Chapter 1 INTRODUCTION

MSIS can be accessed in different ways:

1. Go to the MDE web site, http://www.mdek12.org/, and under Educators tab, Administrators tab or Services tab, click on the MSIS (MS Student Information System). You will be taken to the MSIS web page. Click on the Links section; “MSIS Log-on” under Applications.

On the (MSIS) MS Student Information System web site under Resources, click on MSIS Personnel, then click on MSIS Personnel Training Manual (pdf). This manual has been compiled to assist the Personnel Coordinator and others working on personnel data in securing quality data for the district. Persons in this category may include school principals, alternative school directors, Special Education supervisors, Gifted Education supervisors, Vocational Education supervisors, Title I Coordinators, or any other individual designated to compile personnel records. The Personnel Coordinator will distribute information and respond to problems encountered by those assisting in the data collection task. The responsibility for the quality of the data should be shared with school principals and program area supervisors who are more knowledgeable about the work assignments of staff under their supervision.

If the Personnel Coordinator does not know the solution, contact the individual Program Office at Mississippi Department of Education (MDE) or call the Office Accreditation (601) 359-3764 or OTSS Help Desk at mdeapps@mdek12.org or (601) 359-3487.

Blank General/Schedule Employee Entry Forms, “blank forms”, may be printed from MSIS to capture data on new employees. Detail District Employee Listings may also be provided for each employee who was “rolled” from the previous year and is currently in the MSIS System. If you receive a Detail Listing for an individual no longer employed by the district, write the date of termination and “delete” on it and return it to the Personnel Coordinator or the person responsible for entering the data into MSIS.

Once updated records have been input into MSIS, either individual records or reports relevant to individual schools, program areas, and district office staff should be printed by the Personnel Coordinator for review by individuals who completed the personnel records. Appropriate adjustments should be noted by reviewers and forwarded to the Personnel Coordinator for further update. This process should continue until all parties are satisfied with the integrity of the data to be submitted for the district.

Personnel report data is of vital importance to every school district in the state because it is used to drive the funding formula for the Mississippi Adequate Education Program. Errors in this data can result in improper funding to the district.
Chapter 2 GENERAL DISCUSSION

MSIS INFORMATION PAGE

MS Student Information System (MSIS)

The Mississippi Student Information System (MSIS) was created to comply with the Performance Based Accreditation Model established by the Education Reform Act of 1994. This creation was strengthened by further legislation in 1996. This legislation placed an emphasis on the accurate reporting of student attendance and personnel at the school level. It required that there be no more summary data sent to the State Department of Education. MSIS was created to capture the data necessary to comply with this state legislation as well as federal requirements for reporting.

MSIS provides for the electronic collection and storage of comprehensive detailed data about teachers, administrators, students (PreK to 12), and school board members. MSIS also allows for the electronic transfer of student records from one school district to another, thus offering a unique student tracking system. The purpose of this project is to provide an efficient means in which to:

- Support the Mississippi Department of Education (MDE) performance-based accreditation model
- Support education funding programs
- Provide timely and accurate reporting of education data (schedules, attendance, grades, transportation, discipline, Vocational, and Special Education) to meet state and federal requirements
- Allow for student tracking across the state to determine student mobility trends and to assist in the reduction of the drop-out rate within the state.

**SUMMER ACTIVITIES**
- Districts may submit Initial Student Load Transaction Files (ISL files) to MSIS from June 1st until September 30th. This is only for students who are under the age of 7 by September 1st and do not already have MSIS IDs.
- Districts may submit Summer School Files (SSD files) to MSIS from June 1 until September 30th.
- Districts (Public, Special, & Non-Public) should roll Personnel data from last school year and begin working on Personnel for the new school year. Rolling Personnel also rolls Sped Student Data to the new school year.
- Districts should update District and School Demographics for the new school year and make changes during the school year as needed. School Board Member data should be updated as needed also.
- Make adjustments to Graduates/Completers and Promotions/Non-Promotions on the Update Student Grades screen (Update Promotion tab).
- The post-graduate plans for the students who are prior-year graduates/completers should be entered in MSIS by August 31st using the Post-Graduate Plans screen.

**TYPICAL MONTHLY PROCESS**
- Each school should have MSIS IDs for and ownership of all of their students by the end of the reporting month.
- Send Daily Student Data (DSD) files as needed to change a student’s Special Education status (Y or N) and/or report incidents.
- Create MSD files and run them against the pre-processor to check that student and teacher schedules are matching, school has ownership of the students, etc. prior to sending MSD file to MSIS.
- Personnel should be approved each day that changes are made so the MAEP and Accreditation procedures will run at night for the approved districts.
- Begin submitting Reporting Month (MDT and MSD) files at noon on last school day of reporting month. (If the last day of the month falls on a weekend then file submission begins at noon on the last Friday of the month).
- Once a school has a Success, run Pre-Approved Monthly Attendance Report and all Holding Area reports.
- Check the data on the reports to insure accuracy of submitted data. Keep hard copies of Holding Area reports or save PDF files of Holding Area reports for auditing purposes. Approve school in MSIS if data is correct in Holding Area. Once all schools are approved, approve the district. The deadline for a reporting month is the 10th of the following month.

IN JULY:

- MSIS will be unavailable on July 1st.
  - Build ownership files for new school year.
  - Roll data that needs to be rolled (personnel, etc.).
  - Run procedure to increase Years of Experience by 1 on employees who had 100% District Time previous school year.
  - Changes will be active when system comes back up.

- Business Managers can start submitting financial data on July 2nd.

Note: You can view more information on the Timeline located on the MSIS Information website under Timeline (http://www.mdek12.org/sites/default/files/documents/timeline_district_0.pdf).

If you need help with any of the above information, you will need to submit your request through Footprints at: (https://servicedesk.mde.k12.ms.us/MRcgi/MRentrancePage.pl) or email mdeapps@mdek12.org.
**MSIS SCREEN ELEMENTS**

- **MSIS Container Window**: The window that contains the screens of MSIS. This window will border all screens in MSIS.
- **Title Bar**: Contains options such as Minimize Window, Restore Window/Maximize Window, and Close Window.
- **Menu Bar**: Contains various options and commands.

**MSIS Title Bar**

Each screen in MSIS will have the standard system name of Mississippi Student Information System followed by the name of the screen. The screen name listed on the Title Bar will match the selections on the MSIS Menu Bar.

The following items on the Title Bar are standard Window functions that the User should already be familiar with.

- **Minimize Window** – Click on the button to reduce a window to a button on the taskbar. To restore the window to its previous size and location, click the button on the taskbar.
- **Restore Window** – Click on the button or double-click the title bar to restore a window to its previous size and location.
- **Maximize Window** – Click on the button or double-click the title bar to enlarge an application window to fill the screen.
- **Close Window** – Click on the button or click on File from the menu bar and select Exit to close the current screen. If User is on the Main Screen, he/she will exit MSIS.

**MSIS Menu Bar**

All screens in MSIS are accessed from the menu bar. User will click on a menu bar option, then using the mouse; select an entry from the list of options.

### File

The File option contains selections to allow the User to Save a record, Display a List of Values for a field, Run Reports, Print Screens, and Exit the screen. Currently the Clear Form option and Print Setup options are not used in MSIS.

