Model for Mentoring and Induction in MS
Proposed Induction License

• Linkage from pre-service to professional license
• Sanctioned time for mentoring and induction activities
• Professional growth plan
  • Support for professional development
Definition: Mentoring and Induction

- **Mentoring**
  - The process of serving as a mentor and facilitates and assists another’s development. The process includes modeling (Gay, 1995) and provides the mentee with practical experience that may enhance knowledge [and **feedback**] throughout the beginning of his/her career.

- **Induction**
  - Professional development program that incorporates mentoring and is designed to offer support, guidance, and orientation to beginning teachers (Ingersoll & Smith, 2004).

**NOTE:** Mentoring is only 1 (one) piece of the induction process!
Impact of Program

Based on a review of research from Ingersoll and Strong, 2011.
Synopsis: Mississippi Code § 37-9-201 to 213

- Induction of beginning teachers is conducive to their professional growth and development.
- The formal assignment of mentors should substantially improve the induction and professional growth of beginning teachers in the state.
- To the extent practicable, schools districts may coordinate with IHLs in the design, implementation, and evaluation of mentorship programs.
- The mentoring and induction program must provide a minimum of ninety (90) hours of direct contact between mentors and beginning teachers.
- MDE will partner with state and local organizations to provide quality professional development for both mentors and beginning teachers.
- The selection of mentors is determined by the school district.
Mentor Roles and Responsibilities

My role is —
A great mentor teacher can possess all of these; however, situations happen when the mentor and mentee are not compatible…
Note This...

As a mentor, you focus heavily on adult learning theory versus student learning theory.
Adult Learning Theory

- Self-concept
- Past Learning Experience
- Readiness to Learn
- Practical Reasons to Learn
- Driven by Internal Motivation

Knowles, 1968.
Adult Learning Principles

• Adults are self-directed—they should have a say in the content and process of their learning

• Adults have experience to draw from—their learning should focus on adding to what they learned in the past

• Adults are looking for practical learning—content should focus on issues related to their work or personal life

• Adults’ learning should be centered on solving problems—they really do not need to memorize content.

Knowles, 1968.
Authentic Mentoring Culture: Adult Learners

**ANDRAGOGY: FOCUSES ON ADULT LEARNING**

- Similar concept to pedagogy/student learning
- Focused more on problems than content
- Adults are more interested in learning related to their personal, professional, and/or mental development
- Reflects on professional practices
Overall, a mentor’s role is to provide assistance through guidance and support for beginning teachers.
Partner/Group Activity
BREAK
(10 minutes)
Communications in Mentoring: Crucial Conversations
Are You Listening?

Partner Activity

• Get in pairs.
• Identify yourselves as an A or a B.
• A’s will talk for 90 seconds on a topic that is of interest to them.
• B will listen (do not take notes, do not talk).
• B will paraphrase what was said in 60 seconds.
“When you talk, you are only repeating what you already know. But if you listen, you may learn something new.”

~Dalai Lama
How Important Is Listening?

What did you hear?

Group Activity
According to the Association for Supervision and Curriculum Development (ASCD, 2012), new teachers face 3 common challenges.

- Classroom Management
- Curricular Freedom
- Unsupportive Environments
Post-It Activity
Examine and analyze the video below
The teacher in the video is your mentee. After observing her, consider the following:

- How might I approach my mentee after observing her practice?
- What topics of discussion must I consider before I engage in the conversation?
- How must I alleviate any personal perspectives related to the issues I have observed? *Note: Remain Professional*
- How might I safely offer solutions to assist my mentee with the issue(s) she is having?
- Will the support I give my mentee enable and/or motivate her to improve?
Critically examining yourself as a mentor:

Feedback Conversations

Simple:

What went well today and why?

What could have gone better and why?

What do I want to remember for future discussions?

Structured:

“How do I know that my mentee(s) understood my recommendations/advice?”

