MS CODE <u>Miss. Code Ann.</u> § 37-17-7. Accreditation of Nonpublic Schools.

Any nonpublic school may, through its governing body, request that the State Board of Education approve such institution. Approval shall be based upon a process promulgated by the State Board of Education; provided, however, that in no event shall the State Board of Education adopt more stringent standards for approval of nonpublic schools than the accreditation standards applied to public schools.

MS CODE <u>Miss. Code Ann.</u> § 37-17-9. Accreditation by Other Agencies.

This chapter shall not be construed to establish the only accrediting agency in the State of Mississippi, and nothing contained herein shall be construed to prevent any nonpublic school association or associations or group or groups from establishing its or their accrediting agency, unrelated to any such accrediting agency for public schools as established by this chapter. Nothing in the chapter shall prevent such nonpublic school accrediting agency or agencies from functioning in such capacity.

MS CODE 37-43-1. Textbooks.

This chapter is intended to furnish a plan for the adoption, purchase, distribution, care and use of free textbooks to be loaned to the pupils in all elementary and high schools of Mississippi. The books herein provided by the State Board of Education, which shall be the State Textbook Procurement Commission, shall be distributed and loaned free of cost to the children of the free public schools of the state and of all other schools located in the state, which maintain educational standards equivalent to the standards established by the State Department of Education for the state schools as outlined in the Nonpublic Schools Accreditation Requirements of the State Board of Education.

Teachers shall permit all pupils in all grades of any public school to carry to their homes for home study, the free textbooks loaned to them, and any other regular textbooks whether they be free textbooks or not. For the purposes of this chapter, the term "board" shall mean the State Board of Education.

Textbook shall be defined as any medium or manual of instruction which contains a systematic presentation of the principles of a subject and which constitutes a major instructional vehicle for that subject.

INTRODUCTION

Any nonpublic school may voluntarily request accreditation. Accreditation of a nonpublic school will be determined by the extent to which the school complies with each of the applicable requirements described in this document.

Some differences exist between public school boards and government agencies that have responsibilities for disbursing public funds and the governing body or policy-making authority of privately funded schools, which may delegate more fiscal freedom to the chief school administrator. Although the accreditation standards for nonpublic school are in many cases identical to the process standards for public schools, nonpublic schools do not participate in the accountability system and school performance model for public schools. Also, some exemptions and interpretations are allowed for special purpose schools serving special populations, church-related schools, and tribal schools. For the purposes of this nonpublic school accreditation process, the following definitions are used.

School: A school is defined as an institution **that exists** for the **purpose of** teaching of school-age children, that consists of a <u>one (1)</u> physical plant <u>located</u> on one <u>(1)</u> school site, whether owned or leased, has one principal administering the educational program for all the grades in the school, includes instructional staff members and students, and is in session each school year.

- Home schools and home schooling programs, including those that are affiliated with an accrediting agency, are specifically excluded from this definition and are not eligible to participate in the State Board of Education (SBE) accreditation process.
- Also excluded from this definition are day care centers, preschool programs {except for special
 preschool programs specifically designed to serve children with disabilities according to the
 Individuals with Disabilities Act (IDEA) and Preschool Grant regulations}, and post-secondary
 programs including adult education or vocational training programs specifically designed to serve an
 adult-age student population.

Nonpublic School: The term nonpublic school includes the following: (a) private schools, (b) church-related and parochial schools parochial and other church-related schools, (c) special purpose schools either privately owned and operated or governed by a public agency other than the State Board of Education (SBE) Mississippi Department of Education, and (d) tribal schools funded by the Bureau of Indian Affairs Education. Nonpublic schools may be operated either as a for profit organization or as a nonprofit, taxexempt corporation.

Special Purpose School: A special purpose school is defined as one that is organized to serve a **special specific** population(s) of students or to provide a special program of instruction for students.

A special purpose school that serves students with disabilities <u>in accordance with IDEA and applicable state</u> <u>statutes and regulations</u> must meet all relevant state and federal requirements for special education programs in accordance with IDEA and applicable state statutes and regulations.

<u>Church-Related School</u>: A church-related school is defined as one that is governed and operated by a denominational, parochial, or other bona fide church organization or religious order.

School Board Local Governing Body: A school board local governing body is defined as a governing or policy-making body in authority over a school entity, governing entity, advisory council, or a combination of such entities, as designated at the school level. (See school board in Glossary, page 40.)

