USDA Monitoring

Marianna Chauvin
USDA Monitoring

• USDA will come out to monitoring SA Administrative Reviews or looks over our reviews in one form.

• Districts keep good documentations is the key
Administrative Review

Marianna Chauvin
Administrative Reviews

• We will be sending out the 21/22 Review Schedule shortly
• SA will conduct 65 ARs this school year
  • Mostly Virtual
  • Have a choice of Virtual/In Person Site Meal Observations
• May have both an AR and a Procurement Review
Administrative Reviews (off site assessment)

• Strongly encourage you to complete off-site assessment in MARS by Oct 1 (if you have an early review, we may ask you to complete it sooner)

• If you complete your off-site at least a month prior to your review (meal observation), the SA does have the ability to potentially waive certain sections contained in Resource Management
Procurement Reviews (PR)

• SA will conduct 36 PRs this year
• SA will conduct a webinar to help those with scheduled PRs prepare
Best Practices

• We understand it is a challenge, with labor shortages, delivery issues, not receiving the food products, and substituting.
• Watch colors on trays (don’t be all brown), be aware of menus.
• Fruits and vegetables play a prominent role in school meals by adding color and visual appeal.
• Take your own pictures.
• Plan ahead with district public relations in case something hits the media or social media.

And most important, go to the schools and see what’s going on before complaints hit.
