**READING**

In kindergarten, your child will learn the alphabet and the basic features of letters and words. He will break down spoken and written words into syllables and letters and identify the sounds each letter makes.

These important skills will enable your child to learn new words and to read and understand simple books and stories. Your child will also learn to write and share information in a variety of ways, including drawing, writing letters and words, listening to others, and speaking aloud. Activities in these areas will include:

- Naming and writing upper and lowercase letters.
- Matching letters to sounds and using other methods to figure out unfamiliar words when reading and writing.
- Learning and using new words.
- Identifying words that rhyme.
- Reading common words such as: the, of, you, are, she, and my.
- Asking and answering questions about a story the teacher reads aloud.
- Identifying characters, setting, and major events in a story.
- Recognizing the person, place, thing, or idea that an illustration shows.
- Participating in discussions by listening and taking turns speaking.
- Using a combination of drawing, speaking, and writing to describe an event, give information about a topic, or share an opinion.
- Taking part in shared reading, writing, and research projects.
- Expressing thoughts, feelings, and ideas clearly.
Your child can ask and answer questions about key details in both fiction and nonfiction texts.

- Ask questions to clarify meaning.
- Visualize key elements within the text.
- Ask and answer questions before, during, and after reading.
- Answer questions about characters, setting, problem, and solution.
- Answer questions such as: who, what, when, where, why, and how.
- Predict what might happen next in the story.

### 5 W’S AND AN H QUESTIONING

<table>
<thead>
<tr>
<th>WHO</th>
<th>Who was there?</th>
</tr>
</thead>
<tbody>
<tr>
<td>WHAT</td>
<td>What happened?</td>
</tr>
<tr>
<td>WHEN</td>
<td>When did it happen?</td>
</tr>
<tr>
<td>WHERE</td>
<td>Where did it happen?</td>
</tr>
<tr>
<td>WHY</td>
<td>Why did it happen?</td>
</tr>
<tr>
<td>HOW</td>
<td>How did it happen?</td>
</tr>
</tbody>
</table>

### HELP AT HOME

- Play “Question Toss.” Ask a question about the text, then toss a ball to your child. He answers the question, then asks a related follow-up question and tosses the ball back to you. Repeat.
- You can also play “Question Toss” using the 5W’s. Write a question for each of the 5W’s and an H question on a ball. Toss the ball to your child and where his thumb lands on the ball, he must answer that question about the story.
- Encourage your child to ask questions while reading.
- After reading, ask your child about the characters, setting, problem and solution.
Your child can retell familiar stories, including key details.

- Identify the major character, setting, problem, and solution in retelling a story.
- Make connections based on prior knowledge.

**VOCABULARY**

**CHARACTERS** are the people or animals that are in the story.

The **SETTING** is where the story takes place.

**HELP AT HOME**

- After reading a story with your child, ask your child to identify the characters, setting, problem, and solution to the problem in the story.
- Read a familiar story to your child. Have him tell you everything he can remember about the story starting from the beginning. Prompt him to remember key details about the story when needed.
- Show a picture to your child and ask him to tell you everything he can about the picture.

Your child can ask and answer questions about unknown words in a text.

- Use picture clues to develop an understanding of the words in the story.
- Know sounds of all letters in the alphabet.
- Use decoding strategies to help figure out unknown words in a text.

**HELP AT HOME**

- When your child gets to an unfamiliar word, have him use the picture clues to help identify the unknown word.
- Have your child use strategies such as rereading the sentence or skipping the unfamiliar word and reading ahead, then rereading the sentence to identify the unknown word.
Your child can recognize common types of texts (e.g., storybooks, poems, songs, informational text).

**HELP AT HOME**

- Read a variety of texts such as simple poems, fairy tales, songs, and fables with your child.

**VOCABULARY**

**FICTION TEXTS** refer to stories about imaginary people, animals, or events.

**NONFICTION TEXTS** refers to text that offers information and offers to teach the reader real information.

Your child can name the author and illustrator of a story and define the role of each in telling the story.

