive full school years, or if ~~more than~~ fifty percent (50%) **or more** of the schools within the school district are designated as ~~Schools At Risk~~ **failing** in any one (1) year, the State Board of Education may request the Governor to declare a state of emergency in that school district. For purposes of this paragraph, the declarations of a state of emergency shall not be limited to those instances when a school district's impairments are related to a lack of financial resources, but also shall include serious failure to meet minimum academic standards, as evidenced by a continued pattern of poor student performance.”

Rationale for Changes: Subsections (12)(a)(i) and (ii) are new. Travel and per diem are restricted in districts in which accreditation has been withdrawn. Remedial measures to prioritize resources within the affected school district to improve compliance with state standards. Tracks similar restrictions in the New Start School Program, Section 37-167-1(7) and (8).

Amendments to existing language in Subsection (12)(b):

The language “schools at risk” is changed to “failing”. The latter is current terminology used elsewhere in the statute.

The language “more than fifty percent (50%) of the schools..... designated as failing” is changed to “fifty percent (50%) or more.....” This would allow a more practical application of a conservatorship instead of New Start School program in certain instances. For example, the amendment would support putting a four school district with two failing schools in conservatorship rather than having to apply the New Start School law in two of the four schools.

Miss. Code Ann. § 37-17-6

§37-17-6. Permanent performance based accreditation system; failing districts; Mississippi Recovery School district

(1) The State Board of Education, acting through the Commission on School Accreditation, shall establish and implement a permanent performance-based accreditation system, and all noncharter public elementary and secondary schools shall be accredited under this system.

(2) No later than June 30, 1995, the State Board of Education, acting through the Commission on School Accreditation, shall require school districts to provide school classroom space that is air-conditioned as a minimum requirement for accreditation.

(3)(a) Beginning with the 1994-1995 school year, the State Board of Education, acting through the Commission on School Accreditation, shall require that school districts employ certified school librarians according to the following formula:

Number of Students Per School Library	Number of Certified School Librarians
0--499 Students	1/2 Full-time Equivalent Certified Librarian
500 or More Students	1 Full-time Certified Librarian

(b) The State Board of Education, however, may increase the number of positions beyond the above requirements.

(c) The assignment of certified school librarians to the particular schools shall be at the discretion of the local school district. No individual shall be employed as a certified school librarian without appropriate training and certification as a school librarian by the State Department of Education.

(d) School librarians in the district shall spend at least fifty percent (50%) of direct work time in a school library and shall devote no more than one-fourth (1/4) of the workday to administrative activities that are library related.

(e) Nothing in this subsection shall prohibit any school district from employing more certified school librarians than are provided for in this section.

(f) Any additional millage levied to fund school librarians required for accreditation under this subsection shall be included in the tax increase limitation set forth in Sections 37-57-105 and 37-57-107 and shall not be deemed a new program for purposes of the limitation.

(4) On or before December 31, 2002, the State Board of Education shall implement the performance-based accreditation system for school districts and for individual noncharter public schools which shall include the following:

(a) High expectations for students and high standards for all schools, with a focus on the basic curriculum;

(b) Strong accountability for results with appropriate local flexibility for local implementation;

(c) A process to implement accountability at both the school district level and the school level;

(d) Individual schools shall be held accountable for student growth and performance;

(e) Set annual performance standards for each of the schools of the state and measure the performance of each school against itself through the standard that has been set for it;

(f) A determination of which schools exceed their standards and a plan for providing recognition and rewards to those schools;

