Learning-at-Home and Summer Enrichment Plan

Revised May 4, 2020
Due May 15, 2020
Updated per Executive Order 1476

DISTRICT NAME
Hancock County

Carey M. Wright, Ed.D.
STATE SUPERINTENDENT OF EDUCATION
INTRODUCTION

The Mississippi Department of Education (MDE) is committed to providing essential technical guidance and support mechanisms to assist districts during the time of extended school building closure as a result of COVID-19. The MDE recognizes and appreciates that districts are taking different approaches depending on their local capacity and infrastructure during this building closure. The State Board of Education (SBE) has provided flexibility within existing laws and policies regarding instructional time, graduation requirements, attendance, assessment and accountability.

In accordance with Governor Tate Reeves’ Executive Order 1476, school districts shall operate with essential personnel to offer distance learning or other instructional means necessary for students to achieve completion of grade-level essential instruction for the 2019-2020 academic school year. Additionally, school districts shall submit to the SBE plans for summer learning and enrichment measures necessary to (a) mitigate disruption from the Spring 2020 school closure due to COVID-19 and (b) to enhance learning in preparation for the 2020-21 academic school year. Per Executive Order 1476, summer learning and enrichment measures are to be provided to all students in all schools.

The District Learning-at-Home and Summer Enrichment Plan is designed to ensure districts are taking deliberate and thoughtful actions to facilitate and individualize continued student learning and progress monitoring during closure.

Taking a traditional school environment online is not a simple task – nor is it one that should be attempted without serious consideration of the practicality and risk.

The MDE is not directing districts that they must transition to delivery of all content online, as we recognize that online access and remote support for rural students and students with disabilities will certainly pose equity issues across the state. Districts need to consider how they can help facilitate continued learning within homes across the state – either through online opportunities, by making grade-level instructional packets, Family Guides for Student Success, or other resources available for pick-up at school or various locations within the district, or through a combination of delivery systems.

RESOURCES

The MDE has compiled a variety of resources for districts to use during the extended school building closure, online at https://www.mdek12.org/covid19/districtresources. The materials and tools may be used to provide additional resources to parents or students. This information is only intended to be a general summary of information provided to the public. The MDE does not endorse or promote any commercial products or services. Please make sure that you choose the tool(s), resource(s) or material(s) that are developmentally appropriate and best fit the needs of your students, school, or district.
Resources have been divided into the following categories:

- Internet Services
- Multiple Content Area Resources
- Arts (Dance, Music, Theatre, Visual Arts) Resources
- Career and Technical Education (CTE) Resources
- English Language Arts Resources
- Mathematics Resources
- Science Resources
- Social Studies Resources
- World Language Resources
- Counselor Resources
- English Learner Resources
- Intervention Resources
- Students with Special Needs Resources
- Virtual Learning Resources

DISTRICT LEARNING-AT-HOME AND SUMMER ENRICHMENT PLAN REQUIREMENTS

- Consider individual students’ needs, grade-level expectations, and district capacity.
- Communicate with key stakeholders, including staff, parents, students, and other community partners.
- Submit completed plan, including SECTION 1, to rhood@mdek12.org no later than May 15, 2020.

Select all that apply. Note that Option C is a combination of Options A and B.

- **Option A**: MDE Resources
  - Mississippi Online Course Approval (MOCA) Courses
  - Learning-at-Home Resources for Districts
  - Learning-at-Home Resources for Families
- **Option B**: Individual District Developed/Hosted
  - District-developed online/hybrid content
  - District-selected online/hybrid content
  - District make-and-take packets based on locally selected textbooks/instructional materials
  - Make-and-take packets from another district/vendor (provide brief description):
- **Option C**: Other
  - Combination of Option A and Option B
  - Other (provide brief description):
**SECTION C  Final Course Grade Calculation for 2019-2020 School Year**

Indicate which of the following methods the district is using to calculate student grades, as well as specific grade bands for each method (for example: K-2, K-8, 6-8, 9-12).

**NOTE:** Grading policies are a local school district decision. This information is being collected per Executive Order 1476.

- **Option A:** Third nine-week grades as final grades/completion for the year
  Grade Band:

- **Option B:** Average first, second, and third nine-week grades with fourth nine-week assignments (digital, packets, blended, etc.) grade for End-of-Year Grade
  Grade Band:

- **Option C:** Final exam grade averaged with first, second, and third nine-week report card grades for End-of-Year Final Grade
  Grade Band:

- **Option D:** Credit by Examination” or “Credit by Advancement” through final exam or assignment to measure standards mastery
  Grade Band:

- **Option E:** Pass/Fail course grade
  Grade Band:

  **NOTE:** Districts should exercise caution regarding use of pass/fail grades for graduating seniors, as student eligibility for NCAA athletics may be impacted. More information is available through this NCAA FAQ document.

- **Option F:** Other (provide brief description):

  The elementary schools will average Term 1, Term 2, and Term 3, and enter this grade for Term 4. We recognize that this may yield passing grades for some students who would probably have had failing final averages under normal circumstances. For most of these students, particularly in the lower grades, retention is in the student’s best interest. Principals recognize this fact and are prepared to discuss retention with these parents as needed. It should be noted that most of the state standards were taught prior to the school closure.

  The middle school will enter the highest of the three averages from Term 1, Term 2, and Term 3 for Term 4. Most of the state standards for these grades were also taught prior to the school closure.

  Based upon the Resolutions passed by the School Board at the April 1 meeting, the high school will enter a grade of 100 for all courses for Term 4. It should be noted that 1
Carnegie Unit, Second Semester courses were only 50% complete in regard to required content, while Second Semester courses that earn ½ Carnegie Unit only met one day of class.

