

MS Code 37-13-171 – Sex-related Education (2011 Legislation HB999)

List of Approved Resources

The sex-related education bill passed by the 2011 MS Legislature and signed by the governor requires that the MDE approve curriculum for district use. The following list is divided into two parts; abstinence only and abstinence plus. **Curricula should be carefully reviewed at the local level as costs, training requirements, presentation style, student activities, and areas of emphasis are varied.**

*Curricula with the *HHS* designation have been identified as effective by the Department of Health and Human Service. Click http://www.hhs.gov/ash/oah/oah-initiatives/teen_pregnancy/db/ for more information.