NONPUBLIC SCHOOL ACCREDITATION POLICIES OF THE STATE BOARD OF EDUCATION

Accreditation of nonpublic schools will be determined by the extent to which the school complies with each of the applicable requirements contained in this document. Information concerning each school's compliance with accreditation requirements and standards will be reported to the State Board of Education on an annual basis.

1.0 PARTICIPATION

Any nonpublic school serving school age students may, through its <u>local</u> governing body, request to be accredited by the State Board of Education. Accreditation shall be based on a process promulgated by the State Board of Education.

1.1 Definition of a Nonpublic School

The term *nonpublic school* includes private schools, parochial and other church-related schools, special purpose schools either privately owned and operated or governed by a public agency other than the Mississippi Department of Education, and Indian schools funded by the Bureau of Indian Affairs. Nonpublic schools may be operated either as a for profit organization or as a nonprofit, tax-exempt corporation.

1.2 Exclusions

Home schools and home schooling programs, including those that are affiliated with an approved accrediting agency, are specifically excluded and are not eligible to participate in the State Board of Education accreditation process. Also excluded are day care centers serving children below the age of 6, preschool programs (except those serving children ages 3-5 with disabilities), and adult education programs specifically designed to serve an adult-age population.

1.3 Initial Accreditation

Initial accreditation requires any newly applying school to be fully operational and to substantiate compliance with all accreditation requirements of the State Board of Education. Sufficient data necessary to substantiate compliance with all accreditation standards must be available at the time of the initial accreditation audit. Each nonpublic school voluntarily seeking initial accreditation must have conducted a program of educational services for a period of at least one (1) calendar year prior to the date of proposed State Board of Education accreditation. This one-year requirement is not applicable to educational programs under the jurisdiction of state agencies currently operating accredited school programs.

2.0 ACCREDITATION POLICY

The State Board of Education establishes and implements a process for accountability for nonpublic schools. Nonpublic schools are held accountable for Accreditation Policies and Process Standards and receive an annual accreditation status.

2.0 2.1 ASSIGNMENT OF ACCREDITATION STATUSES Assignment of Accreditation Statuses

Accreditation of a nonpublic school will be determined by the extent to which the school complies with each of the applicable requirements contained in this document. Information concerning the school's compliance with accreditation requirements and standards will be reported to the State Board of Education on an annual basis.

The local governing body and school administration are responsible for ensuring that all data reported to the Mississippi Department of Education are true and accurate as verified by supporting documentation on file in the school. Reporting false information is a violation of the accreditation requirements set forth by the State Board of Education and may result in the downgrading of the school's accreditation status.

After the State Board of Education takes action on accreditation records presented, the school's local governing body and school administration are notified of the status assigned. The decision of the State Board of Education is final unless appealed by the local governing body of the school to the State Board of Education in accordance with the appeal procedures in Policy 6.0 of this document.

2.1 Annual Assignment of Accreditation Statuses

Annual accreditation statuses are assigned in December each school year and are determined by information verified during the previous school year. An assigned accreditation status remains in effect during that school year unless (a) the correction of deficiencies in meeting accreditation standards upgrades a status or (b) a verified report of noncompliance with accreditation requirements and/or standards is of such a nature that special State Board of Education action to downgrade a status is warranted.

2.2 Process Standards

Process (input) standards address accepted educational principles and practices that are believed to promote educational quality. Any verified violation of a process standard is noted on the record of a school at the time of discovery within any school year, but does not affect the current accreditation status of the school. If a noted violation of a process standard has not been corrected by the following school year when accreditation statuses are assigned, the violation is reported to the State Board of Education for appropriate action. The State Board of Education reserves the right to suspend school compliance of any accreditation process standard that is not directly mandated by state or federal law.

2.3 <u>Annual Accreditation Statuses</u>

Accreditation statuses assigned by the State Board of Education are (a) Accredited <u>TEMPORARY</u>, (b) Advised <u>ACCREDITED</u>, (c) Probation <u>ADVISED</u>, (d) <u>Temporary PROBATION</u>, and (e) <u>Withdrawn</u> <u>WITHDRAWN</u>.

TEMPORARY. A TEMPORARY status may be assigned to a satellite school or a school newly established by the local governing body of an accredited nonpublic school/system currently on record with the State Board of Education.

Temporary. A special purpose school that serves students with disabilities may be assigned a **Temporary <u>TEMPORARY</u>** status when (a) the special purpose school is in compliance with IDEA and relevant state regulations and (b) is accredited by the <u>Southern Association of Colleges and Schools</u> <u>AdvancED</u> or by the Joint Commission on Accreditation of Healthcare Organizations (JCAHO).

