Non-US citizens are required to submit appropriate documentation for verification with each licensure application submission, or when their United States Citizenship and Immigration Services documents expire, whichever comes first.

In the meantime, if you have any questions or need any additional information, please do not hesitate to contact the Office of Special Education.

- **Dispute Resolution/Due Process** – The Individuals with Disabilities Education Act (IDEA) provides options for resolving disputes that allow the

- IEP facilitation
- Mediation
- Formal state complaint
- Due process hearings
- Resolution meetings
- Expedited due process hearings in disciplinary situations

Some districts also participate in an Early Learning Collaborative. Children with disabilities are included in these programs as specified in each program’s policy. Other districts participate in the Blended Pre-K program. This program uses IDEA funds to provide inclusive Pre-K classrooms in public schools across the state.

- **Educable Child Program** – Per State Board Policy, Rule 74.1, the Mississippi Department of Education (MDE), Office of Special Education (OSE) is directed to provide oversight through the Individuals with Disabilities Education Act (IDEA) and State Statute in the placement and funding of students with disabilities in private school/facilities.

Code Ann. §§ 37-181-1 through 37-181-21) was signed into law during the 2015 session of the Mississippi Legislature and established Education Scholarship Accounts. For more information visit [https://mcaps.mdek12.org](https://mcaps.mdek12.org).

• **Monitoring** – Monitoring of district compliance and services to students with disabilities is an ongoing activity that may be completed through district self-assessment, district determination data reports, desk audits or on-site visits. Targeted technical support is provided based on individual district needs.

• **New Special Education Director Mentoring Program** – The Office of Special Education (OSE) provides a unique opportunity to all new special education directors across the state. The OSE has Educators in Residence (EIRs) with extensive experience as administrators in the area of special education. EIRs provide technical support to directors with three years or less experience as a director. Each year the OSE offers a New Director Boot Camp specifically designed for new directors which provides an overview of the role/responsibilities of a special education director. The EIR also provides direct technical support to these individuals throughout the school year. For more information about this program, please contact Alice Hunter at ahunter@mdek12.org and/or Cindy Taylor at cctaylor@mdek12.org.

• **Phonics First** – This comprehensive and highly intensive multisensory training course qualifies teachers to bring Orton-Gillingham instruction into their classrooms. Phonics First transforms beginning, struggling, dyslexic and learning-disabled students into skilled learners through its effective, fun, multisensory approach to reading and spelling. The Office of Special Education is providing this training, free of charge, to teachers across the State. Due to COVID-19, we are offering courses online in either a self-paced or live-stream format. For more information on this program, please contact Teresa Laney at tlaney@mdek12.org.

Individuals who may satisfy these requirements include licensed school psychologists, social workers, and counselors. Some teachers with a background in behavioral disorders or emotional disabilities may also qualify. Each district will receive an allocation based on a formula to employ or contract with a Positive Behavior Specialist to
implement these requirements. Each district’s allocation is calculated based on a percentage of the average daily attendance and the December 1 Child Count with a ratio of one specialist per 1,000 students. Districts are encouraged to apply for funds by using the information found at https://mdek12.org/OSE/funding/special-education-positive-behavior-specialist.

It was first awarded to the Mississippi Department of Education in 2005, and refunded in 2010, 2016, and 2021. The grant is operated by the University of Southern Mississippi’s Department of Curriculum, Instruction and Special Education. The grant has three areas of focus: Universal Design for Learning (UDL), Positive Behavior Interventions and Supports (PBIS), and Social Emotional Learning (SEL). The purpose of grant is to increase the academic performance in English/Language Arts of Pre-K – 3 students with disabilities through implementation of UDL and support development and expansion of positive learning environments in Mississippi through effective implementation of PBIS within a MTSS framework. This is accomplished through professional development, training, and ongoing technical assistance provided at no cost to schools and districts across the state. Aligned with other State and Federal initiatives, the SSIP was developed so that resources could be leveraged for maximum impact to improve outcomes for students with disabilities.

- **Section 504** – Section 504 is a federal law designed to protect the rights of individuals with disabilities in programs and activities that receive Federal financial assistance from the U.S. Department of Education (ED). Section 504 provides: "No otherwise qualified individual with a disability in the United States . . . shall, solely by reason of her or his disability, be excluded from the participation in, be denied the benefits of, or be subjected
to discrimination under any program or activity receiving Federal financial assistance"

The Section 504 regulations require a school district to provide a "free appropriate public education" (FAPE) to each qualified student with a disability who is in the school district's jurisdiction, regardless of the nature or severity of the disability. Under Section 504, FAPE consists of the provision of regular or special education and related aids and services designed to meet the student's individual educational needs as adequately as the needs of nondisabled students are met.

SEL skills improve a student’s capacity to engage in academic learning and prepares them to meet the college and career readiness standards (CCRS). They further assist school staff with their respective roles in integrating social emotional learning into daily classroom and school experiences of students.
