OFFICE OF CHIEF OF RESEARCH AND DEVELOPMENT Summary of State Board of Education Agenda Items November 10, 2016

OFFICE OF SCHOOL AND DISTRICT ACCOUNTABILITY

04. <u>Information: Report on Mississippi Assessment Program (MAP) achievement gap</u> results by subgroup for each school district [Goals 1, 2, 4, and 6 – MBE Strategic Plan]

<u>Background Information</u>: In accordance with *Every Student Succeeds Act* (ESSA) Section 1111h(1)c PL 95-117, the Division of Research and Development has calculated and produced achievement gap data by subgroup for each school district using the 2016 Mississippi Assessment Program (MAP) results. The achievement gap has been calculated using student achievement at proficient and above for both the state and district level and is disaggregated for the following subgroups:

- All Students
- Major Racial & Ethnic groups
- Students with Disabilities
- Limited English Proficient
- Economically disadvantaged
- Gender

This item references Goals 1, 2, 4, and 6 of the *Mississippi Board of Education* 2016-2020 Strategic Plan.

Information Only

Back-up material attached

Understanding Subgroup Performance

Top Line: Subgroup performance differences are provided to illuminate educational access and opportunity gaps among students in the 144 public school districts in the State of Mississippi.

Tool: Subgroup performance is displayed using a graphical representation of student achievement called a "heat map". The three colors (red, amber, green) provide the reader with an intuitive understanding of the relative performance of a particular subgroup of students in relationship to the state average.

	Minority: African American	Minority: Other	ED	SWD	EL	Male
District	29.9	31.6	6.6	15.0	9.7	6.4
State	28.6	12.1	26.5	24.5	16.4	7.6

Minority Other: combines Hispanic, Asian, Native American and other minority populations ED: Economically disadvantaged SWD: Students with disabilities

EL: English learners

RED: Significantly higher gap than the state average

AMBER: Within five (5) percentage points of the state average gap

GREEN: Below the state average gap by more than five (5) points

Rule of Thumb: Large positive numbers in red suggest very large gaps. **Small** positive or negative (reverse gap¹) numbers in green suggest no real gaps.

1

¹ A reverse gap means the particular subgroup (e.g., students with disabilities) outperformed the referent group. Further, gap analysis is limited in its explanatory power when no referent group is available (e.g., all students are economically disadvantage) or the reference group is very small (i.e., less than 30 students).

Background: The Mississippi Department of Education annually produces reports on the percentage of students meeting or exceeding the "high water mark" (*Proficiency* or *Advanced*) on its statewide assessments. These aggregate data points are provided to reflect how well students are mastering the skills and knowledge necessary to be considered fully proficient and ready for the next grade or course that requires additional, more complex understanding and application. However, performance on the state's assessments is not uniformly distributed among different student characteristics, specifically students from economically disadvantaged households and/or those learning English. The aforementioned student characteristics are well documented in the literature beginning as early as the Coleman Report (Equality of Educational *Opportunity*, 1966) has illuminated the general public of the considerable performance gaps among students. In 2001, the Congress passed P.L. 107-110 (No Child Left Behind) with a particular emphasis in Section 1111 on evaluating the performance of subgroups and holding schools and districts accountable for the identified students making adequate yearly progress. This federal mandate continues in the recent reauthorization of the *Elementary and Secondary* Education Act of 1965 through the passage of P.L. 114-95 (Every Student Succeeds Act). Specifically, Section 1111(b)(2) requires the reporting of the following: (a) each major racial and ethnic group, (b) economically disadvantaged students as compared to students who are not economically disadvantaged, (c) children with disabilities as compared to children without disabilities, (d) English proficiency status, (e) gender, and (f) migrant status. The implied purpose of examining the aforementioned subgroups is to identify and ameliorate performance discrepancies, thus promoting equitable opportunities for all students.

		Proficient		
ELA Subgroup	Total Students	Students	% Prof	% Point Gap
White	116,108	55,146	47.5%	28.6
Minority-African American	129,269	24,438	18.9%	
White	116,108	55,146	47.5%	12.1
Minority-Other	15,797	5,593	35.4%	
Not Economically Disadvantaged	79,877	40,701	51.0%	26.5
Economically Disadvantaged (ED)	181,304	44,479	24.5%	
Students Without Disabilities	231,318	81,933	35.4%	24.5
Students With Disabilities (SWD)	29,863	3,247	10.9%	
Non-English Learners	255,379	84,215	33.0%	16.4
English Learners (EL)	5,795	964	16.6%	
Female	127,829	46,702	36.5%	7.6
Male	133,345	38,475	28.9%	

	Non-Proficient	Proficient		
Math Subgroup	Students	Students	% Prof	% Point Gap
White	116,516	52,653	45.2%	27.8
Minority-African American	130,371	22,725	17.4%	
White	116,516	52,653	45.2%	5.6
Minority-Other	16,000	6,337	39.6%	
Not Economically Disadvantaged	81,195	39,042	48.1%	24.6
Economically Disadvantaged (ED)	181,694	42,674	23.5%	
Students Without Disabilities	232,514	78,340	33.7%	22.6
Students With Disabilities (SWD)	30,375	3,376	11.1%	
Non-English Learners	257,015	80,264	31.2%	6.5
English Learners (EL)	5,868	1,452	24.7%	
Female	128,950	41,632	32.3%	2.4
Male	133,937	40,083	29.9%	

Technical Notes:

Gap analysis compares the percentage of proficient students between subgroups, such as comparing the percentage of proficient white students to the percentage of proficient African American students. The purpose of gap analysis is the show the disparity between the groups being compared. The gap percentage points are calculated by finding the difference between the percentage of proficient students in the groups being compared. (e.g., White 47.5% - African American 21.0% = 26.5 point gap)

Example:

% Proficient of Students With Disabilities = 15.8%

% Proficient of Students Without Disabilities = 46.2%

% Point Gap of Students With Disabilities = 46.2 - 15.8 = 30.4

* n counts less than 10 are suppressed

- target population outperformed the reference population