- **Save**
  
  Allows User to save the changes that have been made to the current record. Click on File from the menu bar and select Save or click on the Save icon button. This option is not enabled for view only screens.

- **Edit/Display List**
  
  Allows User to Display a List of Values for a field. Click on File from the menu bar and select Edit, and then select Display List or click on the Display List icon button. Not all fields will have a list of values to choose from. Some entry fields in MSIS will automatically display the list of values upon entry into the field; other entry fields will display a List of Values if the User double-clicks on the entry field. Others will display the list of values when the User enters an invalid value (a value that is not in the list of values) into the field.

- **Clear Form**
  
  This option is not currently used in MSIS.

- **Run Reports**
  
  Executes the report that the User has requested. Click on File from the menu bar and select Run Report or click on the Run Report icon button.

- **Print**
  
  Allows User to print the current screen to the local printer. Click on File from the

MSIS Toolbar

The MSIS Toolbar is located under the Menu Bar at the top of every screen except the Main Screen. The Run Report icon button only appears on report screens. The icon buttons may be disabled on some of the screens depending on the functionality of the screen and the User’s security access.

- **Save** – saves the changes that have been made to the current record. It is also accessible by clicking on **File** from the menu bar and selecting **Save**. This icon button is not enabled for view only screens.
- **Display List** – allows User to display a list of values for a field. It is also accessible by clicking on **File** from the menu bar and selecting **Display List**. Not all fields have a list of values to choose from. Some entry fields in MSIS will automatically pop-up the list of values upon entry into the field. Some entry fields can be double-clicked on to get the list of values. Others will display the list of values when the User enters an invalid value (a value that is not in the list of values).
- **Print** – prints the current screen to your local printer. It is also accessible by clicking on **File** from the menu bar and selecting **Print**.
- **Enter Execute** – allows User to enter and execute a query. If the screen is not already in Query mode, click on the **Enter Execute** icon button or click on **Query** from the menu bar and select **Enter**. Enter the query criteria. Then click on the **Enter Execute** icon button or click on **Query** from the menu bar and select **Execute**.

ACCESSING MSIS

To logon to MSIS go to the MDE web site, http://www.mdek12.org/, and under Educators tab, Administrators tab or Services tab, click on the MSIS (MS Student Information System). You will be taken to the MSIS web page. Click on the Links section; “MSIS Log-on” under Applications.
The MSIS launch page will come up. If you want to bookmark this page (https://mdeapp2.mdek12.org/forms/frmservlet?config=msis) you can do so. This will allow you to come directly to this page to login to MSIS.

Enter your username, password, and MSIS as the database and then click Connect or press Enter.
PASSWORDS

Always make sure that you close the browser when you leave your computer. Never let the computer remember the password for you. Never put the password on a sticky note on your computer. And NEVER share your password with anyone else.

You can change your password in MSIS at any time. Just go to Security, Change User Password. You can only change the Password for your Login Name.
The Password must be at least 8 characters and not longer than 30 characters. The Password must contain at least one non-alpha character. The new password must be at least two characters different from the old password. Passwords will expire 60 days from the date of a change. Passwords not changed 30 days after date of expiration will be locked. Please contact your MSIS Primary Contact or MSIS Secondary Contact. They will be able to unlock a locked account. Any account will be locked after three failed login attempts and the user will have to contact the MSIS Primary Contact or MSIS Secondary Contact to unlock the account.

The Password Reset Policy is:

- User contacts their district’s MSIS Primary or MSIS Secondary Contacts.

- MSIS Primary or MSIS Secondary Contact should contact the OTSS Help Desk at mdeapps@mdek12.org to reset password by emailing the name and last 4 digits of the user SSN that needs their password reset.

On the Change Password screen, enter your old password, then your new password, reenter the new password and click on OK. You should logout and log back in to be sure the new password works.

MSIS sessions will be logged out after 30 minutes of inactivity.

A session where a “save” hasn’t been executed or a screen change hasn’t occurred is considered an inactive session.

A session where a report is running is NOT considered an inactive session.

If you are entering data but haven’t saved within the last 30 minutes then your session will be considered inactive. You won’t know the session is inactive until you try to save the data, so it is important to save regularly.
All MSIS users have READ ONLY rights to the Maintenance Tables. You can look up Course Codes here and see all the details on a specified Course Code. If you are not sure of the valid values in certain fields, come here and find the table, and check out the valid entries for a field. For example, you can check to see what the valid values are for Weapon Types or Disposition Codes. Look under **MDE Codes** and find the valid values under Weapon Types or Disposition Codes.
VIEWING MAINTENANCE COURSE CODES

This screen can be accessed by going to MAINTENANCE>COURSE CODE.

All Users should have “READ ONLY” rights to the tables under the MAINTENANCE tab on the MSIS MAIN SCREEN. The COURSE CODE table can be found at the MAINTENANCE tab and allows the User to view all of the pertinent information relating to any Course/Work Area Code. The User has the ability to select a school year and view information for a course. Data in the Table that may be useful to the District are Carnegie Units, Grades, Endorsements, Number of Students, Salary, and Minutes. You may query using the Course Code or Name, or you may do a partial query by entering part of the number or name and the wildcard %. After you have selected a code, click on the DETAILS tab and the successive tabs to view the details of the course code.

Any Course Code changes have to be made by the Office of Secondary Education
Chapter 3 DISTRICT/SCHOOL DEMOGRAPHICS

DISTRICT IDENTIFICATION/DEMOGRAPHICS
District Identification Screen

MDE will set up any new districts in the state and then the new district would update their demographic information. The NCES number is updated by MDE. The district should not change that number.
It is very important that the District Demographic information be kept updated. Whenever a Superintendent, address, phone number, MSIS district primary contact or MSIS district secondary contact, grades served by the district, school package, or any other information on these screens changes please update it promptly. **Address labels for districts and superintendents will be run from this data regularly and it is important that it be accurate. The data will also be used to print the Ed Directory that is published each year. It is very important the street address and mailing address both be kept updated.**

**When changing District demographics please make changes under District Demographics and School Demographics School 001.**

Any authorized user of MSIS that has access to the District Demographic screen will be allowed to view the Demographic information for any district in the state.

Grades can only be removed from a district after they have been removed from all schools in the district. Each district must categorize their 7th and 8th grade as either elementary or secondary.
School Identification Screen

This screen will provide district users with the ability to create new schools, update/modify School Identification information for existing schools, and to inactivate schools. The school NCES number is updated by MDE. The district should not change that number. On new schools the NCES number will be zeroes.

**A school cannot be inactivated if it has submitted Month 01 data to MSIS.**

There are several different school types (District Office, Regular, Alternative, Vocational, and Special Ed Non-Public). School 001 is always the District Office.

Use this screen to change a school's name when necessary.
School Demographics Screens

It is very important that the School Demographic information be kept updated. Whenever a Principal, address, phone number, MSIS school contact, grades served by the school, or any other information on these screens changes please update it promptly. Address labels for schools and principals will be run from this data regularly and it is important that it be accurate. The data will also be used to print the Ed Directory that is published each year. It is very important that both the street address and mailing address are kept updated.