**HELP AT HOME**

- Show your child the cover and/or title page of a familiar book and how to locate the author and illustrator.
- Discuss with your child the difference between the author (who writes the story) and the illustrator (who draws the pictures) of the book.
- Create a mini book or story in which you write (as the author) and your child illustrates.

- Understand the author is the person who writes the story and the illustrator creates the pictures in a book.
- Understand illustrations are the graphics, art, and pictures in a text.
- Use the illustrations to gain a deeper meaning of the text.

- Understand that readers have a purpose for reading.

Your child can describe the relationship between illustrations and the story in which they appear (e.g., what moment in a story an illustration depicts).

- Describe what is pictured in an illustration.
- Understand story elements such as: characters, setting, problem, solution, and events.
- Understand that illustrations help readers understand the story.

**Help at Home**

- Before reading, take a “picture walk” with your child. Show him the illustrations and have him describe what is happening in the pictures. Then read the story to compare.
- Have your child predict what will happen next in the story based on the illustrations.
- While reading with your child, take time to stop on different pages and have your child describe what is happening in the picture.

Your child can compare and contrast the adventures and experiences of characters in familiar stories.

- Compare and contrast two characters in a story.
- Compare and contrast two stories that are similar.

**Help at Home**

- Read a story such as “The Three Little Pigs.” Have your child discuss the pigs and how they are alike and different from the wolf.
- Read two versions of a story, such as the “Gingerbread Boy” and the “Gingerbread Man.” Have your child compare and contrast the two stories, determining how they are alike and different.

---

**Vocabulary**

**COMPARE** refers to how things are the same.

**CONTRAST** refers to how things are different.
Your child can describe how words and phrases (e.g., regular beats, alliteration, rhymes, repeated lines) supply rhythm and meaning in a story, poem, or song.

- Identify rhyme in books and stories.
- Identify repeated lines in a story.

**VOCABULARY**

**ALLITERATION** is when the same letter or sound appears at the beginning of words in a sentence or story (e.g., Sally sells seashells down by the seashore).

**RESOURCES**

![Book Images]

**HELP AT HOME**

- Read a story that has rhyming words such as a Dr. Seuss book. Show your child how the rhyme carries a beat throughout the story.
- Have your child clap to the beat of a rhyming story that you are reading. This will help him feel the beat of the story.
- Read a book that has a repeated rhyme such as *Bear Snores On*. Have your child read the repeated rhyme aloud each time it appears in the book.
Your child can describe the connection between two individuals, events, ideas, or pieces of information in a text.

- Use background knowledge and experiences to identify and discuss personal connections to a text.
- Understand that authors make connections between individuals, events, and/or ideas.

**HELP AT HOME**

- Have your child provide a description of the connection between two individuals or two events.
- Use a double bubble map or Venn diagram to organize your child’s thinking when comparing two pieces of text.

**RESOURCES**

**SAMPLE VENN DIAGRAM**

Using a sheet of notebook paper or construction paper, make a simple Venn diagram for your child to complete after he reads two stories.

---

Your child can identify the front cover, back cover, and title page of a book.

- Identify the parts of a book.
- Demonstrate how to hold a book correctly.
- Understand that books are read left to right, top to bottom.

**HELP AT HOME**

- Demonstrate for your child where the front cover, back cover, and title page are located in a book.
- Each time you read with your child, have him locate the back cover, front cover, and title page. Do this in several different books.
Your child can identify basic similarities in and differences between two texts on the same topic (e.g., in illustrations, descriptions, or procedures).

- Recognize texts with the same topic.
- Discuss objects that are similar and different.

HELP AT HOME

- Begin by comparing and contrasting two objects found around the house. This will get your child started on thinking through comparing and contrasting texts.
- Look at two books on a similar topic. Have your child compare the information given in both books.

VOCABULARY

**DIRECTIONALITY** is the understanding that we read text from left to right across the page and from top to bottom of the page.