(g) A determination of which schools are failing to meet their standards and a determination of the appropriate role of the State Board of Education and the State Department of Education in providing assistance and initiating possible intervention. A failing district is a district that fails to meet both the absolute student achievement standards and the rate of annual growth expectation standards as set by the State Board of Education for two (2) consecutive years. The State Board of Education shall establish the level of benchmarks by which absolute student achievement and growth expectations shall be assessed. In setting the benchmarks for school districts, the State Board of Education may also take into account such factors as graduation rates, dropout rates, completion rates, the extent to which the school or district employs qualified teachers in every classroom, and any other factors deemed appropriate by the State Board of Education. The State Board of Education, acting through the State Department of Education, shall apply a simple "A," "B," "C," "D" and "F" designation to the current school and school district statewide accountability performance classification labels beginning with the State Accountability Results for the 2011-2012 school year and following, and in the school, district and state report cards required under state and federal law. Under the new designations, a school or school district that has earned a "Star" rating shall be designated an "A" school or school district; a school or school district that has earned a "High-Performing" rating shall be designated a "B" school or school district; a school or school district that has earned a "Successful" rating shall be designated a "C" school or school district; a school or school district that has earned an "Academic Watch" rating shall be designated a "D" school or school district; a school or school district that has earned a "Low-Performing," "At-Risk of Failing" or "Failing" rating shall be designated an "F" school or school district. Effective with the implementation of any new curriculum and assessment standards, the State Board of Education, acting through the State Department of Education, is further authorized and directed to change the school and school district accreditation rating system to a simple "A," "B," "C," "D" and "F" designation based on a combination of student achievement scores and student growth as measured by the statewide testing programs developed by the State Board of Education pursuant to Chapter 16, Title 37, Mississippi Code of 1972. In any statute or regulation containing the former accreditation designations, the new designations shall be applicable;

(h) Development of a comprehensive student assessment system to implement these requirements; and

(i) The State Board of Education may, based on a written request that contains specific reasons for requesting a waiver from the school districts affected by Hurricane Katrina of 2005, hold harmless school districts from assignment of district and school level accountability ratings for the 2005-2006 school year. The State Board of Education upon finding an extreme hardship in the school district may grant the request. It is the intent of the Legislature that all school districts maintain the highest possible academic standards and instructional programs in all schools as required by law and the State Board of Education.

(5)(a) Effective with the 2013-2014 school year, the State Department of Education, acting through the Mississippi Commission on School Accreditation, shall revise and implement a single “A” through “F” school and school district accountability system complying with applicable federal and state requirements in order to reach the following educational goals:

(i) To mobilize resources and supplies to ensure that all students exit third grade reading on grade level by 2015;

(ii) To reduce the student dropout rate to thirteen percent (13%) by 2015; and

(iii) To have sixty percent (60%) of students scoring proficient and advanced on the assessments of the Common Core State Standards by 2016 with incremental increases of three percent (3%) each year thereafter.

(b) The State Department of Education shall combine the state school and school district accountability system with the federal system in order to have a single system.

(c) The State Department of Education shall establish five (5) performance categories (“A,” “B,” “C,” “D” and “F”) for the accountability system based on the following criteria:

(i) Student Achievement: the percent of students proficient and advanced on the current state assessments;

(ii) Individual student growth: the percent of students making one (1) year's progress in one (1) year's time on the state assessment, with an emphasis on the progress of the lowest twenty-five percent (25%) of students in the school or district;

(iii) Four-year graduation rate: the percent of students graduating with a standard high school diploma in four (4) years, as defined by federal regulations;

(iv) Categories shall identify schools as Reward (“A” schools), Focus (“D” schools) and Priority (“F” schools). If at least five percent (5%) of schools in the state are not graded as “F” schools, the lowest five percent (5%) of school grade point designees will be identified as Priority schools. If at least ten percent (10%) of schools in the state are not graded as “D” schools, the lowest ten percent (10%) of school grade point designees will be identified as Focus schools;

(v) The State Department of Education shall discontinue the use of Star School, High-Performing, Successful, Academic Watch, Low-Performing, At-Risk of Failing and Failing school accountability designations;

(vi) The system shall include the federally compliant four-year graduation rate in school and school district accountability system calculations. Graduation rate will apply to high school and school district accountability ratings as a compensatory component. The system shall discontinue the use of the High School Completer Index (HSCI);

(vii) The school and school district accountability system shall incorporate a standards-based growth model, in order to support improvement of individual student learning;

(viii) The State Department of Education shall discontinue the use of the Quality Distribution Index (QDI);

(ix) The State Department of Education shall determine feeder patterns of schools that do not earn a school grade because the grades and subjects taught at the school do not have statewide standardized assessments needed to calculate a school grade. Upon determination of the feeder pattern, the department shall notify schools and school districts prior to the release of the school grades beginning in 2013. Feeder schools will be assigned the accountability designation of the school to which they provide students;

(x) Standards for student, school and school district performance will be increased when student proficiency is at a seventy-five percent (75%) and/or when sixty-five percent (65%) of the schools and/or school districts are earning a grade of "B" or higher, in order to raise the standard on performance after targets are met.