This screen provides the user with the ability to update and view School Demographic data for new and existing schools. Any authorized MSIS user that has access to this screen will be allowed to view the Demographic data for any school in the state.

Make sure that your superintendent information is at school number 001 on the School Demographics.
RECONFIGURATION SCHOOL

Your Superintendent needs to send a letter to Accreditation, School Financial Services and OTSS. A copy of the board minutes approving the school reconfiguration.

School Demographics Screens – Grades

Grades cannot be removed from a school if Month 01 enrollment for that grade has been submitted to MSIS.

The instructional minutes on the school demographics must be updated annually to reflect the total class minutes in a school day for each grade. The minutes impact Accreditation and MAEP Calculations as well as SPED LRE.

Business Managers (per MDE School Financial Office) - Please note that this information will impact funding. If you can ensure that the appropriate personnel know to keep this updated, it will help ensure that your calculations are as accurate as possible.

1. To Add a Grade: Always make sure that the grade is highlighted in yellow. The system will come up in the first line. Use your arrow down key to select the grade line. Check the Taught box then use the tab key to add the minutes (Inst, Lunch and/or Recess).

2. To Modify a Grade: Always make sure that the grade is highlighted in yellow. The system will come up in the first line. Use your arrow down key to select the grade line. Then use the tab key to change the minutes (Inst, Lunch and/or Recess).
3. To **Delete** a Grade: Always make sure that the grade is highlighted in yellow. The system will come up in the first line. Use your arrow down key to select the grade line. Before you uncheck the taught/other box change the minutes (Inst, Lunch and/or Recess). Then uncheck the Taught/Other box.

**Per USDE reporting:**

**What changes should result in the LEA or school being closed and a new LEA or school being open?**

ED needs to maintain the history and continuity of schools for longitudinal data studies, trend analysis, and research initiatives. Therefore, closing a school and reopening it as “New” is closely reviewed for the appropriate assignment of NCES IDs.

The lists below present possible reasons for creating a new school or LEA, how it relates to the assignment of a new NCES ID, and reasons that would not warrant assigning a new NCES ID.

A new school or LEA **should be** created (get a new NCES ID assigned) if:

1. The grade span of the school or LEA changed by more than 3 grades, not including pre-kindergarten or kindergarten as grades;
2. The school’s or LEA’s physical location changed and the attendance area changed significantly;
3. Two schools or LEAs of about the same size, or with different grade spans, merge. The two original entities would be closed, and the merged education unit would be reported as a new school or agency.

A new school or LEA **should NOT be** created (should not get a new NCES ID) if:

- The grade span of the school or LEA changed by 3 grades or less, not including pre-kindergarten or kindergarten;
- The school or LEA’s physical location or address changed, but the attendance area did not change significantly;
- A smaller school or LEA merges with a larger entity that provides essentially the same grade span;
- A school just changes charter status or magnet status;
- A school undergoes restructuring under provisions in ESEA;
- The name of a school or LEA changes;
- The state identifier for the school or LEA changes;
A school changes LEAs or the boundary of an LEA changes.
Chapter 4 SCHOOL BOARD MEMBERS

This screen is accessed by going to MODULES>DISTRICT/SCHOOL>BOARD MEMBER PROFILE. Users with the District Personnel role can access the screen.

This data needs to be kept up to date. The Office of Leadership Development uses this data.

Inactive board members should be deleted. To delete someone, select the board member you want to delete and click on the Board Member tab click the delete icon button (red X) to delete the person.
To add a Board Member click on the Board Member tab click the insert icon button (green +) to add the person. Complete all field that are blue.

Mississippi Code 37-7-207 states that:

(1) There is hereby established a county board of education in each county of the State of Mississippi. Said county board of education shall consist of five (5) members, one (1) of which, subject to the further provisions of this chapter and except as is otherwise provided in Section 37-5-1(2), shall be elected by the qualified electors of each board of education district of the county. Except as is otherwise provided in Section 37-5-3, each member so elected shall be a resident and qualified elector of the district from which he is elected.

(2) The county board of education shall apportion the county school district into five (5) single member board of education districts. The county board of education shall place upon its minutes the boundaries determined for the new five (5) board of education districts. The board of education of said county shall thereafter publish the same in some newspaper of general circulation within said county for at least three (3) consecutive weeks and after having given notice of publication and recording the same upon the minutes of the board of education of said county, said new district lines will thereafter be effective. The board of education of said county shall reapportion the board of education districts in accordance with the procedure described herein for the original apportionment of districts as soon as practicable after the results of the 2000 decennial census are published and as soon as practicable after every decennial census thereafter.

(3) In counties where the office of "administrative superintendent" as defined in Section 37-6-3, Mississippi Code of 1972, has been abolished, there shall be no county board of education.
Chapter 5 DISTRICT EVENTS CALENDAR

This screen is accessed by going to MODULES>CALENDAR>DISTRICT EVENTS. Users with the District Personnel role can access the screen. The information on this screen needs to be updated each spring for the next school year. **The screen is defaulting to the old school year until July 1st. The school year in the school year box MUST BE the current school year.** Be sure to select the appropriate school year when updating or viewing the data.

Whenever entering a date in MSIS you must key the complete year including the century. If you key only the last two digits of the year the century defaults to 00.

**The beginning and ending dates of the holidays are important. The beginning date should be the first regular school day that students do not attend school and the ending date should be the date of the last day prior to returning to school.** The holidays entered should be student holidays during the regular school year.

For example:
For Labor Day (Monday); the beginning and ending dates would be Monday (XX/XX/XXXX), but the week of Thanksgiving (Monday thru Friday) would the beginning date is that Monday and the ending date would be that Sunday.
Chapter 6 SCHOOL CALENDAR

The School Calendar shall provide authorized School Users the ability to enter, update, delete, and view the data needed to produce the School Calendar. All School-Level User entries to the Calendar will be displayed in an Olive-Green text. The State-Level and District-Level Calendar entries will filter down to the School Calendar. The School level Users will not be allowed to update or modify the State and District calendar entries. School Level Users will only be allowed to update the School Calendar entries for their assigned Schools. Authorized Users will have the capability to view a School calendar for a selected District or for a selected School within the selected district.

The District and Schools that the User is assigned to will be listed first in the Select District and Select School dialog boxes. All other Districts and Schools will be listed in alphabetical order after the Districts and Schools the User has access to.

Chapter 7 **DISTRICT PAY SCALE**

Each year the Mississippi Department of Education, Office of Technology and Strategic Services (OTSS) collects a salary schedule from each school district. The data is collected using the Mississippi Student Information (MSIS). Salaries entered must reflect the entire amount paid by the district and not just the MAEP salary schedule. Based on the number of years’ experience and type of certificate held, indicate under each appropriate certification heading, the salary for classroom teachers in your district. Please have this information entered in MSIS by the last business day in July. Your District's Personnel person has security rights to the screen and can enter the data by logging on to MSIS and going to MODULES>DISTRICT/SCHOOL>DISTRICT PAY SCALE.

![MSIS Student Information System](image)

Click the District tab, than the District Pay Scale tab and you should see "0" for all your money amounts. The screen is defaulting to the old school year until July 1st. The school year in the school year box MUST BE the current school year or change the school and add the new school year pay scale. You can start typing in your amounts for each year of experience. **You must enter an amount greater than OR equal to the MP Pay Scale amount.**
You must enter an amount greater than the MP Pay Scale amount.

