I've Got to Teach What?

Update on House Bill 999 – Sex-related Education in Mississippi

Christine Philley, M.Ed., CFCS
Mississippi Department of Education
Office of Healthy Schools

● ● ● | **Let's Review....**

Passed in the 2011 Legislation Session,
House Bill 999 requires Mississippi
schools to implement a SRE program.

Signed by Governor Barbour, March 16,
2011

Why do we need a Sex-related education bill?

- Mississippi has the highest rate of teen pregnancies
- In MS there are 65.7 pregnancies for every 1000 young women – age 15-19
- Parenthood is the leading cause of school dropout
- Children of teen mothers face more health and academic challenges than their peers.

HB999-SRE highlights

- By June 30, 2012, every school district had to adopt a policy:
 - Abstinence-only education, or
 - Abstinence-plus education
- By June 30, 2012, school districts had to submit a selected policy and curriculum to the Office of Healthy Schools
- Instruction was to begin in 2012-13 school year.

Health is Academic

HB999-SRE highlights

- Boys and Girls must be separated for instruction
- Requires written notice of inclusion/exclusion
- School nurses responsible for implementation of program
- No effort to teach abortion as a means to prevent birth

HB999-SRE highlights

- “The instruction or program may include a discussion on condoms or contraceptives, but only if that discussion includes a factual presentation of the risks and failure rates of those contraceptives.”
- “In no case shall the instruction or program include any demonstration of how condoms or other contraceptives are applied.” *Excerpt from House Bill 999 lines 71-76*

Districts Reported....

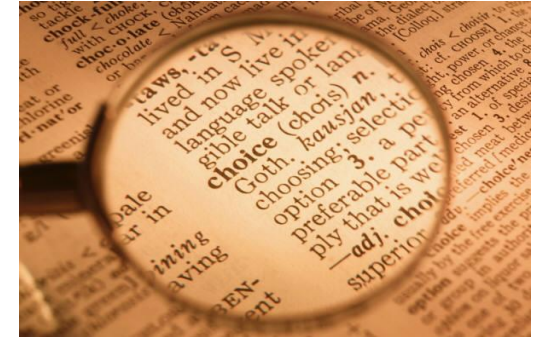

- **84** Districts Decided to teach **Abstinence-Only**
- **75** Districts Decided to teach **Abstinence-Plus**
- Some Districts chose to teach **both**

Curriculum Choices

A curriculum review team reviewed curriculum submitted through a RFP process. Districts were asked to make their curriculum selection from the approved list. This list can be found on the Healthy Schools website under What's New.

● ● ● # of Curriculums Approved

- Abstinence Only - 9
- Abstinence-Plus – 7
- Several Curriculums were approved for both only and plus

● ● ● Only or Plus: What's the difference?

- Abstinence education shall remain the state standard for any SRE taught in MS public schools
- Any SRE includes instruction or program provided at an appropriate age and grade

● ● ● | **Abstinence Only—may include:**

- The teaching of social, psychological and health gains associated with abstinence;
- the teaching of harmful consequences to adolescent sexual activity;
- the teaching of skills to deal with unwanted sexual advances, including the role of alcohol and drug use;
- the teaching of abstinence as the only way to avoid pregnancy, STD and related health problems;
(continued)

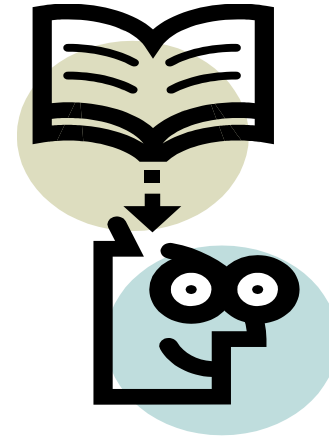

Abstinence Only—may include:

- discussion of condom and contraceptive use along with factual presentation of risks and failure rates;
- the teaching of state law related to sexual conduct; and
- the teaching that a mutually faithful monogamous relationship in context of marriage is the most healthy option.

Abstinence Plus

- MUST include all the components listed above
- Any programmatic curriculum that has been approved
