

The LEA Application rubric is composed of three parts: the LEA Plan Overview, the School Proposal, and the Budget. Points for each item in the three parts are calculated by multiplying the item's weight by the rating of the school's response. Weights for the items on each rubric were determined as follows: 1 for basic information, 2 for state requirements, 3 for federal requirements. The ratings are worth the following: 0 for "does not meet standard," 1 for "partially meets standard," and 3 for "exceeds standards." Therefore, a response to an item with a weight of 3 and a rating of "meets standard" is given 6 points. LEAs must earn 60% of the points available in each of the three parts in order to advance to the interview round.