When you are complete, you go to File, save or exit and it will ask you if you want to save your changes.
Chapter 8 STUDENTS TAKING COURSES IN ANOTHER DISTRICT

This screen can be accessed by going to MAINTENANCE> DISTRICT SHARING.

There is now a table in MSIS that indicates which Districts may be sharing facilities such as Vocational Ed Centers, Alternative Schools or Both. The staff in Office of Technology and Strategic Services will maintain the table that indicates which Districts are sharing facilities.

**The district (Sending District) that is sending the students to Teacher District need to send an email to mdeapps@mdek12.org asking to be added to the District Sharing table.**

When facilities are shared, students cross District lines to take courses and in order for MSIS to properly populate the student count on the teacher’s schedule, the Districts must be listed in the table. The Sending District that sends students to the Teacher/Residing District must enter the teacher’s ID from the Sending District on the student’s schedule.
Chapter 9 VIEW CERTIFICATION DATA

This screen can be accessed by going to MODULES> PERSONNEL> VIEW CERTIFICATION.

You cannot view Certification data on anyone who is not employed in a Mississippi public school. To find Certification data on someone who is not currently employed in a public school you will need to use the current system that you have been using for several years (TN3270 TELNET SESSION). This will display anyone who is now or has ever been certified by the State.

This screen will provide authorized users with the capability to locate an employee in MSIS by any combination of last name, first name, and SSN; this will include the capability to search any of these data elements by entering partial data. After locating the employee, you can view the employee's existing Certification Information.

QUERY FOR AN EMPLOYEE - double click on the employee's last name to view Certification data. A certified employee has a Licensure Number.
If more than one Certificate is listed, select a Certificate by using the Up and Down arrow keys or clicking on a Certificate Type to view the Endorsements for that Certificate. If an employee has more than four certificates, use the scroll bar located to the right of Admin Status to view more Certificates. If a Certificate has more than six Endorsements, use the scroll bar located to the right of the Endorsement Description to view more Endorsements. Click on Degrees tab to view degrees held by employee. If the employee has more than five Degrees, use the scroll bar located to the right of the Institution to view more Degrees.
Chapter 10 SUMMER SCHOOL REPORT ENTRY

This screen can be accessed by going to MODULES>DISTRICT/SCHOOL>SUMMER PROGRAM REPORT ENTRY.

The Summer Program Report Entry screen will provide authorized Users the ability to enter Summer Program data for schools and Summer Program employee data.

This screen is used to collect summer school data for Accreditation. It needs to be completed by August 30th. This information has previously been collected on paper. The District Personnel and School Personnel roles will have access to this screen.

ENTERING SUMMER PROGRAM DATA

1. Select a School on the Schools tab by using the up and down arrow keys on the keyboard or performing a query.
2. User is prompted to the Summer Programs tab.
   Note – The School Year defaults to the current school year. When the selected year is not the current school year, the data will be read only.
3. Enter the SSN of the Principal for the Summer Program for the selected School.
4. Enter the Phone Area Code and Phone Number.
5. Click on the down arrow in the Summer Program Type field. Select a Summer Program Type. Each Summer Program Type can only be selected one time per School.
6. **Enter Date Session Begins.** Valid formats include MMDDYYYY and MM/DD/YYYY. Date must be in current School Year. For this screen, the months of July and August are not considered the next school year.

7. **Enter Date Session Ends.** Valid formats include MMDDYYYY and MM/DD/YYYY. Date must be in current School Year. For this screen, the months of July and August are not considered the next school year. Session End Date cannot be earlier than the Session Begin Date.

8. **Total Days in Session** is automatically populated when both the Date Session Begins and Date Session Ends are entered. This field displays the number of business days from the beginning to the end of each session. It does not exclude holidays.

9. **Enter Military Beginning Time.** Valid formats include 8 and 8:30.

10. **Enter Military Ending Time.** Valid formats include 8 and 8:30. (13:00 would be 1:00 PM) Ending Time cannot be earlier than Beginning Time.

11. **Click on the down arrow in the Funding Source field.** Select a **Funding Source for the selected program.** Each Summer Program Type can only have one Funding Source.

12. **Enter Grade Level Served** for the selected program or double-click in the field and a list of active grade levels will be displayed to choose from. A Grade Level cannot be entered more than once for the selected program.

13. **Enter Number of Students Enrolled in the Grade Level** for the selected Program.

14. **To add additional Grade Levels,** use the down arrow key on the keyboard or click on the insert icon button (+) and repeat steps 13 and 14.

15. Save the record by clicking on the **Save icon button** or clicking on **File** from the menu bar and selecting **Save.**

16. **To enter additional Summer Programs for the selected School,** click in the **Date Session Begins field** and then use the down arrow key on the keyboard or click on the insert icon button (+) and repeat steps 6 and 16.

*Note – Cursor must be located somewhere in the Date Session Begins field (as shown) in order to insert a new Summer Program record.*
**ENTERING SUMMER PROGRAM EMPLOYEES**

1. Click on Employees tab.
2. If the screen is blank, then no Employees have been entered for the selected school and year.

3. User must **query for an Employee**. If the query returns multiple Employees (as shown in this example), scroll to select the correct Employee.

4. If query returns only **one Employee**, User can begin entering Schedule information.
5. Once an Employee is **selected** (record is highlighted) **click** in the Course Code field in the Schedules section.
6. **Course Code - Enter a valid Course Code** or double-click in the field to get a list of values to select from.
7. **Courses Title** – default
8. **School** - default
9. **Enter** number of **Hours Per Day** that the course is taught.
10. **Enter** the **number of Students** that are taking the course.
11. **Enter** the **Grade Level Lo** or double-click in the field to get a list of values to select from.
12. **Enter** the **Grade Level Hi** or double-click in the field to get a list of values to select from. Grade Level Hi must not be lower than the Grade Level Lo and must not be higher than the high grade for the selected course.

13. **Click on the down arrow in the Summer Program Type/Funding Source field** and select a Program Type.

14. To enter **additional Course records** on the Schedule, click in the next blank Course Code field and repeat steps 6 through 13. For **more than 3 course code** highlight the last course code field. Press the down arrow key and press ok.

15. Save the record by clicking on the **Save icon button** or clicking on **File** from the menu bar and selecting **Save**.

16. To enter **additional Employees**, repeat steps 3 through 13.
Chapter 11 PERSONNEL TEACHER ABSENCES DATA ENTRY

The absences must be filled out for (full-time/part-time) certified personnel (teachers). A teacher is considered absent only if he or she is not in attendance on a day in the regular school year when the teacher would otherwise be expected to be teaching students in an assigned class. This includes both days taken for sick leave and days taken for personal leave. Do not include administratively approved leave for professional development, field trips or other off-campus activities with students. This screen is populated with the current employees when you roll your employees for the new school year.

MSIS will automatic populate teacher to the teacher absences for data entry when you roll your employees to the new school year.

