Purchasing and Food Distribution

In 1992, the Mississippi Department of Education and participating local school districts' Child Nutrition Programs initiated a statewide purchasing program. Under this program, bids for food and supplies are issued by the Department. The bids represent the manufacturer's pricing as well as that of institutional distributors and suppliers.

Local schools may order products from the approved bid list at a fixed price for the duration of the contract. The items are delivered by contract distributors on a weekly basis, with the school cost of food and delivery being paid by the school district to the assigned distributor.

The specific items on the list are determined by the Purchasing Management Committee (PMC). This includes quality of product, packaging, pricing, and pre-approved brands based on student acceptability. The PMC has a strong focus on the quality issues involving items and brands which are approved, which includes testing of products with students in a school environment.

Current committee members are listed in this document.

The service is self-funded from fees charged to the local entities. Costs are divided into startup (one-time) costs and operational costs. These are then applied to the number of meals served by the members districts to generate revenue to meet an annual budget approved by the PMC. The one-time startup rate will remain constant for all new members, while operational costs will be adjusted in subsequent years to reflect balance on hand as well as the inclusion of new members.

These are currently in excess of 600 items on the list. These include food, produce, supplies, milk, ice cream, and meats used by participating districts. The cost savings on the initial bid list will more than cover the service fee incurred by the district.

Member districts participating realize cost savings, plus they no longer have to prepare, award, or manage bids for the approved items. The responsibility to transferred to the Department of Education as part of the overall operation.

Pricing & Availability

• HIGH DEMAND and LOW PRODUCTION
  • Covid19 shutdowns + widespread outbreaks at processors.
  • Fuel costs
  • Weather

• FRUIT – Almost all domestic product ships to the retail produce market. Processors are heavily dependent upon nondomestic growers as domestic growers become less and less. California Orange growers are ripping out groves & replacing with nut trees.
• FREIGHT / SHIPPING – Overseas containers have typically cost $1500.00. Many now cost between $6000.00 and $15,000.00.

• TRUCKING – The availability of drivers continues to plague the food distribution industry. Foodservice has the highest turnover of drivers.

• DISCONTINUED BRANDS – The immediate shift of manufacturers to supply the retail market identified food service brands that were repetitive. Consolidation is taking place within the industry.
MAPS ORDERING WEBSITE

• INFORMATION AREA - Frequent this area for up-to-date information about line items in the order guide. In the top right corner of your home page:
July 6, 2021 - Pricing has been entered into the system. It is expected that some items may change throughout the year. Check back weekly for possible updates.

It is imperative that organizations communicate to distributors whether they will be available to receive scheduled food deliveries. Distributor delivery attempts refused by an organization due to closure, without prior notice, may subject the organization to overstocking fees of up to 15% of the value of the refused order.

INCIDENT REPORTS

- Locate form at: [https://www.mdek12.org/OCN/PFD](https://www.mdek12.org/OCN/PFD) in Resources. Also MAPS Information Section
- Submission of an incident report should be timely and complete.
- Take pictures of the container and the issue with the product.
- Report “hidden” hazards and poor quality on an incident report.
- Examine all fresh products thoroughly prior to receipt. Reject poor quality products. A signed invoice is evidence of acceptance, and with the exception of hidden damage, there is little recourse for replacement.
- Email completed incident report and pictures to SWPP@Mdek12.org
- Milk Deliveries – Email burban@mdek12.org immediately if a delivery has not been received. This requires immediate attention and resolution.
OVERTIME REQUESTS

- Located only in MAPS website information section.

- Submission should be timely – within a week of occurrence.

- You will need Hourly Rate and Benefits Rate from your HR.

- The form calculates reimbursement owed.

- You may select the Submit Form button if using Outlook email, otherwise email to SWPP@mdek12.org