(6) Nothing in this section shall be deemed to require a nonpublic school that receives no local, state or federal funds for support to become accredited by the State Board of Education.

(7) The State Board of Education shall create an accreditation audit unit under the Commission on School Accreditation to determine whether schools are complying with accreditation standards.

(8) The State Board of Education shall be specifically authorized and empowered to withhold adequate education program fund allocations, whichever is applicable, to any public school district for failure to timely report student, school personnel and fiscal data necessary to meet state and/or federal requirements.

(9) Deleted.

(10) The State Board of Education shall establish, for those school districts failing to meet accreditation standards, a program of development to be complied with in order to receive state funds, except as otherwise provided in subsection (15) of this section when the Governor has declared a state of emergency in a school district or as otherwise provided in Section 206, Mississippi Constitution of 1890. The state board, in establishing these standards, shall provide for notice to schools and sufficient time and aid to enable schools to attempt to meet these standards, unless procedures under subsection (15) of this section have been invoked.

(11) Beginning July 1, 1998, the State Board of Education shall be charged with the implementation of the program of development in each applicable school district as follows:

(a) Develop an impairment report for each district failing to meet accreditation standards in conjunction with school district officials;

(b) Notify any applicable school district failing to meet accreditation standards that it is on probation until corrective actions are taken or until the deficiencies have been removed. The local school district shall develop a corrective action plan to improve its deficiencies. For district academic deficiencies, the corrective action plan for each such school district shall be based upon a complete analysis of the following: student test data, student grades, student attendance reports, student dropout data, existence and other relevant data. The corrective action plan shall describe the specific measures to be taken by the particular school district and school to improve: (i) instruction; (ii) curriculum; (iii)

professional development; (iv) personnel and classroom organization; (v) student incentives for performance; (vi) process deficiencies; and (vii) reporting to the local school board, parents and the community. The corrective action plan shall describe the specific individuals responsible for implementing each component of the recommendation and how each will be evaluated. All corrective action plans shall be provided to the State Board of Education as may be required. The decision of the State Board of Education establishing the probationary period of time shall be final;

(c) Offer, during the probationary period, technical assistance to the school district in making corrective actions. Beginning July 1, 1998, subject to the availability of funds, the State Department of Education shall provide technical and/or financial assistance to all such school districts in order to implement each measure identified in that district's corrective action plan through professional development and on-site assistance. Each such school district shall apply for and utilize all available federal funding in order to support its corrective action plan in addition to state funds made available under this paragraph;

(d) Assign department personnel or contract, in its discretion, with the institutions of higher learning or other appropriate private entities with experience in the academic, finance and other operational functions of schools to assist school districts;

(e) Provide for publication of public notice at least one time during the probationary period, in a newspaper published within the jurisdiction of the school district failing to meet accreditation standards, or if no newspaper is published therein, then in a newspaper having a general circulation therein. The publication shall include the following: declaration of school system's status as being on probation; all details relating to the impairment report; and other information as the State Board of Education deems appropriate. Public notices issued under this section shall be subject to Section 13-3-31 and not contrary to other laws regarding newspaper publication.

(12)(a) If the recommendations for corrective action are not taken by the local school district or if the deficiencies are not removed by the end of the probationary period, the Commission on School Accreditation shall conduct a hearing to allow the affected school district to present evidence or other reasons why its accreditation should not be withdrawn. Additionally, if the local school district violates accreditation standards that have been determined by the policies and procedures of the State Board of Education to be a basis for withdrawal of school district's accreditation without a probationary period, the Commission on School Accreditation shall conduct a hearing to allow the affected school district to present evidence or other reasons why its accreditation should not be withdrawn. After its consideration of the results of the hearing, the Commission on School Accreditation shall be authorized, with the approval of the State Board of Education, to withdraw the accreditation of a public school district, and issue a request to the Governor that a state of emergency be declared in that district.

(i) If a public school district's accreditation is withdrawn, the superintendent and district administrative staff, including building level administrators of that public school district shall be restricted only to travel that is mandated by law or prescribed by the State Department of Education. All out-of-state travel is prohibited, unless prior approval is granted by the Mississippi Department of Education.

(ii) If a public school district's accreditation is withdrawn, the members of the local school board of that school district shall be restricted only to travel that is mandated by law or prescribed by the State Department of Education, and shall have the amount of their per diem and/or yearly rate reduced by one-half (1/2).