Go to MODULES=>PERSONNEL=>TEACHER ABSENCES
**SCHOOLS** – Select a **School** on the Schools tab by using the up and down arrow keys on the keyboard or performing a query. Click on the school that the student attends. You will not have the schools option if you only have one active school.
ENTERING TEACHER ABSENCES DATA

1. The system will automatically default to the district number and name that is assigned and the school number and name that you have selected.
   Note – The School Year defaults to the data entered in the current school year.

2. Enter the teacher First name, Last name, SSN. The teachers displayed for the current year are the ones that were marked to roll to the current school year. You will have to insert a record for any missing personnel using their Social Security Number. If you have teachers listed that are not working this school year, you will have to delete them.

3. Enter the total number of days that the teacher was absent for the reporting period. This information should match payroll hours. You will have to enter a maximum of one decimal place (ex. .5, .2, .7). Absences are to be entered based upon the same deadlines as your Monthly Student Data Reporting: Reporting Periods:
   M1 - Official First Day for students to attend class through September 30th.
   M2 - October 1st - October 31st.
   M3 - November 1st - November 30th.
   M4 - December 1st - December 31st.
   M5 - January 1st - January 31st.
   M6 - February 1st - February 28 (February 29 in leap year).
M7 - March 1st - March 31st.
M8 - April 1st - April 30th.
M9 - May 1st to last official day students attend class.
M10 - Summer School

4. To Save the teacher information click on the **Save icon button** or clicking on **File** from the menu bar and selecting **Save**.

5. To enter **additional Employees**, repeat steps 2 through 5. You will have to insert a record for any missing personnel using their Social Security Number.
Chapter 12 COMMUNITY COLLEGE FOR DUAL CREDIT INSTRUCTORS

Directions for Entering a Community College for Dual Credit Instructor

If the Dual Credit course is taught by a teacher employed by the high school, use the teacher information in filling out the local package.

If the community college or other higher education partner is providing the teacher of record, then the following instructions should be followed. The counselor or clerk will use the College, Community College or University code/ssn in place of the Teacher’s identification number on the student’s schedule in the local district package.

Districts will use a code for the educational agency instead of the individual teacher at the college. Again, if the teacher of the dual credit class is employed by the school district, DO NOT use the community college code. Use the teacher identification number.
These are the steps to follow for entering the information for the Community College/University in place of the teacher:

**Step 1:** Enter then Query on the SSN for the Community College/University that is teaching the Dual Credit Course.

**Step 2:** Days Employed will be the total number of school days for the year or course duration. Contract Employee will be DC for Dural Credit.
Step 3: The districts using the SSNs listed should put XX in the reserved field of the schedule for each DC course entered.

Per Office of Technology and Strategic Services, “Failure to put XX in the reserved field will negatively impact your highly qualified teacher information that will be included in the Annual Report Card for each district.”

Step 4: Teacher Salary will be 0 or the amount the schools are paying for the students to take the course.
Chapter 13 SEND PERSONNEL DATA TO MSIS

Several ways:
1. File Submission (schedule) through Student Administration Package (SAP).
2. Roll Schedule/Employee Data in MSIS
3. Manually Enter Schedule/Employee Data in MSIS
Chapter 14 **SUBMISSION**

1. Checks to see if school is active – Automatic failure file stops processing.
2. **DELETE SCHEDULE** information for the SCHOOL submitted by the DISTRICT
3. Checks to see if Employee District Data exists for SSN in current year or exception check.
4. Check valid Term/Semester Code.
5. Check for valid period number.
6. Check for valid Course Code
7. Check for valid Carnegie Unit
8. Check for valid Special Program Code (Funding)

**Exception – if you are sharing a teacher or professional services, MSIS checks to see if the employee exists.**

Chapter 16 SEARCH PERSONNEL
This screen is accessed by going to MODULES>PERSONNEL>SEARCH PERSONNEL.

This screen will provide authorized users with the capability to locate an employee in MSIS by any combination of last name, first name, and SSN; this will include the capability to search any of these data elements by entering partial data and the % wildcard. You can also locate an employee in MSIS within a specific district and major school. After locating the employee, you can view the employee's personnel directory information by clicking the “EMPLOYEE” tab.

PRACTICE - Run a query FROM SEARCH PERSONNEL. You can search for different personnel types (All, Certified, Gifted, Non-Certified, Special Ed, Title I, and Vocational). Select the “ALL” option.

DISTRICT – If a query is done on a district, a list of the schools will be displayed after the valid district number is entered. Select a school or query for a school in the district.

SCHOOL – The school that has been selected will be displayed.

LAST NAME – Enter a last name or a partial last name and the % Wildcard and click on the QUERY ICON at the top of the screen.

FIRST NAME – Enter the employee’s first name or a partial name and the % Wildcard.

After locating an employee or a group of employees, highlight that name and click on Employee tab to view Personnel Directory Information on an employee.

Chapter 17 **DO NOT ROLL/INACTIVE EMPLOYEE/SCEDULE**

When you select GENERAL/SCHEDULE from MODULES>PERSONNEL on the MAIN SCREEN, the system defaults to the first tab, which is “EMPLOYEE”. This screen will provide authorized users the capability to locate an employee in MSIS. You will be able to query on any combination of last name, first name, SSN, race, sex, birth date and years of experience. You may search using some of these data elements by entering partial data and the % Wildcard.
SELECT DISTRICT

After finding a record on the “EMPLOYEE” screen, the “SELECT DISTRICT” tab will be available.

DISTRICT INFO

The user will be prompted to the DISTRICT INFO tab.

STATUS – Defaults to active. To change the status click on the down arrow key and select a value or enter I for inactive. **Inactive only if an employee was added incorrectly or rolled by mistake.**

ROLL EMPLOYEE – Defaults to YES. This is a field that allows the user to indicate that an employee will be returning to the district the next school year. Enter N to change to NO or click on the down arrow key and select a value. This will not allow the user to be in your district.

Save the DISTRICT INFO tab.

Chapter 18 ROLL EMPLOYEE/SCHEDULE

Users with the District Personnel role can only access this screen.

This screen will provide District Users with the ability to create a school’s Employee Schedule and/or District Data for the next school year by rolling the current year’s data. District Data must be rolled for the new school year. Before rolling your District Data, update the employee information to DO NOT ROLL for those employees that will not be returning. The years of experience of an employee with 100% District Time will increase by one when a procedure is run at the beginning of the school year. The districts will be notified when this procedure is run each year. In order for an employee to be rolled, the Employee must be active for the current school year and have a Roll Indicator of Yes. The Roll Indicator is located on the Employee General/Schedule Entry on the District Info tab and is defaulted to Yes when an Employee is assigned to a District.

To access this screen, go to MODULES> DISTRICT/SCHOOL> ROLL EMPLOYEE/SCHEDULE.

PRACTICE

DISTRICTS – The District User will have access to only their District and this screen will default to you district number and name. Click on the SCHOOLS tab.

SCHOOLS – Upon initial entry to this screen, both Roll Schedule and Roll District Data are selected (checked). If Roll Schedule is selected, Roll District is automatically selected. The FROM and TO
school years are indicated on the School Year line. You may roll both the Schedule and the District Data or just the District Data. After selecting a school and the data to be rolled, click on the save icon. The Rolled indicator will be checked. The selected data for the Employees in the selected school(s) is rolled to the next school year. If the District Data and/or the Schedule data to be rolled are the same for all schools in the district, click on the All Schools Select button. If the selections are not the same for all schools, make the selections for one school and save the transaction. The Rolled indicator will be checked for that school. Once a school has been selected and rolled, it cannot be changed.

