DISTRICT

Learning-at-Home and Summer Enrichment Plan

Revised May 4, 2020

Due May 15, 2020

Updated per Executive Order 1476

DISTRICT NAME

Pontotoc County School District

MISSISSIPPI
DEPARTMENT OF
EDUCATION

Carey M. Wright, Ed.D.

STATE SUPERINTENDENT OF EDUCATION

INTRODUCTION

The Mississippi Department of Education (MDE) is committed to providing **essential technical guidance and support mechanisms** to assist districts during the time of extended school building closure as a result of COVID-19. The MDE recognizes and appreciates that districts are taking different approaches depending on their local capacity and infrastructure during this building closure. The State Board of Education (SBE) has provided **flexibility within existing laws and policies** regarding instructional time, graduation requirements, attendance, assessment and accountability.

In accordance with Governor Tate Reeves' **Executive Order 1476**, school districts shall operate with essential personnel to offer distance learning or other instructional means necessary for students to achieve completion of grade-level essential instruction for the 2019-2020 academic school year. Additionally, school districts shall submit to the SBE plans for summer learning and enrichment measures necessary to (a) mitigate disruption from the Spring 2020 school closure due to COVID-19 and (b) to enhance learning in preparation for the 2020-21 academic school year. Per **Executive Order 1476**, summer learning and enrichment measures are to be provided to all students in all schools.

The District Learning-at-Home and Summer Enrichment Plan is designed to ensure districts are taking deliberate and thoughtful actions to facilitate and individualize continued student learning and progress monitoring during closure.

Taking a traditional school environment online is not a simple task – nor is it one that should be attempted without serious consideration of the practicality and risk.

The MDE is not directing districts that they must transition to delivery of all content online, as we recognize that online access and remote support for rural students and students with disabilities will certainly pose equity issues across the state. Districts need to consider how they can help facilitate continued learning within homes across the state – either through online opportunities, by making grade-level instructional packets, Family Guides for Student Success, or other resources available for pick-up at school or various locations within the district, or through a combination of delivery systems.

RESOURCES

The MDE has compiled a variety of resources for districts to use during the extended school building closure, online at <https://www.mdek12.org/covid19/districtresources>. The materials and tools may be used to provide additional resources to parents or students. This information is only intended to be a general summary of information provided to the public. The MDE does not endorse or promote any commercial products or services. Please make sure that you choose the

tool(s), resource(s) or material(s) that are developmentally appropriate and best fit the needs of your students, school, or district.

Resources have been divided into the following categories:

- **Internet Services**
- **Multiple Content Area Resources**
- **Arts (Dance, Music, Theatre, Visual Arts) Resources**
- **Career and Technical Education (CTE) Resources**
- **English Language Arts Resources**
- **Mathematics Resources**
- **Science Resources**
- **Social Studies Resources**
- **World Language Resources**
- **Counselor Resources**
- **English Learner Resources**
- **Intervention Resources**
- **Students with Special Needs Resources**
- **Virtual Learning Resources**

DISTRICT LEARNING-AT-HOME AND SUMMER ENRICHMENT PLAN REQUIREMENTS

SECTION E Communication and Participation

In order to effectively serve all students within a district, communication is essential. Please note below how the district has communicated its Learning-at-Home and Summer Enrichment Plan with families.

Select all that apply.

- Option A:** Letters mailed to families
- Option B:** Emails to families
- Option C:** Social media posts
- Option D:** Text messages to families
- Option E:** Local print media
- Option F:** Other (provide brief description):

-District Facebook

-School Webpages

-Remind messages

- Local New Channel

Briefly describe how the district will monitor participation by students during the extended building closure and summer enrichment programs.

We created 2 Distance Learning Packets that were prepared for 2 parents/guardians to pick up during the extended building closure. Our district identified the percentage of packets that were picked up by parents/guardians.

We will provide another pick up day for the Distance Learning Packets for our Summer Enrichment programs. We will identify the percentage of packets picked up by parents/guardians. We will mail the remaining packets to students. We will also monitor the number of views on the YouTube Teacher-made Instructional Videos. Teachers will continue to reach out to parents and students via email, remind message, phone calls, and google classrooms.

SECTION F Transcripts and Senior Transitions

The District supports graduating seniors may look different during an extended school building closure. High schools must ensure students have the necessary documents to continue their academic pursuits or transition into the workforce.

Briefly describe how the district will ensure students receive transcripts and final grades upon graduation.

The administration and counseling staff are communicating and working with seniors to ensure that they receive needed documents. They have communicated with students electronically and via telephone. We have had drive through pick ups and have electronically sent transcripts, and mailed transcripts. We are also going to send out a google form for them to request anything that they need from our district.

SECTION G Assurances for Continued Learning for All Students

In accordance with [Executive Order 1476](#), the school district is offering distance learning or other instructional means necessary for students to achieve completion of grade-level essential instruction for the 2019-2020 academic school year. Additionally, the school district is offering summer learning and enrichment measures necessary to (a) mitigate disruption from the Spring 2020 school closure due to COVID-19 and (b) to enhance learning in preparation for the 2020-21 academic school year.

SECTION H Assurances for Students with Disabilities

It is clear the United States Department of Education (ED) does not want school districts to consider the provision of services to students with disabilities under the Individuals with Disabilities Education Act (IDEA) as a barrier or a reason not to offer educational services to any of their students through distance instruction or otherwise.

X In compliance with COVID-19 guidance, the following assurances have been discussed and are included in planning efforts for students with disabilities, including students with 504 plans.

- ✓ Assure that services are provided for all students with disabilities, including students with 504 plans, and **maintain appropriate documentation** to support all efforts;
- ✓ Assure that services, materials, assignments, and instruction, are individualized and aligned to student IEP goals;
- ✓ Assure that district plans address how progress or lack of progress will be collected and documented in anticipation of considering the need for ESY and/or compensatory services;
- ✓ Assure that students with disabilities will not be excluded from participating in courses;
- ✓ Comply with all state and federal regulations;
- ✓ Ensure educators and administrators collaborate and utilize creative options to meet the individual needs of the students; and
- ✓ Consider the impact of the district’s final course grade calculation method selected in Section C as it relates to IEP review and development for each student. The most recent USDOE guidance can be found [here](#).

SECTION I	Assurances for English Language Learners
------------------	---

X The district is working collaboratively to:

- ✓ Provide effective two-way communication with families in a language that they understand.
- ✓ Tailor instruction and assessments to students’ English Language proficiency needs in all four language domains (Listening, Speaking, Reading, and Writing).

SECTION J	District Certification of Assurances
