Instructional Management System Guidance

As a requirement of the Mississippi Public School Accountability Standards, 2016 (MPSAS), each school district must implement an instructional management system (IMS) unless the district meets the highest levels of performance. This guidance is intended to aid districts in the development and maintenance of an IMS, described below.

The school district meets the following instructional management requirements (Miss. Code Ann. §§ 37-3-49(2)(a-c) and 37-3-49(5)) (7 Miss. Admin. Code Pt. 3, Ch. 41, R. 41.1):

20.1 The school district implements an instructional management system that has been adopted by the school board and includes, at a minimum, the competencies and objectives required in the curriculum frameworks approved by the State Board of Education that are available to all teachers in each school. (Districts Meeting the Highest Levels of Performance are exempted.)

20.2 The instructional management system includes a tiered instructional model in accordance with (7 Miss. Admin. Code Pt. 3, Ch. 41, R. 41.1), including academic interventions, behavioral interventions, and Literacy-Based Promotion Act requirements.

Districts need to determine how to ensure that frameworks and standards remain current and available from year to year to prevent teachers from using previous versions of these documents. Examples of this process are provided below.

- Updated CD-ROMs distributed annually
- Updated hard copies distributed annually
- Updated USB drives distributed annually
- Online access to frameworks and standards *

* NOTE: Teachers must be able to demonstrate availability of documents upon a classroom visit. The MDE does not recommend online access as the only means of distribution due to potential problems with hardware or Internet connectivity.
