SOLE SOURCE PURCHASE

Sole source purchases must be advertised for two weeks to allow other entities to solicit for items if a company can meet the specifications and provide items. Additionally, the following information must be provided to DFA before the sole source purchase will be approved:

- A justification signed by the Superintendent of Education that addresses the following:
  1. A description of the commodity that the agency is seeking to procure.
  2. An explanation of why the commodity is the only one that can meet the needs of the agency.
  3. An explanation of why the source is the only person or entity that can provide the required commodity.
  4. An explanation of why the amount to be expended for the commodity is reasonable.
  5. The efforts that the agency went through to obtain the best possible price for the commodity.
  6. A signed quote and letter from the sole source vendor.

EMERGENCY PURCHASE

- A justification must be signed by the Superintendent of Education that addresses the following:
  1. Certification of the emergency that threatens health, safety and/or property.
  2. What happened to cause the emergency?
Request for Services or Goods Form Guidance.

3. What would be the negative consequences of following normal purchasing procedures?
4. Does it threaten the health or safety of any person, or the preservation or protection of property?
5. The total purchases made shall only be for the purpose of meeting the needs created by the emergency situation.

Following the emergency purchase:

1. Documentation of the purchase, including a description of the commodity purchased,
2. Purchase price thereof and the nature of the emergency shall be filed with the Department of Finance and Administration when submitting the applicable payment request as more particularly prescribed in the DFA MAAPP Manual

• Emergencies Requiring Approval Prior to Purchase (Over $50,000)

If the governing board or the executive head, or his designees, of any agency of the state shall determine that an emergency exists in regard to the purchase of any commodities or repair contracts, so that the delay incident to giving opportunity for competitive bidding would be detrimental to the interests of the state, then the head of such agency, or his designees, shall seek approval of the OPTFM.

The justification should be written for OPTFM in sufficient detail so that a person not familiar with the situation could be expected to understand the need to forego the normal purchasing procedure.