HELP AT HOME

- Have your child use a pointer (e.g., popsicle stick, finger puppet) to point to the words in a book starting from the left and moving to the right.
- Place a small mark under each word of the book to help your child remember to point to the words as he says them.

Your child can follow words from left to right, top to bottom, and page by page.

- Understand the directionality of text.
Your child can recognize that spoken words are represented in written language by specific sequences of letters.

- Understand that words are made up of letters in a sequence.

**HELP AT HOME**

- Make letter cards. Using the Fry or Dolch Pre-Primer list of words, have your child use the letter cards to form familiar words.
- Write a word on an index card and have your child make that word using magnetic letters on the refrigerator.

**RESOURCES**

See page 16 for Fry’s Pre-Primer word list.

Your child can understand words are separated by spaces in print.

- Recognize one-to-one correspondence.
- Distinguish between letters, words, and spaces.
- Understand that words are put together to create a sentence.

**HELP AT HOME**

- Using a newspaper or magazine, have your child use a highlighter to highlight the spaces between words.
- When writing, have your child use a popsicle stick to mark the distance after one word before writing the next word.
Your child can recognize and name all upper and lowercase letters of the alphabet.

• Identify and name all letters of the alphabet.

HELP AT HOME

> Write each capital letter and lowercase letter on individual cards. Have your child play “ABC memory,” by trying to find the capital letter and its lowercase match.

F  Y
Y  f

Your child can recognize and produce rhyming words.

• Understand that rhyming words have the same ending sounds.
• Identify word pairs that rhyme.
• Give a rhyming word for any given word.

HELP AT HOME

> Give your child a word, have him respond with a rhyming word.
> Read books that rhyme. Ask your child, “What were the words that rhymed?”

Your child can count, pronounce, blend, and segment syllables in spoken words.

• Understand that words can be divided into parts.

HELP AT HOME

> Count the parts in a word by clapping it out (e.g., trac-tor).
> Give your child the parts of a word, pausing between parts. Then have your child put those parts together verbally to form a word.
Your child can blend and segment onsets and rimes of single-syllable spoken words.

- Make the beginning and ending sound of a word.
- Understand that words can be blended and broken apart.

**VOCABULARY**

The **ONSET** is the initial consonant or consonant cluster of the word, and the **RIME** is the vowel and consonants that follow it. For example, in the word bat, b- is the onset, and -at is the rime.

**HELP AT HOME**

- Using a blend chart, practice producing words that begin with a given blend such as bl, cl, gr, dr, etc.
- Practice words from different word families (e.g., -at, -ing, -op).
- Practice making words that rhyme with a given word (e.g., dog, log, hog, fog).

Your child can isolate and pronounce the initial sound, medial vowel, and final sounds (phonemes) in three-phoneme (consonant-vowel-consonant, or CVC) words. (This does not include CVCs ending with /l/, /r/, or /x/.)

- Pronounce all letter sounds.
- Identify individual sounds within a word.
- Blend sounds together to create words.
- Understand that new words can be made by adding or substituting sound in a given word.

**HELP AT HOME**

- Verbally give your child a word (e.g., dog). Have him move counters, such as pennies or beads, for each sound in the words (3 counters = d-o-g). Then have him change the last sound in the word to a /t/ sound. He can remove the last counter and replace it with a new counter to represent the new sound (d-o-t). Then have your child say the new word. Your child can do this changing the initial sound, medial sound, or final sound in the word.
Your child can add or substitute individual sounds (phonemes) in simple, one-syllable words, to make new words.

- Produce letter sounds.
- Understand that words are made up of individual sounds.
- Identify individual sounds in words.
- Blend sounds together to create words.

**HELP AT HOME**

- Give your child a 3 letter word (CVC word). Have your child change the beginning, middle, or ending sound of the word to create a new word (e.g., Parent: “cat – change the end to a (p)”’; Child: “cap”).
- Using letter cards, place the cards for the word c-a-t on the table. Have your child remove the letter c and replace it with the letter r and say the new word (rat).

Your child can demonstrate basic knowledge of one-to-one letter-sound correspondences by producing the primary or many of the most frequent sounds for each consonant.