**UPDATE THE FOLLOWING FIELDS:**

The following fields must be updated for each “Rolled” employee for the new school year.

1. On the District Info tab: Enter Days Employed and District Time
2. On the Schedule tab: Enter Period for each course (*Period number cannot be ZERO*). Press the save button.
3. On the Salary tab: Enter the Teacher and/or Non-Teaching Salary. Press the save button.
4. On the Special Ed tab: Press the tab for those teacher that have a special course code on their schedule. Special Ed Disability and, if there is a grade 52, Total 3 and 4-Year Olds after Month 01 is successful and students are loaded into MSIS.

The District Detail Personnel and District Zero Salary report should be ran before personnel was approved.
When you select GENERAL/SCHEDULE from MODULES>PERSOONEL on the MAIN SCREEN, the system defaults to the first tab, which is “EMPLOYEE”. This screen will provide authorized users the capability to locate an employee in MSIS, or add a new employee. The other tabs will become available as you complete the data on the current tab. The other tabs on this screen are: SELECT DISTRICT, DISTRICT INFO, SCHEDULE, SALARY, and SPECIAL ED (each of these tabs are discussed below). You will be able to query on any combination of last name, first name, SSN, race, sex, birth date and years of experience. You may search using some of these data elements by entering partial data and the % Wildcard.

On all screens in MSIS the user should save any updates/adds made on the current tab before advancing to another tab. On the General/Schedule Employee Entry screen, the updates/adds made on the current tab will automatically be saved if another tab is selected. The only way to leave a tab without saving the updates/adds is to exit the form and select NO so that changes will not be saved.

**PRACTICE** – Entering a query and adding a new employee.
Run the query on yourself. You should get the message "Query caused no records to be retrieved. Reenter", if you are in a test database. Click on OK or press the space bar on the keyboard. The screen cannot be in Query mode to add an employee. If the screen is in Query mode, it will have Enter-Query at the bottom left corner. If the screen is in Query mode, press F4 to cancel the query. Click on OK. Enter yourself as a new employee.

**LAST NAME** – Enter last name
FIRST NAME – Enter first name  
MIDDLE INITIAL – This field is optional. You may enter a middle initial  
SOCIAL SECURITY NUMBER – Enter the Social Security Number. Be sure that the SSN that you enter is correct. The SSN field CANNOT be updated. You must contact the Security Administrator to correct employee Social Security Numbers.  
RACE – Enter race. You may key the first letter of the race and press tab to advance to the next field.  
SPANISH LATIN ORIGIN – Enter Spanish Latin origin. Yes (Y) If of Hispanic/Latino/Spanish origin. No (N) If not of Hispanic/Latino/Spanish origin.  
GENDER – Enter gender. You may enter the first letter of the gender and press tab to advance to the next field.  
DATE OF BIRTH – Enter the date of birth. You must enter the date in the form MMDDYYYY. There is an edit check if employee date of birth is older than 80 years.  
YEARS OF EXPERIENCE – Enter the years of experience. It is VERY IMPORTANT that you check this number for its accuracy. There is an edit check if years of experience is more than 40 years. The years of experience for all employees who had 100% District Time the previous year will be increased by one when MDE runs a procedure at the beginning of the new school year. The amount of funding for teachers is based, in part, on the Years of Experience. If a support staff (Bus driver, clerk) becomes a teacher, years of experience need to change. If a teacher comes in with teaching experience the number of years need to be change to reflect their years of experience.  

Guidelines for Determining the Years of Experience  

Certified Staff - If an employee works in a certified role, report ONLY the total number of years of service in a certified capacity. For instance, if the employee has worked in the role of a teacher, a counselor, or a librarian, and becomes a principal, the years of experience reported for the principal position would include the years of experience in any other certified position. The total for a certified person must not include any years worked in a non-certified position. For example, a person who works five years as a teacher assistant and then begins teaching as a certified instructor would begin that position with zero years’ experience.  

Non-Certified Staff - If an employee works in a non-certified role, report the number of years of service in that or a similar position while working for an educational entity. For instance, an employee worked as a Title I teacher aide for two years and then became an assistant reading instructor. The years of experience for the assistant reading instructor would be reported as two. However, if a bus driver of six years became an assistant reading instructor, the years of experience as an assistant reading instructor would be reported as zero.  

ADDRESS INFORMATION - This information is optional. You may enter the address and phone number.  

Save the record and click on the “SELECT DISTRICT” tab.
After saving or finding a record on the “EMPLOYEE” screen, the “SELECT DISTRICT” tab will be available. When you are at your district entering data, the only district that will be displayed is your own. You must select the school year for which you will be entering data (the year will default to the current school year). If the DISTRICT DATA, SALARY INFO, and SCHEDULE INFO boxes beside a district are already checked then the employee already has information entered for the selected School Year for that district. If no boxes are checked, it indicates that there is currently no data for this employee. You may either enter new data or update the existing data on the employee.
The user will be prompted to the DISTRICT INFO tab. When you click on the DISTRICT INFO tab and the employee is already in another district, you will get a WARNING message “Employee already assigned to district(s) #. Do you want to continue - YES – NO”? If you know that this is the correct employee and they are now in your district, click “YES” and continue. If the employee has been "rolled", the days employed and district time must be entered. If the major school changed, it must be updated.

**PRACTICE** – Enter the appropriate information in each data field.
- **MAJOR SCHOOL** – Enter the three-digit school number where the person is located or double click on the Major School field for a list of schools and select a school.
- **STATUS** – Defaults to active. To change the status click on the down arrow key and select a value or enter I for inactive. Tab to the next field.
- **DAYS EMPLOYED** – Enter the days employed (between 1 and 260). Tab to next field.
- **CONTRACTED DAYS FOR AFTER HOURS** – Enter the days contracted for SPED after hours only (between 1 and 260). Tab to next field.
- **TITLE I BILINGUAL** – Defaults to NO. Enter Y to change to YES or click on the down arrow key and select a value. Tab to the next field.
- **DISTRICT TIME** – Enter a value between 1 and 100. Tab to the next field.
ROLL EMPLOYEE – Defaults to YES. This is a field that allows the user to indicate that an employee will be returning to the district the next school year. Another screen (discussed later) will allow the user to select what portions of the employee’s record to roll. This eliminates the necessity of re-entering much of the employee’s information. In order for the data for an employee to be rolled, the Employee must be active for the current school year and have a Roll Indicator of Yes. Tab to the next field.

USER DEFINED – Optional field. This field can be used to print a select group of teachers. Ex: Master Teacher by entering CERT.

CONTRACT EMPLOYEE – Select SP for Special Education Contract employees paid by your District.

PERS – Select Y for employees that are currently receiving a retirement check from Public Employees Retirement System.

After saving the DISTRICT INFO, click on the SCHEDULE tab.

