# SECTION V.B. SIGNIFICANT DISPROPORTIONALITY REPORTING FORM

#### Introduction:

In accordance with 34 CFR § 300.647 (b)(7), States are required to report to the Secretary risk ratio thresholds, minimum cell sizes, minimum n-sizes, standards for measuring reasonable progress, if appropriate, and rationales for each. In general, these rationales must contain justifications for the choices made, including all relevant data and research relied upon to make an informed choice and how the State included stakeholders in that process. Additionally, pursuant to the authority established in Section 618(a)(3) of the IDEA, the Secretary is also requiring States to report the number of years of data used by your State in making annual determinations of significant disproportionality.

#### Section A: Minimum N-Sizes

1.	Has the State:			
	a. established a minimum n-size of 30 or less in each of the 14 categories of analysis			
		described in § 300.647(b)(3) and (4) and	Yes	No
	b.	verified that the State does not expect to have a comparison group in any of the		
		categories of analysis that meets the minimum n-size?		

If you answered YES to question 1, stop. Go to Page 14, enter the name, title and click "Submit".

2.	Does your State use a presumptively reasonable minimum n-size of 30 or less for each of	Yes	No
	the 14 categories of analysis described in § 300.647(b)(3) and (4)?	163	NO

If you answered YES to question 2 please answer question 2a:

If you answered **NO** to question 2 please read below and answer question 2b:

#### Minimum N-Size Detailed Rationale(s) Required

In addition to the justification described in the Introduction, the rationale(s) must include a detailed explanation of why the numbers chosen are reasonable and how they ensure that the State is appropriately analyzing and identifying LEAs with significant disparities based on race and ethnicity in the identification, placement, or discipline of children with disabilities, as required by § 300.647(b)(7).

2b. Does your State use the same minimum n-size for all categories of analysis?  Yes	No
--	----

If you answered YES to question 2b:

• Fill in *Table 1* below by providing the minimum n-size and *detailed* rationale.

If you answered **NO** to question 2b:

• Fill in *Table 2* below by providing the minimum n-sizes and *detailed* rationales for each category of analysis over 30.