A Temporary TEMPORARY status will expire twelve (12) months from the date that the Temporary TEMPORARY status was assigned and is not renewable. During the twelve-month period, the school may apply to the State Board of Education for an accreditation status.

Accredited <u>ACCREDITED</u>. A nonpublic school will be assigned an <u>accredited</u> <u>ACCREDITED</u> status when the school is in compliance with each of the applicable accreditation requirements and standards as described in this document.

Advised <u>ADVISED</u>. A nonpublic school will be assigned an <u>Advised <u>ADVISED</u> status the first year that the school fails to comply with all of the requirements as described in this document.</u>

Probation PROBATION. A nonpublic school will be assigned a **Probation PROBATION** status if the school was assigned an Advised ADVISED status the previous school year and the nonpublic school has not taken corrective actions or has not resolved the process standard deficiencies that resulted in the Advised ADVISED status. The nonpublic school will be required to develop a corrective action plan Corrective Action Plan (CAP) to address the deficiencies. (See Accreditation Policy 3.2 2.4.2.)

Temporary. A special purpose-school that serves students with disabilities may be assigned a Temporary status when (a) the special purpose school is in compliance with IDEA and relevant state regulations and (b) is accredited by the Southern Association of Colleges and Schools or by the Joint Commission on Accreditation of Healthcare Organizations (JCAHO). A Temporary status may also be assigned to a satellite school established by the governing body of an accredited nonpublic school currently on record with the State Board of Education.

A Temporary status will expire twelve months from the date that the Temporary status was assigned and is not renewable. During the twelve-month period, the school may apply to the State Board of Education for an accreditation status. <u>(Moved up in order.)</u>

Withdrawn WITHDRAWN. A nonpublic school will be assigned a Withdrawn WITHDRAWN status when the school has been previously assigned a status of Probation PROBATION and the school fails to meet the goals and timelines for resolving identified deficiencies as stated in its approved corrective action plan Corrective Action Plan (CAP).

3.0 2.4 DEFICIENCIES AND CORRECTIVE ACTION Notification of Deficiencies after Assignment of Status

The chief school administrator is informed in writing when information on file in the Mississippi Department of Education indicates that the school may be in violation of accreditation requirements. The school is then School officials are given thirty (30) days from the date of receipt of notification to respond in writing to any deficiency cited provide a written response verifying accuracy or inaccuracy of the notice of possible noncompliance with the standard.

3.1 2.4.1 Correction of Deficiencies

During the thirty-day period, school officials may schedule a conference with appropriate Mississippi Department of Education staff members in order to discuss the deficiencies cited. If the school's written response includes appropriate evidence needed to resolve the deficiencies, these corrections will be made on the records of the school. If insufficient evidence is submitted or if the school verifies that the cited deficiencies do exist, the

school's records will be presented to the State Board of Education for appropriate action. A school found in violation of federal and state regulations regarding special education will be provided specific timeframes for correction of deficiencies. If timelines are not met, the school's records will be presented to the State Board of Education for appropriate action.

3.2 2.4.2 Corrective Action Plans-(CAP)

When a school receives official notification that it has a status of <u>Probation PROBATION</u>, the school is required to file a <u>corrective action plan Corrective Action Plan (CAP)</u> within sixty (60) days. The plan must stipulate what will be done to resolve the deficiency and the timeline required. The plan must be approved by the <u>school board (local governing body or policy making authority)</u> as documented by official minutes or resolutions. As an indication of mutual agreement, the plan must bear the signatures of the chairperson, president, or presiding officer of the <u>local governing body and the chief administrator of the school</u>. The <u>corrective action plan Corrective Action Plan (CAP)</u> must be submitted to:

Office of <u>District</u> Accreditation Mississippi Department of Education Post Office Box 771 Jackson, Mississippi 39205-0771

The State Board of Education will designate Mississippi Department of Education staff to review the plan. After the plan is approved by the MDE, written notice is given to school officials. When corrective action has been implemented to resolve a citation, the school must submit documentary evidence confirming such. Assigned MDE staff may conduct follow-up visits as necessary to verify corrective action and compliance.

The school must provide a written account outlining the progress made toward eliminating each deficiency remaining on record prior to the next annual meeting of the State Board of Education to assign accreditation statuses. Based on the report, the State Board of Education will take appropriate action concerning the school's accreditation status. The final authority for judging the success of the corrective action plan Corrective Action Plan (CAP) is vested in the State Board of Education.

