Local Revenues

- Local Revenues received by the charter schools from the respective Local Education Agency (LEA) pursuant to MS Code Section 37-28-55 (3) are considered Ad Valorem Collections. The pro rata amount is dispersed to the charter school for the number of students enrolled at the charter school at the end of month one of the current year (FY24)
- The MDE will send a request to all charter schools around November requesting a list of students enrolled at the charter school at the end of month one. This list shall contain the students name, MSIS ID number, address, and the school district in which they reside
- The calculation to determine the amount due to the charter school will be performed by the Office of School Financial Services (OSFS) . The Ad Valorem Tax Collections will be received by the charter school from the respective LEA in the month of January

- For charter schools located within the district in which students reside, the LEA will self pay the charter school by or before January 15, 2024. The payment should be reported as 1120-800-1120-000-000-000
- For charter schools not located within the district in which students reside, the MDE-OSFS will transfer funds to the charter school via MAEP January 29, 2024. The payment should be reported as 1120-800-1120-000-000-000

State Revenues

Calculation of MAEP

- MAEP is calculated using a formula that multiplies an LEA's average daily attendance (ADA) by the state's base student cost. For charter schools, the total enrollment in the charter contract for each year will be used in place of ADA in the MAEP formula. The amount of funds that charter schools receive will be adjusted at the end of the school year based on the charter school's actual ADA. Adjustments will be made to the school's allocation in the following year of operation

Payment of MAEP

- According to 37-151-103; MAEP payments will be made two working days before the last working day of each month. ***Funds should be reported as 1120-800-3150-000-000-000***

Federal Revenues

Request of Federal Funds

- All charter schools are required to request Title I-A Basic, Title II-Effective Instruction, Title IV-A Student Support & Academic Enrichment, Special Education (IDEA- Part B and Preschool), Title I-1003(a) School Improvement and any other applicable federal grants managed through Mississippi Comprehensive Automated Performance-based System (MCAPS). Please contact Mariea Jackson at 601-359-3499 or mbanks@mdek12.org for questions accessing MCAP. - Paper requests are submitted each month, generally around the 12th. A more specific schedule is sent out to all LEAs via the listserv message system from the OSFS. The requests are submitted via email to schoolpayments@mdek12.org

SharePoint

- SharePoint is an online system used by several different program offices within the MDE. Each program office should provide instruction on how to utilize their specific folders within SharePoint. For the Office of School Financial Services (OSFS), all documents and forms should be submitted through the charter school folder via SharePoint

Mississippi Comprehensive Automated Performance-based System (MCAPS)

- The MCAPS is an online application system that reduces the burden placed on districts when applying for grant funding by increasing the transparency of grant activities and provides consistent processing of grant applications. It links funding to student outcome by focusing more on planning and data-driven decisions. MCAPS provides immediate feedback to districts on their application

Financial Exchange Transaction System (FETS)

- On or before October 15 of each year, the local school board of each school district shall prepare and file with the State Department of Education year-end financial statements and any other budgetary information that the State Board of Education may require. No additional changes may be made to the financial statements after October 15 of each year, MS Code Section 37-61-21
- FETS must be submitted through the Mississippi Student Information System (MSIS). For access to MSIS, please access the Office of Technology and Strategic Support (OTSS) website <https://www.mdek12.org/OTSS/MSIS> and complete MSIS Security Documents. Once the forms are completed and signed, email to mdeapps@mdek12.org

MS Student Information System (MSIS)

The Mississippi Student Information System (MSIS) was created to comply with the Performance Based Accreditation Model established by the Education Reform Act of 1982. This creation was strengthened by further legislation in 1994. This legislation placed an emphasis on the accurate reporting of student attendance and personnel at the school level – it required that there be no more summary data sent to the State Department of Education. MSIS was created to capture the data necessary to comply with this state legislation as well as federal requirements for reporting.

MSIS provides for the electronic collection and storage of comprehensive detailed data about teachers, administrators, students (PreK to 12), and school board members. MSIS also allows for the electronic transfer of student records from one school district to another, thus offering a unique student tracking system. The purpose of this project is to provide an efficient means in which to:

- Support the Mississippi Department of Education (MDE) performance-based accreditation model
- Support education funding programs
- Provide timely and accurate reporting of education data (schedules, attendance, grades, transportation, discipline, Vocational, and Special Education) to meet state and federal requirements
- Allow for student tracking across the state to determine student mobility trends and to assist in the reduction of the drop-out rate within the state.