“What other ways might I convey this to him/her?”
Strategies for Supporting Multiple Mentees

• Develop mentor-mentee collaboration calendar
• Set designated times for meeting collaboratively, separately, and/or by content area
• Develop resources (i.e. checklists, satisfaction surveys, etc.) that may be useful to all mentees
• Consider a mentoring mosaic (multi-mentoring) or co-mentoring activities
  • One mentor may not fit all that is needed for the mentee (Ayers and Griffin, 2005)
  • Involves sharing the mentee among other mentors

- Instructional Materials
- Attendance, Grading, Instructional Standards (MCCRS)
- Classroom Management/Behavior
- Parent Contact Folder/Logs
- Professional Learning Communities
Needs of Beginning Teachers

**Phases of First-Year Teaching**

- Anticipation
- Survival
- Disillusionment
- Reflection
- Rejuvenation
- Anticipation

*Adjust calendar accordingly for year-round teachers*
### Six Phases of First Year Teaching

<tbody>
<tr>
<td>Anticipation</td>
<td>Survival</td>
<td>Disillusionment</td>
<td>Rejuvenation</td>
<td>Reflection</td>
<td>Anticipation #2</td>
</tr>
</tbody>
</table>

- **Phase 1: Anticipation**
  - Eager and excited about teaching assignment; have made big plans about the experience.

- **Phase 2: Survival**
  - Becomes overwhelmed with teaching aspects they did not anticipate; starting to get tired.

- **Phase 3: Disillusionment**
  - Feel like they are working hard, but getting nowhere; questioning if teaching is the right profession.

- **Phase 4: Rejuvenation**
  - Feel revived after Christmas Break; have some coping strategies that can be used; a sense of confidence has returned.

- **Phase 5: Reflection**
  - Toward the end of the year, they reflect on changes they want to make for next year; begin to critically analyze the past school year.

- **Phase 6: Anticipation #2**
  - Looking forward to next year; eagerness to try again is more reality-based.

Consistently remind Mentees of the big picture – changing the lives of students!!(i.e. TeachMS Campaign)

teachms.org
Trust: A Major Support

- Mentees need to know that you are trusting and authentic as a mentor.
- Trust may MAKE or BREAK the mentor-mentee relationship.
- Trust begins with the mentor getting to know the mentee.
- Heavily emphasize that your main goal as a mentor is to support the mentees’ growth in the teaching profession.
- Follow the 50/50 Rule for conversations: listen 50%--talk 50%

Note: The fundamental to the success of every mentor is the relationship he/she builds with the mentee.
Whole Group Activity: Give Trust—Receive Trust

- Use the note cards to write down 3 strategies you will/can use to develop a trusting relationship with your mentee.
- **GIVE** your 3 trust strategies to 3 different mentors in the room.
- **RECEIVE** 3 trust strategies from 3 different mentors in the room.

**Whole group Discussion:**
Did you receive any strategies that you did not write down?
How might you, the mentor, apply the strategies you received?
The Mississippi Educator and Administrator Professional Growth System (PGS) is designed to improve student achievement by providing teachers and administrators with FEEDBACK to inform continuous improvement.
**Teacher Growth System**

**Quality Feedback**

- Classroom Observations
  - A minimum of three per school year: two informal (unannounced) and one formal (announced)
  - Feedback after each observation

**Student Surveys**

**Student Outcome Measures**

**Important Note:** No mentor teacher shall participate in the evaluation of mentees per §37-9-211(1)(b).
It is suggested that mentors also observe mentees.

Mentors can provide recommendations to mentees about their practice before the professional growth system observations.
Pretend that you, the mentor, is observing the teacher in the video (next slide). Use the “Classroom Observation Scripting Form” for recording/taking notes on the teacher’s instructional practice for this activity.

You will use the Collaboration Log to prepare discussions with your mentee. We will role play these discussions.
High Leverage Instructional Practices