- Produce the correct sounds for each letter.

**HELP AT HOME**

- Using flash cards of each letter, have your child give the sound for each letter.
- Play “ABC Memory.” Create cards that have a simple picture for each letter of the alphabet and a set of cards that contains each letter of the alphabet. Mix up the two decks of cards and place them face down on the table. Have your child choose two cards and try to match the picture with the letter (e.g., bat = b, fish=f).
Your child can associate the long and short sounds with common spellings (graphemes) for the five major vowels.

- Understand that letters are made of both vowels and consonants.
- Understand that vowels can have different sounds (long and short).
- Identify and name the vowels.

HELP AT HOME

› Print a vowel pattern or vowel team chart. This will help your child associate the long and short sound of the vowels with a picture and key word.

VOCABULARY

PHONEMES are speech sounds made by the mouth, like the /p/ sound in /spoon/. Understanding that phonemes are the building blocks of spoken words is called phonemic awareness.

GRAPHEMES are individual letters and groups of letters that represent single phonemes, like the “s” and the “oo” in “spoon.” Understanding how letters are used to encode speech sounds in written language is crucial in learning to decode unfamiliar words. Students who can decode well can teach themselves new words!

Your child can read common high-frequency words by sight (e.g., the, of, to, you, she, my, is, are, do, does).

- Understand that some words do not follow the common phonetic rules.
- Know all sounds of the letters of the alphabet.

HELP AT HOME

› Use Fry’s Pre-Primer word list to practice reading the most common words for the Kindergarten level.
› Look for words that your child can read in environmental print such as magazines, signs on the highway, menus, etc.

PRE-PRIMER WORD LIST

- a
- and
- away
- big
- blue
- can
- come
- down
- find
- for
- funny
- go
- help
- here
- I
- in
- is
- it
- jump
- little
- look
- make
- me
- my
- not
- one
- play
- red
- run
- said
- see
- the
- three
- to
- two
- up
- we
- where
- yellow
- you
STAGES OF READING DEVELOPMENT

EARLY EMERGENT READERS are beginning to learn sound/symbol relationships—starting with consonants and short vowels—and are able to read CVC (consonant-vowel-consonant) words, as well as a number of high-frequency words.

EMERGENT READERS are developing a much better grasp of comprehension strategies and word-attack skills. They can recognize different types of text, particularly fiction and nonfiction, and recognize that reading has a variety of purposes.

EARLY FLUENT READERS are experiencing a greater variety of text and are able to recognize different styles and genres. Independence often varies with the type of text being read.

FLUENT READERS read a wide range of text types and do so independently. They will continue to refine and develop their reading skills as they encounter more difficult reading materials. For the most part, they are capable of improving their reading skills and selection of materials independently through increased practice.

HELP AT HOME

- Have your child read a variety of different text.
- Have your child tell about the story using details.
- Have your child answer questions to gain meaning from what he has read.

Your child can read emergent-reader texts with purpose and understanding.

- Understand that reading should produce understanding and meaning.
- Match one-to-one correspondence to words written in texts.
- Reading involves moving from left to right across the page.
- Use grade appropriate decoding skills.

A FAMILY GUIDE FOR STUDENT SUCCESS

18
Your child can describe familiar people, places, things, and events, and with prompting and support, provide additional detail.

- Recall experiences from his life.
- Understand that adjectives are words that describe a person, place, thing, or event.

HELP AT HOME
- Ask your child to describe a trip that you have recently taken, or a trip that he would like to take in the future, and what he would like to do on the trip.
- Cut a picture out of a magazine. Have your child describe what is taking place in the picture.

Your child can form regular plural nouns orally by adding /s/ or /es/ (e.g., dog - dogs; wish - wishes).

- Use correct nouns when talking about one, or more than one, thing.
- Understand that adding -s and -es to nouns makes them mean more than one.