(b) If the State Board of Education and the Commission on School Accreditation determine that an extreme emergency situation exists in a school district that jeopardizes the safety, security or educational interests of the children enrolled in the schools in that district and that emergency situation is believed to be related to a serious violation or violations of accreditation standards or state or federal law, or when a school district meets the State Board of Education's definition of a failing school district for two (2) consecutive full school years, or if ~~more than~~ fifty percent (50%) **or more** of the schools within the school district are designated as ~~Schools At Risk~~ **failing** in any one (1) year, the State Board of Education may request the Governor to declare a state of emergency in that school district. For purposes of this paragraph, the declarations of a state of emergency shall not be limited to those instances when a school district's impairments are related to a lack of financial resources, but also shall include serious failure to meet minimum academic standards, as evidenced by a continued pattern of poor student performance.

(c) Whenever the Governor declares a state of emergency in a school district in response to a request made under paragraph (a) or (b) of this subsection, the State Board of Education may take one or more of the following actions:

(i) Declare a state of emergency, under which some or all of state funds can be escrowed except as otherwise provided in Section 206, Constitution of 1890, until the board determines corrective actions are being taken or the deficiencies have been removed, or that the needs of students warrant the release of funds. The funds may be released from escrow for any program which the board determines to have been restored to standard even though the state of emergency may not as yet be terminated for the district as a whole;

(ii) Override any decision of the local school board or superintendent of education, or both, concerning the management and operation of the school district, or initiate and make decisions concerning the management and operation of the school district;

(iii) Assign an interim conservator, or in its discretion, contract with a private entity with experience in the academic, finance and other operational functions of schools and school districts, who will have those powers and duties prescribed in subsection (15) of this section;

(iv) Grant transfers to students who attend this school district so that they may attend other accredited schools or districts in a manner that is not in violation of state or federal law;

(v) For states of emergency declared under paragraph (a) only, if the accreditation deficiencies are related to the fact that the school district is too small, with too few resources, to meet the required standards and if another school district is willing to accept those students, abolish that district and assign that territory to another school district or districts. If the school district has proposed a voluntary consolidation with another school district or districts, then if the State Board of Education finds that it is in the best interest of the pupils of the district for the consolidation to proceed, the voluntary consolidation shall have priority over any such assignment of territory by the State Board of Education;

(vi) For states of emergency declared under paragraph (b) only, reduce local supplements paid to school district employees, including, but not limited to, instructional personnel, assistant teachers and extracurricular activities personnel, if the district's impairment is related to a lack of financial resources, but only to an extent that will result in the salaries being comparable to districts similarly situated, as determined by the State Board of Education;

(vii) For states of emergency declared under paragraph (b) only, the State Board of Education may take any action as prescribed in Section 37-17-13.

(d) At the time that satisfactory corrective action has been taken in a school district in which a state of emergency has been declared, the State Board of Education may request the Governor to declare that the state of emergency no longer exists in the district.

(e) The parent or legal guardian of a school-age child who is enrolled in a school district whose accreditation has been withdrawn by the Commission on School Accreditation and without approval of that school district may file a petition in writing to a school district accredited by the Commission on School Accreditation for a legal transfer. The school district accredited by the Commission on School Accreditation may grant the transfer according to the procedures of Section 37-15-31(1)(b). In the event the accreditation of the student's home district is restored after a transfer has been approved, the student may continue to attend the transferee school district. The per-pupil amount of the adequate education program allotment, including the collective "add-on program" costs for the student's home school district shall be transferred monthly to the school district accredited by the Commission on School Accreditation that has granted the transfer of the school-age child.

(f) Upon the declaration of a state of emergency for any school district in which the Governor has previously declared a state of emergency, the State Board of Education may either (i) establish a conservatorship or (ii) abolish the school district and administratively consolidate the school district with one or more existing school districts or (iii) reduce the size of the district and administratively consolidate parts of the district, as determined by the State Board of Education; provided, however, that no school district which is not under conservatorship shall be required to accept additional territory over the objection of the district.