2.5 Resolving Accreditation Controversies

<u>All controversies involving the accreditation statuses of schools are initially heard by a duly authorized representative of the State Board of Education in accordance with Section 37-17-5,</u> <u>Mississippi Code of 1972, as amended, and Policy 6.0.</u>

4.0 2.6 <u>REMOVAL OF ACCREDITATION STATUS</u> Removal of Accreditation Status

Before acting to remove a school's accreditation status, the school will be notified in writing of the option to voluntarily withdraw from the accreditation process without prejudice. **(See Nonpublic School Accreditation Policy 5.0 2.7.)** If school officials choose the option not to withdraw, the appeal procedures in Section 10.0 6.0 of this document will be followed.

The State Board of Education will take action to remove a nonpublic school's accreditation status only when:

- the school fails to submit a corrective action plan Corrective Action Plan (CAP) as required,
- <u>the school fails to meet the goals and timelines for resolving identified deficiencies as</u> <u>stated in its corrective action plan</u> Corrective Action Plan (CAP),

- <u>accumulated violations are of such a serious nature that special State Board of Education</u> <u>action is warranted, or</u>
- <u>an intentional act of reporting false information is confirmed.</u> (Replaced a-d with bullets.)

When the State Board of Education takes action to remove the accreditation status of a nonpublic school, the accredited status will be noted as Withdrawn WITHDRAWN.

When the accreditation status of a nonpublic school is removed for any of the reasons described in this section, the school may not be reconsidered for accreditation until one (1) full school year has passed. Prior to being reconsidered as an accredited nonpublic school, the school will be evaluated by a committee designated by the State Board of Education. If the committee confirms that the school is in compliance with all accreditation requirements and standards, then the reinstatement status of the school will be **Probation PROBATION** for one (1) school year.

5.0-2.7 VOLUNTARILY WITHDRAWING FROM ACCREDITATION PROCESS-Voluntarily Withdrawing from Accreditation Process

A nonpublic school may voluntarily withdraw from the accreditation process at any time without prejudice by submitting a written request signed by the school board chairperson or presiding officer of the local governing body or policy-making authority and the chief school administrator. When a nonpublic school voluntarily withdraws from the accreditation process, all school records are moved to the inactive files and remain on file with the Mississippi Department of Education as a previously State Board of Education accredited nonpublic school.

6.0 2.8 REINSTATEMENT PROCESS Reinstatement Process

A previously State Board of Education accredited nonpublic school whose school records are noted as **Inactive** may request to be reinstated using the same procedures and criteria for initial accreditation. (See Nonpublic School Accreditation Policy <u>8.2.2</u> <u>4.2.2</u>.)

7.0 3.0 ANNUAL REPORTING PROCEDURES

Each nonpublic school voluntarily seeking accreditation from the State Board of Education accreditation is required to submit certain information annually.

The four (4) required annual reports are:

- (1) Annual Application Form,
- (2) Annual Compliance Report,
- (3) Annual Personnel Data Report, and
- (4) Summer School/Extended Year Report.

All data reported to the State Board of Education must be true and accurate. All required data must be submitted within established timelines. Failure to submit required data within established timelines may affect the accreditation status of the school. The chief administrator of the nonpublic school is responsible for ensuring the accuracy and integrity of all data reported to the State Board of Education.

7.1 3.1 Annual Application Process

A nonpublic school voluntarily seeking Accreditation from the State Board of Education must request

annual accreditation by direct application. The official request for State Board of Education accreditation must be signed by the chief school administrator and the chairperson of the local governing board body. Completed applications **must** be received no later than **October 1** of each school year. Any changes or revisions of data on the application form should be reported immediately to the Office of <u>District</u> Accreditation. The application form includes the areas listed below.

7.1.1 Identifying Information

- Name, mailing address, and telephone number(s) of the school;
- Name of the chief school administrator; and
- Name, address, and phone number of the chairperson official designee of the local governing board body.

7.1.2 <u>3.1.2</u> Enrollment Data and Staffing

- Number of students currently enrolled by grade, race, and gender; and
- Number of instructional staff members by grade level and total.
- 7.1.3 3.1.3 Annual Calendar of School
- 7.1.4 <u>3.1.4</u> Participation in Federal/State Funded Programs
- 7.1.5 <u>3.1.5</u> Graduation Data
- 7.1.6 <u>3.1.6</u> Preliminary List of School Staff

7.2 3.2 Annual Compliance Report

Each nonpublic school voluntarily seeking accreditation must complete the Annual Compliance Report. The Annual Compliance Report includes a questionnaire, a report of noncompliance with accreditation standards, and a statement of assurances signed by the chief school administrator. The compliance report must be completed and submitted by **October 1** with the application form.