HELP AT HOME
- Show your child a picture in a magazine of something (e.g., a dog, cats, dishes). Have your child name the object in the picture. If there is more than one object in the picture he should use a word ending with an -s or -es.
- Give your child a word such as the word dogs. Have him draw a picture of the object that was said. Check for understanding that words that end in -s or -es must show more than one.
- Using a highlighter, have your child find words that end with the -s and -es suffixes.
Your child can capitalize the first word in a sentence and the word “I.”

- Identify capital letters.
- Understand that the word “I” must be capitalized.

**HELP AT HOME**

- Have your child use a highlighter to mark all of the capital letters in a newspaper or magazine article.
- Have your child highlight the word “I” in a newspaper or magazine article.

Your child can recognize and name end punctuation.

- Identify end punctuation marks (e.g., period, question mark, exclamation point).

**HELP AT HOME**

- Have your child use a highlighter to mark all ending punctuation marks in a newspaper or magazine article.

Your child can write a letter or letters for most consonant and short vowel sounds (phonemes).

- Identify sounds for all letters of the alphabet.

**HELP AT HOME**

- Name a letter for your child and have him respond with the sound that the letter makes. You can reverse this activity by saying a sound and having your child name the letter.
- Use picture flash cards. Have your child look at the picture and decide what sound and letter the picture starts with. You can also do this with the final sound of the picture (e.g., dog = /g/).
Your child can spell simple words phonetically, drawing on knowledge of sound-letter relationships.

- Know the sounds of the letters of the alphabet.
- Understand that letters represent sounds.
- Understand that words are made up of a sequence of letters in a specific order.

HELP AT HOME

- Using “Fry’s Pre-Primer List of Words,” call out a word to your child, have him practice writing words by stretching them out and writing the sounds that he hears. (See page 16 for Fry’s list.)
- Using counters (e.g., pennies, buttons) call out a word to your child. Have him move a counter for each sound he hears, then write the corresponding letter that goes with each sound he hears.

Your child can identify new meanings for familiar words and apply them accurately (e.g., knowing “duck” is a bird and learning the verb to “duck”).

- Understand homophones and homonyms.

HELP AT HOME

- Discuss with your child that some words have different meanings. For example, “duck” can mean “an animal,” or it can mean “to move quickly to avoid something.”

VOCABULARY

**HOMONYMS** are words that sound alike but have different meanings.

**HOMOPHONES** are a type of homonym that also sound alike and have different meanings, but have different spellings.
Your child can sort common objects into categories (e.g., shapes, foods) to gain a sense of the concepts the categories represent.

- Understand that objects and words can be sorted into basic categories.

HELP AT HOME

- Cut several pictures out of magazines that fall under 2 or more categories. Have your child sort those pictures into their correct category.
- Have your child practice sorting objects such as shape pieces, money from your change jar, or foods from the grocery store. Allow him to explain his sorting methods.

Your child can demonstrate understanding of frequently occurring verbs and adjectives by relating them to their opposites (antonyms).

- Understand opposites (antonyms).

HELP AT HOME

- Play “Toss a Word.” Start by holding the ball and calling out a word (e.g., hot). Toss the ball to your child and he must call out a word that is the opposite of your word (e.g., cold). Play back and forth several times calling different words.
- Play “Antonym/Opposite Memory.” Create a deck of cards that make opposites when paired (e.g., hot/cold, in/out, up/down). Have your child flip over two cards to try and make a match of cards that are the opposite.

VOCABULARY

**ANTONYMS** are words that are opposites (e.g., hot – cold; up – down; stop – go).

**SYNONYMS** are words that are alike or the same (e.g., large – huge; tiny – small; dirty – messy).
Your child can distinguish shades of meaning among verbs describing the same general action (e.g., walk, march, strut, prance) by acting out the meanings.

- Understand that several words can mean the same thing or almost the same thing.

HELP AT HOME

- Place several words on cards (e.g., run, jog, walk, stroll, jump, leap, hop). Have your child sort the cards into words with similar meanings.
- Have your child act out variations in similar verbs such as “jog” versus “run” or “jump” versus “hop.”