(g) There is established a Mississippi Recovery School District within the State Department of Education under the supervision of a deputy superintendent appointed by the State Superintendent of Public Education, who is subject to the approval by the State Board of Education. The Mississippi Recovery School District shall provide leadership and oversight of all school districts that are subject to state conservatorship, as defined in Chapters 17 and 18, Title 37, Mississippi Code of 1972, and shall have all the authority granted under these two (2) chapters. The Mississippi Department of Education, with the approval of the State Board of Education, shall develop policies for the operation and management of the Mississippi Recovery School District. The deputy state superintendent is responsible for the Mississippi Recovery School District and shall be authorized to oversee the administration of the Mississippi Recovery School District, oversee conservators assigned by the State Board of Education to a local school district, hear appeals from school districts under conservatorship that would normally be filed by students, parents or employees and heard by a local school board, which hearings on appeal shall be conducted in a prompt and timely manner in the school district from which the appeal originated in order to ensure the ability of appellants, other parties and witnesses to appeal without undue burden of travel costs or loss of time from work, and perform other related duties as assigned by the State Superintendent of Public Education. The deputy state superintendent is responsible for the Mississippi Recovery School District and shall determine, based on rigorous professional qualifications set by the State Board of Education, the appropriate individuals to be engaged to be conservators and financial advisors, if applicable, of all school districts subject to state conservatorship. After State Board of Education approval, these individuals shall be deemed independent contractors.

(13) Upon the declaration of a state of emergency in a school district under subsection (12) of this section, the Commission on School Accreditation shall be responsible for public notice at least once a week for at least three (3) consecutive weeks in a newspaper published within the jurisdiction of the school district failing to meet accreditation standards, or if no newspaper is published therein, then in a newspaper having a general circulation therein. The size of the notice shall be no smaller than one-fourth (1/4) of a standard newspaper page and shall be printed in bold print. If a conservator has been appointed for the school district, the notice shall begin as follows: "By authority of Section 37-17-6, Mississippi Code of 1972, as amended, adopted by the Mississippi Legislature during the 1991 Regular Session, this school district (name of school district) is hereby placed under the jurisdiction of the State Department of Education acting through its appointed conservator (name of conservator)."

The notice also shall include, in the discretion of the State Board of Education, any or all details relating to the school district's emergency status, including the declaration of a state of emergency in the school district and a description of the district's impairment deficiencies, conditions of any conservatorship and corrective actions recommended and being taken. Public notices issued under this section shall be subject to Section 13-3-31 and not contrary to other laws regarding newspaper publication.

Upon termination of the state of emergency in a school district, the Commission on School Accreditation shall cause notice to be published in the school district in the same manner provided in this section, to include any or all details relating to the corrective action taken in the school district that resulted in the termination of the state of emergency.

(14) The State Board of Education or the Commission on School Accreditation shall have the authority to require school districts to produce the necessary reports, correspondence, financial statements, and any other documents and information necessary to fulfill the requirements of this section.

Nothing in this section shall be construed to grant any individual, corporation, board or conservator the authority to levy taxes except in accordance with presently existing statutory provisions.

(15)(a) Whenever the Governor declares a state of emergency in a school district in response to a request made under subsection (12) of this section, the State Board of Education, in its discretion, may assign an interim conservator to the school district, or in its discretion, may contract with an appropriate private entity with experience in the academic, finance and other operational functions of schools and school districts, who will be responsible for the administration, management and operation of the school district, including, but not limited to, the following activities:

(i) Approving or disapproving all financial obligations of the district, including, but not limited to, the employment, termination, nonrenewal and reassignment of all licensed and nonlicensed personnel, contractual agreements and purchase orders, and approving or disapproving all claim dockets and the issuance of checks; in approving or disapproving employment contracts of superintendents, assistant superintendents or principals, the interim conservator shall not be required to comply with the time limitations prescribed in Sections 37-9-15 and 37-9-105;

(ii) Supervising the day-to-day activities of the district's staff, including reassigning the duties and responsibilities of personnel in a manner which, in the determination of the conservator, will best suit the needs of the district;

(iii) Reviewing the district's total financial obligations and operations and making recommendations to the district for cost savings, including, but not limited to, reassigning the duties and responsibilities of staff;

(iv) Attending all meetings of the district's school board and administrative staff;

(v) Approving or disapproving all athletic, band and other extracurricular activities and any matters related to those activities;

(vi) Maintaining a detailed account of recommendations made to the district and actions taken in response to those recommendations;

(vii) Reporting periodically to the State Board of Education on the progress or lack of progress being made in the district to improve the district's impairments during the state of emergency; and

(viii) Appointing a parent advisory committee, comprised of parents of students in the school district that may make recommendations to the conservator concerning the administration, management and operation of the school district.