Grade Band:

In accordance with Executive Order 1476, describe how the district will provide students with feedback/grades on assignments completed during the extended school building closure and during summer learning and enrichment programs.

During School closure, HCSD teachers will provide feedback via Google Classroom, Zoom, and SchooStatus. Feedback during the summer will be provided by on-line programs such as iReady, MobyMax, Kahn Academy, etc...

### SECTION D Summer Learning and Enrichment

In accordance with Executive Order 1476, please indicate which of the following methods the district is using to offer summer learning, Extended School year (ESY) services, and enrichment to students. Note that ESY is not the same as summer learning.

**Select all that apply. Note that Option C is a combination of Options A and B.**

- [ ] **Option A:** Distance/Virtual/e-Learning/Remote Method(s)
- [ ] **Option B:** Packets/Assignments (portfolio, project-based, etc.)
- [x] **Option C:** Blended (combination of Option A and Method B)
- [ ] **Option D:** Other (provide brief description):

Briefly describe the district’s summer learning, Extended School year (ESY) services, and enrichment programming (frequency, content areas, and duration, including days per week and number of weeks).
Elementary/Middle School students will continue working on ELA and math standards via MobyMax, iReady, iStation, Kahn Academy, or other learning opportunities provided during school closure. High school students will work on ELA and math standards or ACT prep via on-line learning programs such as Kahn Academy and ACT Academy or other learning opportunities provided during school closure. During the summer, feedback will be provided internally through the on-line programs. Print materials will be returned at the beginning of the 2020-2021 school year with teacher feedback provided as needed. Students are encouraged to participate in on-line programs 45 minutes per week in each subject or 90 minutes per week for ACT prep for 4 weeks (June 1 - 26).

Students who are unable to participate in these learning opportunities due to their disability or age will continue to work on appropriate functional skills as determined by their teacher.

SECTION  E  Communication and Participation

In order to effectively serve all students within a district, communication is essential. Please note below how the district has communicated its Learning-at-Home and Summer Enrichment Plan with families.

Select all that apply.

- [ ] Option A: Letters mailed to families
- [ ] Option B: Emails to families
- [X] Option C: Social media posts
- [X] Option D: Text messages to families
- [ ] Option E: Local print media
- [X] Option F: Other (provide brief description):

In addition to the methods listed above, HCSD has communicated to parents regarding distance learning through mass telephone calls as well as a video message from the superintendent posted to district/school websites and various social media platforms. Information regarding Summer Learning and Enrichment programs will be communicated to parents in writing with the student report cards which will be mailed to parents.

Briefly describe how the district will monitor participation by students during the extended building closure and summer enrichment programs.
During school closure, teachers will monitor participation through Google Classroom. During summer learning and enrichment, participation will be monitored using usage data available through each program.

Extended School Year (ESY) IEPs were held between January 15, 2020, and April 15, 2020 (using a variety of modalities after March 16, 2020). Extended School Year began May 15, 2020 and will end on July 28, 2020. Each student, whether placed residentially, privately, or is a student in the Hancock County School District, will receive ESY services according to his/her ESY IEP. Progress monitoring for ESY will be given to the parents at the end of the program.

**SECTION F  Transcripts and Senior Transitions**

District supports for graduating seniors may look different during an extended school building closure. High schools must ensure students have the necessary documents to continue their academic pursuits or transition into the work force.

Briefly describe how the district will ensure students receive transcripts and final grades upon graduation.

Final grades will be mailed to parents on the student report card. Additionally, seniors will complete a transition survey in Google Classroom which asks them to list where their transcripts should be mailed.

**SECTION G  Assurances for Continued Learning for All Students**
In accordance with Executive Order 1476, the school district is offering distance learning or other instructional means necessary for students to achieve completion of grade-level essential instruction for the 2019-2020 academic school year. Additionally, the school district is offering summer learning and enrichment measures necessary to (a) mitigate disruption from the Spring 2020 school closure due to COVID-19 and (b) to enhance learning in preparation for the 2020-21 academic school year.

SECTION H Assurances for Students with Disabilities

It is clear the United States Department of Education (ED) does not want school districts to consider the provision of services to students with disabilities under the Individuals with Disabilities Education Act (IDEA) as a barrier or a reason not to offer educational services to any of their students through distance instruction or otherwise.

In compliance with COVID-19 guidance, the following assurances have been discussed and are included in planning efforts for students with disabilities, including students with 504 plans.

- Assure that services are provided for all students with disabilities, including students with 504 plans, and maintain appropriate documentation to support all efforts;
- Assure that services, materials, assignments, and instruction, are individualized and aligned to student IEP goals;
- Assure that district plans address how progress or lack of progress will be collected and documented in anticipation of considering the need for ESY and/or compensatory services;
- Assure that students with disabilities will not be excluded from participating in courses;
- Comply with all state and federal regulations;
- Ensure educators and administrators collaborate and utilize creative options to meet the individual needs of the students; and
- Consider the impact of the district’s final course grade calculation method selected in Section C as it relates to IEP review and development for each student. The most recent USDOE guidance can be found here.

SECTION I Assurances for English Language Learners
The district is working collaboratively to:

- Provide effective two-way communication with families in a language that they understand.
- Tailor instruction and assessments to students’ English Language proficiency needs in all four language domains (Listening, Speaking, Reading, and Writing).

SECTION J  District Certification of Assurances

By providing a digital signature or typing my name below and submitting this document, I certify that the school district is providing continued learning experiences, including summer learning and enrichment measures, as outlined in this plan.

District Superintendent’s Digital Signature  Alan Dedeaux
District Superintendent’s Name  Alan Dedeaux
Date  May 12, 2020

SECTION K  MDE Approval

5/12/2020  Nathan Oakley (for Carey M. Wright)
Date Received  State Superintendent Acceptance