SCHEDULE

The purpose of the Schedule is to reflect the work assignments of the employee. At a minimum, the first period block must be completed for each staff member. Individuals in non-teaching positions may require only one period block to show the work assignment. Rolled employees will have the prior year’s schedule if that option was selected. The period numbers must be entered and the other data should be checked for accuracy.

PRACTICE – Enter the schedule information from the schedule provided.
TERM/SEMESTER – The default is S1. Double click on the code to pick a different value. The selection here for teachers should match what is on the students’ schedules. The valid entries for this field are:

<table>
<thead>
<tr>
<th>INDICATOR</th>
<th>DESCRIPTION</th>
</tr>
</thead>
<tbody>
<tr>
<td>S1</td>
<td>First Semester</td>
</tr>
<tr>
<td>S2</td>
<td>Second Semester</td>
</tr>
<tr>
<td>T1</td>
<td>First Term</td>
</tr>
<tr>
<td>T2</td>
<td>Second Term</td>
</tr>
<tr>
<td>T3</td>
<td>Third Term</td>
</tr>
<tr>
<td>T4</td>
<td>Fourth Term</td>
</tr>
</tbody>
</table>

S1 should be used when the schedule type is Normal, AB, Modified Version or any other situation where the class meets for the entire 9-month school year. If the course is a semester course that meets for 18 weeks and the students change for the second half of the year, the entries should be S1 for the 1st semester and S2 for the 2nd semester.

For example, a teacher who teaches Algebra I all year and two semester courses, Geometry and Pre-Calculus, would have the following schedule entries:

<table>
<thead>
<tr>
<th>TERM/SEM</th>
<th>PERIOD</th>
<th>COURSE</th>
<th>MINUTES, SCHOOL #, ETC.</th>
</tr>
</thead>
<tbody>
<tr>
<td>S1</td>
<td>1</td>
<td>ALGEBRA I</td>
<td></td>
</tr>
<tr>
<td>S1</td>
<td>2</td>
<td>GEOMETRY</td>
<td></td>
</tr>
<tr>
<td>S2</td>
<td>2</td>
<td>PRE-CALCULUS</td>
<td></td>
</tr>
</tbody>
</table>

T1, T2, T3, and T4 are used primarily with 4 X 4 schedules. A 4 X 4 course that is for the first 18 weeks of the year would use the T1 code and a T3 code for an 18-week course taught the second half of the year. Semester 4 X 4 courses that are for 9 weeks would use T1, T2, T3, and T4 for each of the semesters beginning the year with T1 and ending with T4.

For example, a teacher who teaches English I and English II for 18 weeks each and also has four semester courses, Debate I and II, African-American Literature, and Creative Writing would have the following schedule entries:

<table>
<thead>
<tr>
<th>TERM/SEM</th>
<th>PERIOD</th>
<th>COURSE</th>
<th>MINUTES, SCHOOL #, ETC.</th>
</tr>
</thead>
<tbody>
<tr>
<td>T1</td>
<td>1</td>
<td>ENGLISH I</td>
<td></td>
</tr>
<tr>
<td>T3</td>
<td>1</td>
<td>ENGLISH II</td>
<td></td>
</tr>
<tr>
<td>T1</td>
<td>2</td>
<td>DEBATE I</td>
<td></td>
</tr>
<tr>
<td>T2</td>
<td>2</td>
<td>DEBATE II</td>
<td></td>
</tr>
<tr>
<td>T3</td>
<td>2</td>
<td>AFRICAN-AMERICAN LITERATURE</td>
<td></td>
</tr>
<tr>
<td>T4</td>
<td>2</td>
<td>CREATIVE WRITING</td>
<td></td>
</tr>
</tbody>
</table>

PLEASE NOTE THAT THE T1 – T4 Codes may be used by a district in some other situations. That is O.K. as long as the coding on the student’s schedule and the MSIS teacher’s schedule are the SAME.

PERIOD NUMBER – Enter a period number from 01 to 99. The value here for teachers should match what is on the students' schedules.

COURSE – Enter a valid MDE course code. If an invalid course number is entered, a list of the valid courses will appear. Select a valid code and click O.K. You may query to find a code using a partial name or number and the % Wildcard. The value here for teachers should match what is on the students, schedules.

MINUTES – Enter the number of minutes for the course or work assignment (from 1 to 480).
SCHOOL – Enter a valid three-digit school number for your district where the course is being taught.

LOW GRADE, HIGH GRADE – Enter a valid low and high grade. Valid grades are those served by the school selected.

STUDENTS – This field is skipped by MSIS. The student count will be populated from the student schedules.

The student’s schedule and teacher’s schedule must match on school year, teacher SSN, term/semester code, period number, and course code for the field to be populated.

CARNEGIE UNITS – Enter the appropriate units for the course (double click the field to see a valid list for the Course). You must enter three zero’s for all non-teaching codes and courses that do not earn Carnegie Units.

<table>
<thead>
<tr>

**SCHEDULE TYPE** - The Schedule Type is defaulted from the selected School's Schedule Type. If the Schedule Type for this course is different from the School's Schedule Type, click on the down arrow and select a Schedule Type. Valid schedule types are:

MSIS PERSONNEL TRAINING
Revised 09/2020

SALARY

The Salary screen can only be accessed by a user with the District Personnel role. For this training, we will demonstrate the salary entry for everyone. The salary entered cannot be greater than the highest salary on the course code table for the courses on the schedule.

PRACTICE – Click on the SALARY tab. There are two salary fields, one for teaching and one for non-teaching salary.

TEACHING SALARY - After clicking the salary tab, the cursor will be in the TEACHING SALARY field, if the employee is a teacher. Enter the teacher’s contracted amount for teaching duties.

ANNUAL SALARY – This is a computed field and does not, consequently, allow any data entry. The system will add all non-teaching and teaching salaries and enter the total in the ANNUAL SALARY field.

NON-TEACHING SALARIES - If the employee has a Salary from Non-Teaching Courses (bus driver, coach, etc.), those courses must be on the Schedule for the salary to be entered. All non-teaching codes on an employee’s schedule will appear in this section and a salary must be entered for each before leaving the screen. A salary of zero is acceptable.

SALARY – Enter Salary

NATIONAL CERTIFICATION NUMBER – Enter National Certification Number

ISSUE DATE (MM-DD-YYYY) – The date the certificate was issued (must be greater than today)

EXPIRATION DATE (MM-DD-YYYY) – The date the certificate will expire (must be greater than today)
The Special Ed tab will only be enabled if the Employee's Schedule contains a Course with a Special Program Code of 5 (Special Ed Funding).

**PRACTICE** – Update the first two periods of the schedule that you have just entered with Special Education codes. Highlight the first period block on the schedule. Click on the ERASER icon to clear the period. Enter the Special Education code on the schedule provided. Note that a “5” Special Program code defaults to that field when the Special Education code is entered. Repeat this process for the second period.

SPECIAL ED. – Click on the Special Ed. Tab. You must check at least one Disability. Check all Disabilities that apply to the students taught by the employee. Because the second Special Education course that you entered is after school Homebound, this teacher has more than 100% instructional time. Enter 108% in the INSTRUCTIONAL TIME MORE THAN 100% field. When this field has an entry you must enter an explanation in the LEA COMMENT section.