Except when, in the determination of the State Board of Education, the school district's impairment is related to a lack of financial resources, the cost of the salary of the conservator and any other actual and necessary costs related to the conservatorship paid by the State Department of Education shall be reimbursed by the local school district from funds other than adequate education program funds. The department shall submit an itemized statement to the superintendent of the local school district for reimbursement purposes, and any unpaid balance may be withheld from the district's adequate education program funds.

At the time that the Governor, in accordance with the request of the State Board of Education, declares that the state of emergency no longer exists in a school district, the powers and responsibilities of the interim conservator assigned to the district shall cease.

(b) In order to provide loans to school districts under a state of emergency or under conservatorship that have impairments related to a lack of financial resources, the School District Emergency Assistance Fund is created as a special fund in the State Treasury into which monies may be transferred or appropriated by the Legislature from any available public education funds. Funds in the School District Emergency Assistance Fund up to a maximum balance of Three Million Dollars (\$3,000,000.00) annually shall not lapse but shall be available for expenditure in subsequent years subject to approval of the State Board of Education. Any amount in the fund in excess of Three Million Dollars (\$3,000,000.00) at the end of the fiscal year shall lapse into the State General Fund or the Education Enhancement Fund, depending on the source of the fund.

The State Board of Education may loan monies from the School District Emergency Assistance Fund to a school district that is under a state of emergency or under conservatorship, in those amounts, as determined by the board, that are necessary to correct the district's impairments related to a lack of financial resources. The loans shall be evidenced by an agreement between the school district and the State Board of Education and shall be repayable in principal, without necessity of interest, to the School District Emergency Assistance Fund by the school district from any allowable funds that are available. The total amount loaned to the district shall be due and payable within five (5) years after the

impairments related to a lack of financial resources are corrected. If a school district fails to make payments on the loan in accordance with the terms of the agreement between the district and the State Board of Education, the State Department of Education, in accordance with rules and regulations established by the State Board of Education, may withhold that district's adequate education program funds in an amount and manner that will effectuate repayment consistent with the terms of the agreement; the funds withheld by the department shall be deposited into the School District Emergency Assistance Fund.

The State Board of Education shall develop a protocol that will outline the performance standards and requisite time line deemed necessary for extreme emergency measures. If the State Board of Education determines that an extreme emergency exists, simultaneous with the powers exercised in this subsection, it shall take immediate action against all parties responsible for the affected school districts having been determined to be in an extreme emergency. The action shall include, but not be limited to, initiating civil actions to recover funds and criminal actions to account for criminal activity. Any funds recovered by the State Auditor or the State Board of Education from the surety bonds of school officials or from any civil action brought under this subsection shall be applied toward the repayment of any loan made to a school district hereunder.

(16) If a majority of the membership of the school board of any school district resigns from office, the State Board of Education shall be authorized to assign an interim conservator, who shall be responsible for the administration, management and operation of the school district until the time as new board members are selected or the Governor declares a state of emergency in that school district under subsection (12), whichever occurs first. In that case, the State Board of Education, acting through the interim conservator, shall have all powers which were held by the previously existing school board, and may take any action as prescribed in Section 37-17-13 and/or one or more of the actions authorized in this section.

(17)(a) If the Governor declares a state of emergency in a school district, the State Board of Education may take all such action pertaining to that school district as is authorized under subsection (12) or (15) of this section, including the appointment of an interim conservator. The State Board of Education shall also have the authority to issue a written request with documentation to the Governor asking that the office of the superintendent of the school district be subject to recall. If the Governor declares that the office of the superintendent of the school district is subject to recall, the local school board or the county election commission, as the case may be, shall take the following action:

(i) If the office of superintendent is an elected office, in those years in which there is no general election, the name shall be submitted by the State Board of Education to the county election commission, and the county election commission shall submit the question at a special election to the voters eligible to vote for the office of superintendent within the county, and the special election shall be held within sixty (60) days from notification by the State Board of Education. The ballot shall read substantially as follows:

“Shall County Superintendent of Education (here the name of the superintendent shall be inserted) of the (here the title of the school district shall be inserted) be retained in office? Yes No

.....”
If a majority of those voting on the question votes against retaining the superintendent in office, a vacancy shall exist which shall be filled in the manner provided by law; otherwise, the superintendent shall remain in office for the term of that office, and at the expiration of the term shall be eligible for qualification and election to another term or terms.