7.3 3.3 Annual Personnel Data Report

Each accredited nonpublic school is required to complete and submit the personnel data report for each school employee. The personnel data report must be submitted each school year within the timelines established by the Office of Management Information Systems. Specific reporting requirements are outlined in the current edition of the *Mississippi Personnel/Accreditation Data Report Reference Manual*.

7.4 3.4 Summer School/Extended Year Report

Each accredited nonpublic school providing a Summer School and/or Extended Year Program must report those programs to the Mississippi Department of Education. This report is not required for special purpose schools providing twelve-month continuous educational programs.

8.0 4.0 ACCREDITATION MONITORING PROCEDURES

Staff in the Office of **District** Accreditation will continuously monitor nonpublic schools to evaluate and validate compliance with accreditation requirements. Evaluation and monitoring include analysis of data reported, annual compliance reports, and field audits. Documentation that confirms data reported must be on file and available for review if requested. Failure to provide requested documentation necessary to validate data reported may result in the assignment of a **Probation PROBATION** status. Reporting false information is a violation of the requirements set forth by the State Board of Education and may result in the withdrawal of a school's accreditation status. All nonpublic schools voluntarily seeking accreditation are required to provide access to reports, correspondence, records, and any other documents necessary to validate compliance with accreditation requirements and standards. The State Board of Education will

review all available accreditation information to determine the school's compliance with accreditation requirements and then assign the appropriate accreditation status to the school according to Accreditation **Policies 2.0 and Policy** 2.1.

8.1 4.1 Annual Analysis and Validation of Data

The State Board of Education will designate Department of Education staff to review annual reports and direct audit teams, as needed, to validate the information. Upon review of the compliance report and application requesting accreditation, the staff will compare the information with any other data on file within the Mississippi Department of Education, notify the school of any inconsistency in reporting or any apparent deficiency in meeting accreditation requirements, and work with the school to clarify or eliminate said inconsistency or deficiency.

Information submitted by each school will be validated by auditors through in-house procedures and on-site audits. Based upon information received and reviewed, the staff will submit to the State Board of Education in writing the recommended accreditation status for each nonpublic school. The State Board of Education will review the staff recommendations and act on accreditation records, advising each chief school administrator and chairperson of the governing board in writing of the accreditation status assigned the school.

8.2 4.2 Field Audits On-site Evaluations

The State Board of Education will designate staff in the Mississippi Department of Education to conduct field audits of nonpublic schools to determine compliance with accreditation requirements and standards. The results of all on-site audits will be compiled in a report and noted in each school's current accreditation records. If deficiencies are found in meeting accreditation standards or state and federal laws, the chief school administrator is notified in writing and given thirty (30) days from the receipt of notification to provide a written response. The report of findings is filed in the current accreditation records in the Office of District Accreditation.

8.2.1 4.2.1 Scheduled Site Visits

On-site accreditation audits of nonpublic schools will be scheduled on a five-year cycle and will be conducted by a team of trained evaluators under the supervision of a Mississippi Department of Education auditor or other designated staff. The scheduled site visit will be conducted at the expense of the nonpublic school. The nonpublic school will provide travel expenses (meals, mileage, and overnight accommodations) for assigned evaluators. Staff from the Office of Special Education will determine compliance with state and federal special education regulations at no cost to the nonpublic school.

Schools that are accredited by the Southern Association of Colleges and Schools (SACS) will not be required to incur the cost of an additional on-site evaluation conducted by a team of trained peer evaluators. The report of the school's most recent SACS on-site evaluation and the current School Improvement Plan will be utilized in determining compliance with the applicable accreditation standards contained in this document.

8.2.2 4.2.2 Initial Accreditation

The initial accreditation audit of a nonpublic school not previously on record with the Mississippi Department of Education must be conducted by a designated committee before an accreditation status is assigned. The purpose of the initial on-site visit is two-fold: (a) to confirm the information reported on the accreditation request application and (b) to verify

compliance with all accreditation requirements and standards specified in this document.