If a grade 52 has been entered on the schedule, you must enter the number of 3 and 4 year olds and the total enrollment. Since MSIS populates student counts from the student’s schedules, the 3 and 4-year-old count cannot be added until your district has had a successful Month 01 transmission.
Chapter 20 **DISTRICT APPROVAL OF PERSONNEL DATA**

Users with the District Personnel role can access this screen.

The District Personnel Approval screen will allow authorized users to view the level of completion of Employee information that is needed for funding each year. This screen will indicate with a check mark if data exists for the following categories: District Data, Schedule, Salary, and Special Ed. These categories correspond to the General/Schedule Employee Entry screen. Each Employee of the District must have District Data, Schedule and Salary for the current School Year. A Sped Reqd check would mean that data is required on the Special Ed tab on the General/Schedule Employee Entry screen.

This screen allows the District Personnel Administrator to give final approval to the District’s Personnel data before MDE begins processing the information. Once the District has given final approval, MDE’s processing procedures will begin.

To access this screen click on MODULES> PERSONNEL> DISTRICT PERSONNEL APPROVAL. The first screen will default to your district and the current school year. Click on “EMPLOYEE ROSTER”. This screen lists the employees alphabetically, by school. The list indicates if required data has been entered on the following personnel screens: DISTRICT DATA, SCHEDULE,
After data has been entered on all of the required screens, the “DISTRICT PERSONNEL APPROVAL DATE” tab will be enabled. When this tab is selected, the current date will be entered as the Approval Date for the District’s Personnel Data.

After data has been entered on all of the required screens, the “PERSONNEL APPROVAL DATE” tab will be enabled. When this tab is selected, the current date will be entered as the Approval Date for the District’s Personnel Data. The “EMPLOYEE ROSTER” can be printed by clicking on the “TRAFFIC SIGNAL” icon at the top of the “EMPLOYEE ROSTER” screen.

Queries can be run on this screen for individuals by entering the name and/or Social Security Number.

A roster of all employees at an individual school can be viewed on the screen by entering a Query using the school number.

There are several reports that should be ran, see Report section of this manual before/after your personnel is approved.

After an approval date has been entered and new data is subsequently entered on any employee, the date will be removed by the system. You must re-approve the data so that it can be processed again to reflect any updates or changes.

**The MDE Final Approval Date is enter by the Mississippi Department of Education (MDE)**
MSIS will use Adobe Acrobat Reader to preview reports. All MSIS reports will be displayed, printed, and saved in the .pdf (Adobe Acrobat Reader) file format. Once the user generates the report they have the option to view, save, or print the file from Adobe Reader. Your security rights will determine what reports are available for you to run.

**From the REPORTS>DISTRICT tab:**

**COURSE/WORK AREA CODES**

The Course/Work Area Codes Report will list all of the courses and work area codes that are offered by MDE for the school year selected. Any authorized MSIS users that have access to this report can generate it.
From the REPORTS>PERSONNEL DATA tab:

BLANK DATA ENTRY FORM (GENERAL/ SCHEDULE & SPECIAL ED)

This is a blank Personnel form that has all of the data elements necessary for entering a personnel record into MSIS. The District Personnel Coordinator may use the form to collect data for the employees in the district.

GENERAL SCHEDULE LISTING

Employee Listing Report will be generated using the data provided by the District offices. This report is a replication of the Blank General/Schedule Employee Entry Form, but with the data filled in. You must select a school. The report can only be run for one school at a time. If the report generates more than 200 pages you may need to print 100 pages at a time. If an inactive employee is in the file, the employee status on the report will be "Inactive".

DISTRICT ZERO SALARY REPORT

District Zero Salary Report will be generated using the data provided by the District offices. This report prints all employees for the district with a zero salary where applicable. A user with District Personnel rights must run this report.
DETAIL PERSONNEL LISTING

Detail Personnel Listing Report will be generated using the data provided by the District offices. This report is run for the whole district. This report prints all employees for the district with all personnel data and certification data where applicable. You can choose to print the Employee SSN or not and salary or not. If the report generates more than 200 pages you may need to print 100 pages at a time. This report can also be run from Personnel Snap Shot data after personnel is finalized in January by going to REPORTS> PERSONNEL SNAP SHOT> DETAIL PERSONNEL LISTING. A user with District Personnel rights must run this report.

From the REPORTS>TEACHER SCHEDULE tab:

SCHEDULE MATCHING

The Students Matching Teachers Schedule Report prints the MSIS ID and student name for student schedules that match the teachers' schedules on period number, course code, term/semester, teacher SSN, and school year. Non-teaching courses such as Study Hall are not included on this report. It currently only looks at semester 1 data.
SCHEDULE NOT MATCHING

The Students Not Matching Teachers Schedule Report prints the MSIS ID and student name for student schedules that do not match the teachers' schedules on period number, course code, term/semester, teacher SSN, and school year. The period number, course code, and term/semester printed on the report are from the student's schedule. Non-teaching courses such as Study Hall are not included on this report. It currently only looks at semester 1 data.

From the REPORTS>PERSONNEL DATA>MAEP tab:

TU EDIT

The Teacher Unit Edit prints employees with all their personnel information and certificate information where applicable, and messages. Can select to run for All, Selected, Not Selected, Error, or Voc Mismatched, and Program Type of All, Regular, Vocational, SPED, or Gifted. This report can also be run from Personnel Snap Shot data after personnel is finalized in January by going to REPORTS> PERSONNEL SHAP SHOT> MAEP> TU EDIT.
SELECTED MAEP LISTING

The Minimum Program Selected Listing Report prints the employee name, M.P. Class, M.P. Percent, M.P. Salary, all by Program Type. This report can also be run from Personnel Snap Shot data after personnel is finalized in January by going to REPORTS> PERSONNEL SNAP SHOT> MAEP> SELECTED MAEP LISTING.

There are several Accreditation reports in MSIS. In October (after submission of Month 01 data), these reports will be open to the school districts to run error edit checks. The reports allow the district to verify the accuracy of the data, to identify reporting errors and any possible accreditation issues, and to correct any inaccurate data prior to the Personnel Snap Shot, which will be taken in December.

If there are changes on the personnel schedules, the district needs to re-approve their personnel data at the end of the day so the Accreditation procedure will rerun that night and reports can be run the next day.

From the REPORTS>PERSONNEL DATA>ACCREDITATION tab:
ACCREDITATION EDIT

The Accreditation Edit prints for one or all schools. This report will show employee level, school level and district level deficiencies. This report also addresses most standards, including some overloads.

CLASS OVERLOAD

The Class Overload Report prints for one or all schools. This report can be run for one school or all schools in a district. The report addresses enrollment in grades 01-04 (Standard 34.2), enrollment in grades 05-08 (Standard 34.3) and enrollment in grades 05-12 (Standard 34.4).

REQUIRED COURSES

The report can be run for one school or all schools in a district. This report outlines the required 33 units in each high school (Standard 32 and Appendix B).

From the REPORTS>TEACHER ABSENCES>tab:
DETAIL LISTING

Detail Listing Report will be generated using the data provided by the District offices. This report is run for the whole district. This report prints all employees for the district with all their absence data where applicable. The report can be ran for one school at a time or for all the school. If the report generates more than 200 pages you may need to print 100 pages at a time.