(ii) If the office of superintendent is an appointive office, the name of the superintendent shall be submitted by the president of the local school board at the next regular meeting of the school board for retention in office or dismissal from office. If a majority of the school board voting on the question vote against retaining the superintendent in office, a vacancy shall exist which shall be filled as provided by law, otherwise the superintendent shall remain in office for the duration of his employment contract.

(b) The State Board of Education may issue a written request with documentation to the Governor asking that the membership of the school board of the school district shall be subject to recall. Whenever the Governor declares that the membership of the school board is subject to recall, the county election commission or the local governing authorities, as the case may be, shall take the following action:

(i) If the members of the local school board are elected to office, in those years in which the specific member's office is not up for election, the name of the school board member shall be submitted by the State Board of Education to the county election commission, and the county election commission at a special election shall submit the question to the voters eligible to vote for the particular member's office within the county or school district, as the case may be, and the special election shall be held within sixty (60) days from notification by the State Board of Education. The ballot shall read substantially as follows:

"Members of the (here the title of the school district shall be inserted) School Board who are not up for election this year are subject to recall because of the school district's failure to meet critical accountability standards as defined in the letter of notification to the Governor from the State Board of Education. Shall the member of the school board representing this area, (here the name of the school board member holding the office shall be inserted), be retained in office? Yes No"

If a majority of those voting on the question vote against retaining the member of the school board in office, a vacancy in that board member's office shall exist, which shall be filled in the manner provided by law; otherwise, the school board member shall remain in office for the term of that office, and at the expiration of the term of office, the member shall be eligible for qualification and election to another term or terms of office. However, if a majority of the school board members are recalled in the special election, the Governor shall authorize the board of supervisors of the county in which the school district is situated to appoint members to fill the offices of the members recalled. The board of supervisors shall make those appointments in the manner provided by law for filling vacancies on the school board, and the appointed members shall serve until the office is filled at the next regular special election or general election.

(ii) If the local school board is an appointed school board, the name of all school board members shall be submitted as a collective board by the president of the municipal or county governing authority, as the case may be, at the next regular meeting of the governing authority for retention in office or dismissal from office. If a majority of the governing authority voting on the question vote against retaining the board in office, a vacancy shall exist in each school board member's office, which shall be filled as provided by law; otherwise, the members of the appointed school board shall remain in office for the duration of their term of appointment, and those members may be reappointed.

(iii) If the local school board is comprised of both elected and appointed members, the elected members shall be subject to recall in the manner provided in subparagraph (i) of this subsection, and the appointed members shall be subject to recall in the manner provided in subparagraph (ii).

(18) Beginning with the school district audits conducted for the 1997-1998 fiscal year, the State Board of Education, acting through the Commission on School Accreditation, shall require each school district to comply with standards established by the State Department of Audit for the verification of fixed assets and the auditing of fixed assets records as a minimum requirement for accreditation.

(19) Before December 1, 1999, the State Board of Education shall recommend a program to the Education Committees of the House of Representatives and the Senate for identifying and rewarding public schools that improve or are high performing. The program shall be described by the board in a written report, which shall include criteria and a process through which improving schools and high-performing schools will be identified and rewarded.

The State Superintendent of Public Education and the State Board of Education also shall develop a comprehensive accountability plan to ensure that local school boards, superintendents, principals and teachers are held accountable for student achievement. A written report on the accountability plan shall be submitted to the Education Committees of both houses of the Legislature before December 1, 1999, with any necessary legislative recommendations.

(20) Before January 1, 2008, the State Board of Education shall evaluate and submit a recommendation to the Education Committees of the House of Representatives and the Senate on inclusion of graduation rate and dropout rate in the school level accountability system.

(21) If a local school district is determined as failing and placed into conservatorship for reasons authorized by the provisions of this section, the conservator appointed to the district shall, within forty-five (45) days after being appointed, present a detailed and structured corrective action plan to move the local school district out of conservatorship status to the local school board and local superintendent of education if they have not been removed by the conservator, or if the board and superintendent have been removed, to the local governing authority of the municipality or county in which the school district under conservatorship is located. A copy of the conservator's corrective action plan shall also be filed with the State Board of Education.