A newly applying nonpublic school not previously on record with the State Board of Education must be fully operational at the time of the site visit. Each nonpublic school voluntarily seeking initial accreditation must have conducted a program of educational services for a period of at least one (1) calendar year prior to the date of proposed State Board of Education accreditation. (See exemption for state agency schools in Nonpublic School Accreditation Policy 1.3.) Sufficient data necessary to substantiate compliance with all accreditation requirements and standards must be available.

8.2.3 4.2.3 Summer School/Extended Year Audits

A percentage of schools providing summer school and extended year programs may be audited annually to verify information contained in the annual Summer School/Extended Year Report.

8.2.4 4.2.4 Investigative Audit

An investigative evaluation is conducted in response to a formal complaint. All formal complaints made against a school must be submitted to the Office of <u>District</u> Accreditation in writing and bear the signature of the individual(s) filing the complaint. When a written complaint is received that contains allegations of noncompliance with accreditation requirements, MDE staff will contact the school officials and provide assistance to resolve the compliant. If the compliant is not resolved, the school administrator will be notified in writing of the nature of the complaint and informed that the school is subject to an unannounced audit to investigate the allegations. Upon completion of the investigative audit, a written report is sent to the complainant, <u>chief</u> school administrator, and <u>chairperson, president, or presiding officer designee</u> of the <u>local</u> governing body or policy-making authority.

4.2.5 Other State/Federal Program Audits/Evaluations

When audits or evaluations of other state or federal programs reveal verified noncompliance with state or federal program regulations, the incidents of noncompliance are filed with the Office of District Accreditation and placed on the district's Accreditation Record.

8.3 Trained Evaluators

Evaluators must complete an initial training program conducted under the supervision of the Mississippi Department of Education and demonstrate competence in the areas of training. Trained evaluators must also complete designated continuing education programs.

9.0 5.0 COMPLAINTS

All formal complaints made against a nonpublic school must be submitted in writing to the Office of District <u>Accreditation</u> and must bear the signature of the individual(s) registering the complaint. The written complaint must include sufficient details concerning the school's alleged violation of accreditation requirements and standards. If the complaint addresses an area over which the State Board of Education has no authority, the individual filing the complaint will be informed in writing. Procedures for conducting an investigative audit are addressed in Accreditation Policy <u>8.2.4</u> <u>4.2.4</u>.

10.0 <u>6.0</u> HEARING AND APPEAL PROCEDURES

The governing authority of a nonpublic school may request a hearing by filing a written notice for such with the Office of Accreditation within ten (10)-calendar days of receipt of the decision of the State Board of Education. All controversies involving the accreditation of nonpublic schools are initially heard by a duly authorized representative of the State Board of Education before whom a complete record is made.

10.1 6.1 SBE Representative Request for Hearing

Upon receipt of such written request for hearing, the chairperson of the State Board of Education will assign, in writing, a duly authorized representative previously appointed by the State Board of Education to hear such controversy. The local governing body of a nonpublic school may request a hearing by filing a written notice for such with the Office of District Accreditation within ten (10) calendar days of receipt of the decision of the State Board of Education.

10.2 <u>6.2</u> **Notification of Hearing Authorized Representative of the State Board of Education** The authorized representative will set the time, place, and date for a hearing and will notify all parties of the time, place, and date of the hearing by registered or certified mail, return receipt requested. Upon receipt of the written request for hearing from the local governing body, the chairman of the State Board of Education assigns, in writing, a duly authorized representative previously appointed by the State Board of Education to hear the controversy.

10.3 <u>6.3</u> Hearing Procedures

All parties will be afforded an opportunity at the hearing to present matters relevant to the issue or issues involved, and all parties may be represented by counsel at the expense of the party. GRADUATION REQUIREMENTS STANDARD 12

CAREER PATHWAY OPTION SENIORS OF SCHOOL YEAR 2011-2012(and thereafter) (Entering eleventh graders in 2010-2011 and thereafter)

In 2010, Mississippi state policymakers passed legislation to create multiple pathways to a standard diploma. The 2010 legislative actions created a career pathway to a standard diploma, with the goal of improving Mississippi graduation rates and providing students with career and technical training that prepares students for postsecondary credential or certification programs and employable workplace skills. This legislative change created Section 37-16-17, *Mississippi Code of 1972*, as amended, to provide for high school career option programs and career track curricula for students not wishing to pursue a baccalaureate degree.

Enrollment in online and correspondence courses must have prior approval granted by the chief school administrator. No more than one (1) of the minimum required number of units may be earned through completion of an approved correspondence course.
