VII. MDE Updates (Dr. Murphy)

Dr. Murphy updated the Commission on the following from each of the divisions that make up the office of Teaching and Leading:

- The Office of Educator Preparation is engaged in several redesign initiatives, 2 of which are underway include:
  - The Administrative Preparation Taskforce which is working to redesign the administrative preparation in our state
  - An Alternate Route Redesign Taskforce, headed by Dr. Burson, which will strengthen our current pathways for non-traditional candidates. Their first meeting for will take place on Monday, November 5, 2018.

- The Division of Educator Talent Acquisitions and Effectiveness led by Mr. Moss, is engaged in several initiatives which include:
  - Diversifying the teacher pipeline through a partnership with the Council of Chief State School Officers (CCSSO) and their diverse and learner ready teacher initiative. Our state team attended our 2nd conference in Chicago to refine our plan of action and provide a report on our progress towards meeting those goals within that plan. Dr. Murphy reminded the commission members that during the last meeting, Mr. Moss provided information specific to this initiative.
  - The division is also continuing to work with the Teacher Leadership Mentoring Induction and Professional Growth System Pilot that MDE is administrating throughout this year in select districts.
  - Dr. Murphy also reported that the Kellogg Foundation, to support the work that has been done in this division, awarded a $4.1 million-dollar 4-year grant from the Mississippi Hunan Capital Highway Grant to pilot 2 new pathways to Mississippi Educator Licensure. The two Pilot programs are:
    - Mississippi Undergraduate Teacher Residency Licensure Pathway which targets prospective educators who have successfully completed at least 60+ hours of coursework
towards earning a Baccalaureate degree or those currently holding at least an Associate's Degree and a 21 or higher on the ACT. They will be required to enroll in a teacher education preparation program, in the state of Mississippi, with a dual major of Elementary Education/Special Education. These programs will be hosted by the districts that were selected by the Kellogg Foundation which consists of Jackson Public School District, Biloxi School District, Ocean Springs School District and Sunflower County School District. These are target districts for the Kellogg Foundation and MDE is required to work with these districts. Beginning today, the division is working to develop the criteria for a competitive process for institutions that are interested in hosting these residents and preparing them for the licensure pathway. This will be done in partnership with the districts, the MDE and our institutions of Higher Education, and our state with the Educator Preparation Programs. Candidates will be placed in the classroom with highly skilled National Board-Certified Teachers and those individuals the potential candidates are placed with will received a $5000.00 stipend which will be payed forward through the grant. Full tuition is paid through the grant as well. Institutions that are selected will be guaranteed 12 candidates per year. So, there will be about 35 candidates entering the pipeline each year. Information will be sent out outlining the specifics of the program, such as selecting an institution, also the requirements after they have obtained a standard license ad commit to 3 years serving in those target districts that have been selected by the Kellogg Foundation.

- The 2nd pathway is a Performance Based Licensure Pathway for candidates that are currently holding a Special Nonrenewable License that has been approved and the candidate is showing proof of progress and making a positive impact on student learning evidenced by testing (District level and State level test data).

- The Division of Educator Licensure is continuing their efforts to bring about more efficiency and acceptability to those that we serve. The division is in the process of establishing a call center, with full time staff devoted to serving those calling in for assistance as it relates to the licensure process. At present, the staff is working more than dual roles, serving on the phones as well as processing the applications the educators are phoning about, thereby, creating a need for the call center devoted to listening to what the educator’s needs are. We have begun the process of hiring a Director who can assist with hiring individuals who will serve as operators within the department.

- We are also working with the Educator Licensure Management System (ELMS) developer and our state ITS team exploring integrating our call
center with the Electronic Management Licensure System in order to receive updates on your account.

- The Division of Educator Licensure is also working on the educator being able to submit select documents electronically within the next few weeks via the educators ELMS account.
- Educator will also have the capability to view the documents that we have received and print those documents as well as see what documents MDE has sent to the educators.
- We are also working on test alerts to remind educators to renew their license and for any information on any documents pending in their account.
- The Division of Educator Licensure is also giving the educators the options to issue their own certificates. For certain applications, such as the Student Interim licenses, which is initiated by the institutions an online recommendation has been made, the system will confirm that the educator has met all the requirements. An alert will be sent to the candidate to apply to the recommendation and the system will automatically issue the license.

VIII. Discussion and/or approval to modify certain licensure assessment guidelines for Instructional Support and Administrator Licensure and Development (Dr. Cory Murphy)

- Dr. Murphy reiterated to the Commission that the Division of Educator Licensure engages in continuous review of all Educator and Administrator Licensure Guidelines and other related policies, processes, and procedures to ensure that all remain relevant, necessary, and reflect current State and Federal Statutes and State Board policies as appropriate. Mississippi Code Ann. § 37-3-2 (6)(a) references Traditional candidates seeking licensure in Mississippi. Mississippi Code Ann. § 37-3-2 (6)(b) references Non-Traditional candidates seeking licensure in Mississippi. This states that no teacher shall be licensed without attaining the minimum qualifying score as required by the State Board for the Praxis Core Academic Skills for Educators (Praxis Core) assessments of reading, writing, and mathematics or provide documentation of evidence of having achieved a composite score of twenty-one (21) on the ACT or an equivalent score on the SAT assessments to be accepted in lieu of the Praxis Core requirement. In addition, the Division is recommending the removal of the Principles of Learning and Teaching (PLT) assessment as one criterion for obtaining certain Instructional Support or Administrator licenses to ensure consistency across all pathways. What is more, is that all but one of the endorsement areas are issued at the Class AA (Master's Degree) license level or higher at which point candidates would have already proven mastery of basic knowledge and skills.

On a motion by Mary Hill Shular, seconded by Debra Mays-Jackson, the Commission unanimously approved the modifications to certain licensure assessment guidelines for
Instructional Support and Administrator Licensure and Development to go before the Board and put out for APA.
